TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE.

The Chicago Teachers' Pension Law as amended and in force July 7, 1931, provides that teachers then in the Chicago public school system who taught outside Chicago must make payment for their outside time within 5 years of teaching service after that date, if this outside service is to be counted for pension. Payment is to be at the rates in force before the law was passed, and may be made in installments.

Teachers entering the service after July 7, 1931, make payment at the rates established in that law, and payment must be completed within five years of teaching service after date of assignment.

The law also provides that military service within the pension period shall be counted as Chicago service but must be paid for at the rates for Outside Experience.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

Application for Refund—Denied

The Committee on Finance and Judiciary reports that:

Anna Forde Starbird taught in the Chicago Public Schools from September 1892 to June 1908, and from March 1919 to June 1921, a total of more than 18 years. She was placed on the unassigned list on September 6, 1921, and has never returned to the service.

According to her own statement she taught seventeen years in California after she left Chicago. She lives in Los Angeles.

In June 1924 she applied (from Los Angeles) for a refund of the money she had paid into the Chicago Teachers' Pension Fund. This was refused because at the time she left the service (1921) refunds were granted only to those teachers who had less than 15 years of service.

In August 1939 she wrote that she was being retired on account of disability in California and wished to apply for disability compensation for her services in Chicago schools. In reply it was pointed out that since she taught seventeen years after leaving Chicago she could not have been "incapacitated for teaching" in 1921. Six other letters have since been received all asking for disability pension or for a refund.

The Committee reports that it has carefully considered this application and

RECOMMENDS that both the requests be denied since under the law Mrs. Starbird is entitled to neither a refund nor a disability pension; and that the Recording Secretary be instructed to notify Mrs. Starbird of this action.

On motion of Mrs. Cliver, seconded by Miss Scully, this report was approved and the recommendations concurred in.

John E. Groves v. Board of Trustees—Back Pension Paid

The Committee on Annuities and Claims reports that on July 24, 1935, the Chicago Board of Education retired under the amended Compulsory Retirement Law over 250 teachers who had reached the age of 65. Of these, Mr. John E. Groves was one. He brought suit against the Board of Education to prevent his retirement. (See proceedings of the Board of Trustees for April 17, 1936, Vol. XI, page 650.) Because he claimed that his retirement was illegal he refused to apply for his pension. On January 11, 1936, he did make application and immediately asked that his pension be dated back to September 1, 1935. This request was refused, because for more than thirty years a rule of the Board of Trustees had been in force, that pensions should begin on the day on which the application is received in the Pension office.

After the Supreme Court had held that the Board of Education was within its rights in retiring him, Mr. Groves brought suit on June 17, 1938, in the Superior Court of Cook County against the Board of Trustees to compel it to date his pension back.

The case had several hearings and on February 2, 1940, the Board of Trustees, after conference with its attorney, Mr. I. T. Greenacre, agreed to pay the back pension. This was done because the litigation against the Board of Education made this an exceptional case; and on February 29th, 1940, payment of pension from September 1, 1935 to January 11, 1936, was made to Mr. Groves and the case was dismissed.

On motion of Miss Scully, seconded by Miss Mayhew, this report was accepted and ordered printed.

REPORTS OF RECORDING SECRETARY

The Recording Secretary, Miss Mayhew, presented the following report:

(2599)

Analysis of Vote at Pension Election

The Recording Secretary submits the following analysis of the vote cast on October 4, 1940, at the Pension Election, compiled from the official report of the Canvassing Board:

BALLOTS No. of ballots in group	VOTES	
	Miss Mayhew	Mrs. Oliver
10,059	10,059	10,059
280	280
182	182
* 19	11	7
<u>10,540</u>	<u>10,350</u>	<u>10,248</u>

* These were the "Ungrouped ballots"—those with names written in. They also contained 19 scattering votes.

10,540 ballots voted
 96 blank ballots
 37 mutilated ballots

10,673 ballots taken from boxes.

EXPLANATION.

The ballots are purposely so handled that no record can possibly be made as to how any particular school or district voted. The number of ballots received from each school is recorded and the ballots are then placed in large boxes with ballots from other schools. After all ballots have been received they are distributed to the tables for the canvass of the votes.

In the canvass the ballots are divided into groups, each group consisting of all ballots on which the same persons are voted for. When the reports were assembled the above totals were shown. The "Ungrouped" ballots are those on which names were written in.

By unanimous vote this report of the Recording Secretary was accepted, approved, and ordered printed in the proceedings.

Authorize Sale of Bond of East St. Louis Park District

The Committee on Finance and Judiciary presents the following letter from Barcus, Kindred and Company offering to purchase one bond of East St. Louis Park District at par plus $\frac{1}{2}$ of 1%.

LETTER FROM BARCUS, KINDRED & CO.

Chicago, November 14, 1940.

Board of Trustees,
Public School Teachers Pension & Retirement Fund,
Chicago, Illinois.

Re: \$1,000 East St. Louis Park District,
St. Clair County, Illinois 4 $\frac{1}{2}$ % Bonds,
Due 8/2/41, Bond Number 59

We are under contract to the East St. Louis Park District, St. Clair County, Illinois, to refund certain bonds maturing from 1941 to 1943.

We find that we need one bond due in 1941 to fill our needs under this contract with the District.

While this is a small matter to bother the Board about, we would appreciate your considering our offer to purchase your \$1,000 bond, due in 1941,

bond No. 59, at the par value plus accrued interest to maturity plus an additional premium of $\frac{1}{2}$ of 1% which we hope will partially compensate for the expense involved in adjusting your records for this sale.

We would appreciate your consideration of this proposal.

Yours very truly,

BARCUS, KINDRED & COMPANY

ERG/rm

By (signed) E. R. GEAGAN.

The Committee reports that it has carefully considered this offer and recommends that it be accepted and the bond sold by the adoption of the following

RESOLUTION AUTHORIZING SALE OF BOND.

WHEREAS, Public School Teachers' Pension and Retirement Fund of the City of Chicago has agreed to sell to Barcus, Kindred and Company at par plus $\frac{1}{2}$ of 1% and accrued interest one bond of East St. Louis Park District, now, therefore

BE IT RESOLVED by Board of Trustees of Public School Teachers' Pension and Retirement Fund of the City of Chicago at its regular meeting herenow being held at its offices in said city, in the County of Cook, in the State of Illinois, this 15th day of November, A. D. 1940, a quorum of the members thereof being herenow present at said meeting, that Thomas S. Gordon, City Treasurer of said City of Chicago, ex-officio Custodian of said Pension and Retirement Fund, be and he hereby is authorized, empowered, and directed to deliver to Barcus, Kindred and Company Bond No. 59 in the principal amount of One Thousand Dollars (\$1,000.00) dated August 2, 1926, issued by East St. Louis, St. Clair County, Illinois, Park District, which bond matures August 2, 1941, and to accept therefor the sum of One Thousand Five Dollars (\$1,005.00) plus accrued interest to date of maturity; and

BE IT FURTHER RESOLVED that said Thomas S. Gordon be, and he hereby is authorized, empowered and directed, by and for said Board of Trustees, and Fund, and in their name or in the name of either of them, to execute, sign, seal and deliver any and all endorsements, assignments, bills of sale, orders or directions, releases or transfers of registry, proxies or substitutions, powers of attorney, or other documents or papers or written instruments, as may be necessary, convenient or proper to perfect the consummation of all of the foregoing.

On motion of Mrs. Oliver, seconded by Miss Mayhew, this report was approved and the resolution adopted by the following roll-call vote:

Ayes—Miss Mayhew, Mr. Geilen, Mrs. Larkin, Mrs. Oliver, Mrs. Lillis, Miss Scully—6.

Nays—None.

Disability Annuities

The Committee on Annuities and Claims reports that since the adoption of the last report on Disability Annuities, the Committee has received from the Recording Secretary and submits herewith certificates from the physicians appointed by the Pension Board to examine the persons hereinafter listed; that it has considered these certificates and the applications for Disability Annuity submitted by these persons together with other evidence and finds that each such person has completed twelve or more years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; and that each has been declared by three competent physicians who have made a physical examination of said person to be suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching. The committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted a Disability Annuity in the amount set forth below opposite his or her name; said Disability Annuity to date from the day on which the application was received, and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Disability Annuities granted herein; and to file this report and the applications and physicians' certificates herewith submitted in the Pension Office.

The Committee on Annuities and Claims reports that since the adoption by the Board of Trustees of the last report on "Duplicate Pension Warrants" it has received from the Recording Secretary of this Board, and submits herewith, a list of persons who have applied for Duplicate Pension Warrants from the Pension Fund, which are recommended by the Recording Secretary. The Committee therefore

DUPLICATE PENSION WARRANTS RECOMMENDED.

Name	Month	Warrant No.	Amount

The Committee further reports that Emily T. Noa, an annuitant of the Fund, died April 22, 1937; that the sum of \$56.00 was due her estate; that repeated attempts to get in touch with the heirs brought no response; and that in January, 1940, pension warrant No. 17212 was deposited back into the fund as unclaimed pension. Upon publication of this information in the proceedings the heirs have come forward with a claim for this warrant.

The Committee therefore recommends that a new warrant in the sum of \$56.00 be issued to the heirs of Emily T. Noa.

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE.

The Chicago Teachers' Pension Law as amended and in force July 7, 1931, provides that teachers then in the Chicago public school system who taught outside Chicago must make payment for their outside time within 5 years of teaching service after that date, if this outside service is to be counted for pension. Payment is to be at the rates in force before the law was passed, and may be made in installments.

Teachers entering the service after July 7, 1931, make payment at the rates established in that law, and payment must be completed within five years of teaching service after date of assignment.

The law also provides that military service within the pension period shall be counted as Chicago service but must be paid for at the rates for Outside Experience.

(2635)

Letter from Auditors of City Treasurer's Accounts

Chicago, February 7, 1941.

The Board of Trustees of the Public School Teachers' Pension and Retirement Fund, Chicago.
Chicago, Illinois.

Ladies and Gentlemen:

Examination of the records of the office of the Treasurer of the City of Chicago, as at December 31, 1940, discloses that the Treasurer had in his custody and was accountable for cash and securities of

THE BOARD OF TRUSTEES OF THE PUBLIC SCHOOL TEACHERS' PENSION AND RETIREMENT FUND, CHICAGO

in amounts as follows:

Cash	\$ 559,317.96
Securities—Principal	9,065,550.00
Coupons in default	857.50
	<hr/>

The First National Bank of Chicago has certified to us that the above-stated balance of cash was on deposit, in a separate account, to the credit of the Fund and we reconciled it satisfactorily with the cash records of the Board of Trustees.

Securities in the principal amount set out above and coupons in default were inspected and counted in the office of the Treasurer and subsequently were found to be in agreement with the total shown by the Fund's securities records. Coupons next maturing and all following were attached to the said securities.

Our examination of the records of the Board of Trustees of the Public School Teachers' Pension and Retirement Fund was limited to the reconciliation of the amounts of cash, securities and coupons in default held by the Treasurer of the City of Chicago, as ex-officio custodian of the Fund, with the records of the fund as at December 31, 1940.

Yours very truly,

(Signed) McCOY, HOLLAND, ARNDT & SWEENEY.

On motion of Miss Mayhew, seconded by Mrs. Oliver, this communication was received and ordered printed.

The Committee on Annuities and Claims reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

The Annuitants of February, 1941

NOTE: The Financial Secretary reports 2,894 annuitants drawing pension in December, 1940. This includes only those who have completed their payments for the "basic" pension—that is, the pension for 25 years of service. The Recording Secretary, reporting the number in February, subtracts from 2,894 the sum of those who have returned to service and those whose deaths have been reported, and adds those who were placed on the pension roll in January, including all those whose payments are not completed.

The following table shows the number of annuitants classified by years of service and arranged in three groups according to the dates on which their names were placed on the pension roll:

Group I includes all those who retired before July 1, 1923.

Group II includes those who retired between July 1, 1923, and July 11, 1935.

Group III includes those who retired after July 11, 1935.

The Disability Annuitants constitute a fourth group.

Annuitants in Group One (all who retired before July 1, 1923) were granted the increases authorized by the legislature of 1923, but those increases have been withheld since September 1, 1927, from those persons who were placed on the pension roll before July 1, 1923, on account of Injunction proceedings instituted against the Pension Board. These persons receive a maximum of \$600 per year. Before July 1, 1907, women teachers could retire on pension with 20 or more years of service, and under the law they receive pro-rata pensions.

Annuitants in Group Two receive the rates authorized by the law of 1923—that is from \$800 to \$1,000 depending on length of service. In May, 1926, the compulsory retirement law became effective, and until July, 1935, the compulsory retirement age was 70.

Annuitants in Group Three receive the rates authorized by the legislature of 1935, which raised the maximum to \$1,200 for 35 years of service. At the same session the legislature fixed the compulsory retirement age at 65.

The Pension Law as amended by the Legislature of 1931, provides that any person retired by the Board of Education under the Compulsory Retirement Law with less than 25 years of service shall receive as pension such proportion of \$800 as his time of service bears to 25 years.

REPORT FROM THE RECORDING SECRETARY

(2654)

Documents in the Annual Statement

The Recording Secretary reports that copies of the Annual Statement of the condition of the Pension Fund are sent each year to the contributors and annuitants, and recommends that the Annual Statement for 1940 contain the following:

- (1) Letter from President of Board of Trustees;
- (2) The "Annual Statement" of cash transactions during the year;
- (3) The report on Number of Teachers by Pension Groups;
- (4) The Alphabetical List of Bonds owned by the Pension Fund as shown in the Report of the Special Committee which checked up the bonds on February 18, 1941;
- (5) Bonds of February 18, 1941, by counties of Illinois;
- (6) Bonds of February 18, 1941, by purpose for which issued;
- (7) The annual report on Annuitants;
- (8) The List of Annuitants as of January 31, 1941. This is a copy of the January Payroll; and
- (9) Lists of Annuitants who have married, returned to service, or died since the last such report.

(2655)

Letter from the President of the Board of Trustees

To the Contributors and Annuitants:

MEMBERSHIP:

The membership of the Board of Trustees remained unchanged during 1940. Miss Mayhew and Mrs. Oliver were re-elected by the contributors in October, each receiving over ten thousand votes in an election in which there was no contest.

There was no change in the members selected by the Board of Education.

INVESTMENTS:

The invested fund increased \$14,374 (face value) during the year, bringing the total on December 31, 1940 up to \$9,065,550.00. There are now two bonds, each of \$1,000 par value, that have not been redeemed at maturity.

OTHER FINANCIAL ITEMS:

A check-up of the December payroll showed that the number of contributors decreased 486 during 1940.

Deductions from payrolls were \$18,179.75 less than in 1939.

We placed on the roll during the year 253 new annuitants including 9 disability annuitants. Deaths and withdrawals made the net increase 139. The net payment to annuitants was \$2,720,474.25, an increase over 1939 of \$160,971.64.

ACTUARIAL SURVEY:

The Board of Trustees, at its meeting in April, authorized Henry R. Corbett Associates to make an actuarial survey of the fund. This report, which is now nearing completion, will present interesting

statistics concerning teachers and annuitants, as well as detailed statements of the assets and liabilities of the Fund.

SOCIAL SECURITY:

In August, Senator Wagner of New York introduced in Congress an amendment to the Social Security Act to extend the benefits of that act to farm labor, household help and employees of the states and their subdivisions. This would include teachers.

Senator Wagner later announced that he favored amending the Bill to exclude those employees now protected by pension systems.

No action was taken at the 1940 session, but Senator Wagner has stated that he intends to introduce a Bill in the present session to include under the Social Security Act the employees of those municipalities that do not have pension plans for retired workers.

Even if this Bill should become law our pension law could not be changed without action by the Illinois Legislature. The Pension Board is keeping in touch with the situation and will notify the contributors and annuitants if anything is done affecting our pension.

The situation at present seems to call for watchful waiting, not for alarm.

IDA NICELY LILLIS,
President, Board of Trustees.

February 21, 1941.

On motion of Miss Mayhew, seconded by Mrs. Oliver, these reports were accepted by unanimous vote.

ADJOURNMENT

On motion of Mrs. Oliver, seconded by Mr. Geilen, the meeting adjourned to meet on Tuesday, March 25, 1941, at 4:15 P. M.

Arlene Mayhew

Recording Secretary.

PENSION PAYROLL FOR THE MONTH OF JANUARY, 1941

NOTE: If an annuitant does not return the receipt for her pension warrant, the warrant for the following month is issued, but it is not mailed until the receipt for the preceding month is returned. If the death of an annuitant is not reported until after one or more warrants have been issued, these warrants are deposited back into the Fund as Unearned Pension and another warrant for the fractional part of the month up to the date of death is issued to the estate.

LIST A.

The annuitants in the following list were placed on the pension roll before July 1, 1923, and therefore the increases authorized by the legislature of 1923 are withheld from the amounts due them each month pending a decision in the injunction suit which seeks to prevent the Pension Board and the City Treasurer from paying those increases.

LIST B.

The Annuitants in the following list were placed on the pension roll since July 1, 1923, and are therefore not affected by the suit for injunction.

A teacher retiring with more than 25 years of service adds to the deductions from salary an amount sufficient to bring the total to the sum required for 25 years of service; he then receives \$800, the annuity paid for 25 years of service, and the additional annuity allowed for additional service accumulates until the required payment for the additional annuity is completed.

* The first of these amounts is the sum due the fund for either the basic pension or the additional pension, and the second amount is the sum due the annuitant to the end of January. For the basic pension (that is, the pension paid for not more than 25 years of service) the pension is withheld until payment is completed; for the additional pension, (that is, the pension paid for service in excess of 25 years) the amount of pension in excess of \$80 per month is withheld until payment is completed. Then to complete the record a check for this amount due the fund is issued and deposited, and a receipt is issued to the annuitant. See note at beginning of this List.

†Includes pension for more than one month.

‡This annuitant died in January and the first of these amounts is "unearned pension" deposited back into the fund; the second amount is the sum due the estate for the fractional part of the month up to the date of death.

§ This annuitant died before January, but the pension office was not notified until after the January checks had been written. This amount was therefore deposited back into the fund as "unearned pension".

Authorize Signature on Checks for Contingent Fund

The Committee on Finance and Judiciary reports that for many years the Board of Trustees from time to time set aside certain sums to be used for the contingent expenditures of the pension office. The first record of appropriation for this purpose is in the proceedings of the Board of Trustees (Vol. I, page 27), which sets forth in the report of the meeting of October 21, 1896:

"The clerk stated that there was no provision made for the expense of printing, postage, etc.

Mr. Halle moved that fifty (\$50) dollars be set aside for contingent purposes.

Seconded by Mr. Cameron and carried."

At frequently recurring intervals thereafter other sums were appropriated, but until 1917 the money was apparently kept in a cash account. This account was regularly audited and the audits are reported in the proceedings. The present form of report was first used on June 24, 1918 (Vol. III, page 261). The principal expenditure from the Contingent Fund is for postage. In order to pay for postage by check, the check must be certified; this necessitates a trip to the bank whenever postage is purchased.

At the meeting of June 15, 1917, the Board of Trustees appropriated \$100.00 for postage for the use of the Secretary of the Board of Education (who mailed the pension checks) and \$350.00 for the use of the Secretary of the Board of Trustees. No mention is made of a bank but in August the Recording Secretary (then Miss Mary M. Abbe) deposited \$350.00 in the Illinois Trust and Savings Bank, later the Continental Illinois Bank. Ever since that time all expenditures from the contingent fund have been by check and the account remained in the Continental Illinois Bank until the Board of Education and the Pension Office moved to the Builders Building in 1932, when for convenience the account was transferred to the Builders National Bank, located in the Builders Building. This bank became the La Salle National Bank and moved to the Field Building. Thereupon, again for convenience, the account was transferred to the American National Bank.

The present bank—the American National Bank and Trust Company—requires some authority from the Board of Trustees as to signature.

The Committee therefore recommends the adoption of the following

RESOLUTION RE SIGNATURE ON CHECKS FOR CONTINGENT EXPENDITURES

WHEREAS, the Board of Trustees of the Public School Teachers' Pension and Retirement Fund of Chicago from time to time appropriates money for the miscellaneous contingent expenses of the Recording Secretary; and

WHEREAS, for the sake of convenience and accuracy the Recording Secretary deposits this money in a bank to the end that the accounts may be more easily audited; now

Therefore, Be It Resolved by the Board of Trustees of the Public School Teachers' Pension and Retirement Fund, Chicago, at its meeting herenow being held at its offices in the City of Chicago and the State of Illinois, that the Recording Secretary of the Board of Trustees, Arline Mayhew, be, and she hereby is, authorized and directed to deposit the sums appropriated for contingent expenditures in the American National Bank and Trust Company of Chicago and to withdraw from that account by check such sums as are expended; such checks shall be signed by the Recording Secretary and no other signature shall be required on them.

On motion of Mrs. Oliver, seconded by Miss Mayhew, this report and resolution were received and ordered printed, and a copy ordered sent to the American National Bank and Trust Company.

Refund to Estate of Deceased Annuitant

The Committee on Finance and Judiciary reports that Grace T. Mahacek was retired by the Board of Education on February 17, 1941, that she made application for pension which was granted by the Board of Trustees at its meeting of February 21, 1941 (see proceedings of that date, p. 151, Doc. 2649); that she was duly notified of the action of the Pension Board; that on March 3, 1941, the pension office received from her a written request to have her pension warrant mailed; and that a pension warrant for the amount due her for one-half of February was mailed that day—March Third.

The Committee further reports that on March Fourth Miss Mahacek became seriously ill and was removed to a hospital where she died on March 6th. The law provides that refund may be made if the person has not received any pension. The administratrix of the estate applied for a refund of four-fifths of the amount Miss Mahacek had contributed to the fund, claiming that Miss Mahacek had not received any pension. The question was referred to the attorney for the Pension Board, Mr. I. T. Greenacre, who has rendered the following opinion:

OPINION OF THE ATTORNEY

Chicago, April 18, 1941.

Board of Trustees, Public School Teachers'
Pension and Retirement Fund,
Chicago, Illinois.
Ladies and Gentlemen:

In re: Estate of Grace T. Mahacek.

Your attorney to whom has been referred the application of the administratrix of the Estate of Grace T. Mahacek, deceased, former teacher and contributor to the pension fund, to pay applicant as such executrix four-fifths of deceased's contributions to the Pension Fund, respectfully reports that his opinion is based on the facts submitted:

From such facts as submitted it appears that the teacher's employment in the active service of the Board of Education had been terminated on account of age and the teacher was otherwise entitled to and applied for a pension, and a pension was shortly afterwards allowed, and pursuant to her mailed written request received that day, there was mailed to her on March 3, 1941 a Teachers' Pension Warrant payable on presentation to the City Treasurer, Chicago, Illinois, directing him to pay \$60.00 (covering the last half of February, 1941) to the order of such teacher. Such warrant was found by a neighbor in the mailbox (at the address furnished), on March 4, 1941. The teacher was then there, but she was then extremely ill, and was not competent to handle it and never had the warrant in her personal possession and it was never endorsed, nor presented to the City Treasurer for payment, and the \$60.00 or any part thereof mentioned has never been paid to anyone. On March 4, 1941 a neighbor of the teacher called the

teacher's doctor who found the teacher in a stuporous condition, entirely disoriented, and unable to comprehend ordinary questions, and her responses were unintelligible and she was unable to comprehend answers to ordinary questions, and she was immediately hospitalized and given due care, and her condition grew gradually worse. She died on March 6, 1941, 2:55 A. M., after about 30 hours without regaining consciousness. Post mortem disclosed that her condition was of the most serious type from the onset. The death certificate states that the duration of her illness was three days. The administratrix has tendered the Pension Warrant to the Pension Board.

Your attorney reports that it is his opinion that Grace T. Mahacek had not after her such retirement "received a pension or annuity from said fund", and that upon proper application the administratrix of her estate be paid four-fifths of all the money said Grace T. Mahacek may have contributed to said fund, not including any former refund.

Section 161 (bold type No. 186 in State Bar Ill. Revised Statutes of 1939) provides among other things that:

"If any contributor to said fund dies while in the active service of said board of education as a teacher, or within five years after such person's last such service, and had not thereafter received a pension or annuity from said fund: then in either such case the executor or administrator of the estate of said contributor or former contributor (as the case may be) shall, upon application to said board of trustees be paid four-fifths of all the money said contributor may have contributed to said fund, not including any former refund."

Ch. 131, Ill. Rev. Stat. (1939), Sec. 1, Par. 1st, provides as follows:

"All general provisions, terms, phrases and expressions shall be liberally construed in order that the true intent and meaning of the Legislature may be fully carried out."

Respectfully submitted,

(Signed) I. T. GREENACRE.

The Committee recommends that this opinion be approved and that, upon application, the refund to the estate be granted.

On motion of Mrs. Oliver, seconded by Mr. Geilen, this report was approved and the recommendations adopted.

Audit for 1940

The Committee on Finance and Judiciary reports that in accordance with authority granted by the Board of Trustees an audit of the Pension Fund has been completed by Henry R. Corbett Associates, and the report is submitted herewith.

The Committee recommends that this report be accepted and printed in the proceedings.

LETTER TRANSMITTING REPORT.

Chicago, April 18, 1941.

To the Board of Trustees
of the Public School Teachers'
Pension and Retirement Fund,
Chicago, Illinois.

In accordance with your directions, we have audited the accounts of the Teachers' Pension and Retirement Fund of Chicago for the year 1940, and submit the following report:

Respectfully,

HENRY R. CORBETT ASSOCIATES.

THE AUDIT AND THE ANNUAL FINANCIAL STATEMENT:

The Annual Statement compiled by the Pension Office follows an established form used for many years. It is on the same basis that the City Treasurer's Office uses, and thus facilitates comparison of the records of the two offices. Its form and terminology have become familiar to friends of the Fund who are interested in comparing the operations of one year with those of another.

The yearly Audit follows the more technical form used by the C. P. A. It emphasizes the accrual and reserve basis while the Annual Statement uses the more familiar cash basis. Consequently, items such as interest earned are somewhat different in the Audit from the corresponding items in the Annual Statement. Investments are carried at par value in the Annual Statement because that is the way they are shown in the City Treasurer's records. In the Audit, however, they are carried at book value, or amortized cost, in order to give effect to the actual interest yield.

In any comparison of particular items, these differences must be kept in mind.

DETAILS OF AUDIT

IN GENERAL

The financial exhibits in this Audit Report are for the entire year 1940. Two audits have actually been made,—one for the first six months and another for the full year. The half-year audit was required because an actuarial valuation of the Fund was made as of June 30. Without a con-

current audit the financial condition at that date could not be definitely ascertained.

This recent determination of the actuarial values enables us to put some of the financial schedules of the audit in a new and better form.

VERIFICATION OF RECEIPTS AND DISBURSEMENTS

Receipts:

Cash received by the Pension Fund during 1940 has been checked and found to have been properly recorded in the books of the Fund and promptly deposited with the City Treasurer. This included tax money, bond interest, proceeds of bond sales and maturities, deductions from teachers' salaries, amounts paid in by teachers and those withheld from pensioners in connection with past service, and other items of minor importance.

Disbursements:

Careful tests were made to insure that additions to the pension roll in 1940 had been duly authorized by your Board of Trustees. The names removed from the roll were checked against the records, and pension checks drawn but unearned because of the death of pensioners were found to have been properly deposited to the credit of the Fund. All disbursements in connection with refunds, bond purchases, and administrative expense were supported by Board authorization.

VERIFICATION OF CASH BALANCES

Reconciliation with Treasurer's Office:

At the close of each month the Treasurer furnishes the Pension Office with a summary of the incoming and outgoing cash and the balance in his custody on the last day of the month. This balance is reconciled with the balance shown on the Pension Office books through adjustments for checks outstanding and other items, if any, uncleared. These monthly reconciliements are under periodic examination by our office. A schedule in this report, "Cash in Custody of Treasurer", shows the tieup between the Treasurer's books and those of the Pension Office, with respect to cash transactions.

The Contingent Fund:

This account, formerly in the Builders' Bank but now in the La Salle National Bank, is used for the payment of minor expenses. Its balance never exceeds \$1,000. The account is reconciled by the Pension Office each month and by our staff, as of the close of the year. The year-end reconciliation is given in this report.

AMOUNTS COLLECTIBLE FROM TEACHERS AND PENSIONERS

The balances collectible at December 31, 1940, both from teachers because of service in schools outside Chicago and from pensioners on account of deficient contributions in the past were checked against the individual record cards in the Pension Office.

INVESTMENTS AND INTEREST

All investment transactions during 1940 have been checked in detail and the records of the Pension Office in this connection are in complete agreement with those of the Treasurer's Office. We made no count of the bonds

themselves as a Committee consisting of several members of the Pension Board checks and counts the bonds once a year. All bonds are registered in the name of the Retirement Board and can be sold or exchanged only on the order of the Board.

Par Value and Book Value:

On the books of the Pension Office the securities are carried both at par and book value. It is essential to have a record of the par value, especially for the transactions with the Treasurer's Office where all records deal with the par value. But it is equally necessary to keep account of the book value in order to determine the actual interest earned on bonds bought at a premium or discount and to calculate the gain or loss on bonds sold before maturity. Practically all large trust and pension funds exhibit both par and book value in their investment accounting.

UNCOLLECTED TAXES

Each year's tax levy is set up on the books with a reserve of ten per cent for loss and cost of collection. From time to time the tax authorities of Cook County adjust the estimate for loss and cost of collection to make it conform to conditions as they develop. For some years past, the collections have fallen considerably below the 90 per cent mark, and this accounts for the fact that of the \$2,650,000 taxes collectible carried on the books at the close of 1940, about \$940,000 applies to the levies of 1938 and prior years.

**DEFICIENCY CONTRIBUTIONS DUE
FROM THE BOARD OF EDUCATION**

The Board of Education is still carrying on its books as a credit due to the Pension Fund the item of \$1,030,584 representing the sum by which the tax revenues of 1928, 1929 and 1930 fell short of the amount the Board of Education was, and still is, required to contribute for those years. At the rate actually realized on the Fund's investments, the Fund has lost a considerable sum in interest because of the Board's failure to discharge this obligation.

ACTUARIAL LIABILITIES AND DEFICIT

AN APPROXIMATION

As of December 31, 1940

A complete Balance Sheet cannot be presented unless the Actuarial Liabilities be known.

All present members (including pensioners) are to get **specified payments for pensions or refunds;**

Sound insurance principles call for **yearly premiums** for all this, spread over the period of service;

The amount that really ought to be on hand today is the **LIABILITY;**

What the **Resources** of today lack of this, is the **DEFICIT;**

The Deficit can be spread, in annual payments, over a long future period;

The **ANNUAL REQUIREMENT** consists of:—

(a) the **Payment on the Deficit,**

(b) the **Annual Premiums from now on.**

On June 30, 1940—the Liabilities, as defined above, amounted to **\$67,698,758**
 (Observe that the Liabilities, as stated, include the Reserve for Refunds.)

On June 30, 1935—(exactly 5 years earlier) these Liabilities were **\$61,714,300**—an increase in five years of **\$5,984,458.**

The Actuarial Liabilities in this Fund are found to increase rather steadily. A satisfactory estimate until the next valuation can be made by proportionate increase. Six months being one-tenth of five years, the increase for the six months since June 30, 1940 would therefore be.....

REPORT OF COMMITTEE ON ANNUITIES AND CLAIMS

Miss Scully, chairman of the Committee on Annuities and Claims, presented the following reports of the Committee:

(2675)

Annuities

The Committee on Annuities and Claims reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE.

The Chicago Teachers' Pension Law as amended and in force July 7, 1931, provides that teachers then in the Chicago public school system who taught outside Chicago must make payment for their outside time within 5 years of teaching service after that date, if this outside service is to be counted for pension. Payment is to be at the rates in force before the law was passed, and may be made in installments.

Teachers entering the service after July 7, 1931, make payment at the rates established in that law, and payment must be completed within five years of teaching service after date of assignment.

The law also provides that military service within the pension period shall be counted as Chicago service but must be paid for at the rates for Outside Experience.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

My dear Mr. Corbett:

The Board of Trustees at its meeting of April 19th authorized you to make a combined actuarial survey and audit of the Public School Teachers' Pension and Retirement Fund as of June 30, 1940.

Very truly yours,

Arrangement of Report

The present Valuation Report (in two Sections, Part I and Part II) is intended to bring out, with due emphasis, not only the regular valuation items, but also features of unusual importance at this particular date.

The General arrangement is as follows:

Part I—Contains the standard tables and information regularly found in a valuation report, together with appropriate comments.

Part II—Contains additional data and explanations regarding the peculiar conditions confronting the Teachers Pension Fund at this exceptional time,—together with additional statistical tables.

* * *

CONTENTS OF PART I

FINANCIAL CONDITION AND ANNUAL REQUIREMENT

The main purpose of any valuation is to show:

(a) **The Financial Statement**,—Exhibiting (1) the Net Ledger Resources; (2) the Liabilities on account of past service; and (3) the resulting Deficit which must be paid off in a reasonable time.

(b) **The Annual Requirement**,—or total Annual Contributions necessary for sound operation of the fund, including (1) the **Annual Cost**, or aggregate Annual Premium including cost of operation; and (2) the **Necessary Payment on the Deficit** to retire or amortize it in a reasonable time.

PART I

LIABILITIES AND DEFICIT

The assertion that the Chicago Teachers' Pension Fund has no liability under the law is an absurdity that would not be recognized in any court, nor by standard accounting procedure anywhere.

It is equivalent to saying that the fund doesn't owe the teachers anything—that a teacher could not compel the Board to pay the pensions provided by law. The situation calls for emphatic comment on this subject.

The pension law provides, merely as a detail of procedure, that a temporary lack of funds, if it ever occurs, would be adjusted pro-rata among the beneficiaries.

To say that this nullifies the liability of the pension fund to pay the pensions provided for by law, is as absurd as to say that no claim against a corporation is legal and positive because the bankruptcy law provides for the pro-rating of its assets.

Of course a deficit cannot be neglected and taxes must be levied to pay it off.

The **Actuarial Liabilities** represent the amount which would be on hand in the fund if the Annual Cost, or Premium, for all the members had been paid into the fund and properly invested or applied in every year of service of all the present members. The excess of Liabilities over the Resources on hand is the **Deficit**.

The portion of this Deficit which should be paid in one year in order to amortize it over the given period appears in the **Annual Requirement** together with the Annual Cost, or aggregate yearly premium.

If a bank, an insurance company, or any corporation shows a large deficit, the bank examiners, the Insurance Department, or the bankruptcy courts might close its doors; but nations, states, cities, counties, school districts and pension funds operating under state or

national law, may and often do have deficits, and yet their bonds and obligations may be quoted at par or even higher.

The two classes of deficits are very different. The city's deficits simply mean that the urgent needs of the city for relief, public improvements, etc., are to be made up, to some extent, over future years.

In one sense a deficit is useful, because we could not start a pension fund that recognizes past service, without one. This is not always fully understood by those who start pension funds.

People do not fully realize what a serious undertaking it is to provide old age security. Other Chicago pension funds for skilled service, such as policemen, firemen, etc., have larger deficits per member than the Teachers' Fund.

ANNUAL REQUIREMENTS

ANNUAL COST, OR AGGREGATE PREMIUM—

The Most Prominent Item in the Annual Requirement

Process of Calculation:

We first find the single premium for all future pension payments, as of the expected future date of retirement, taking into consideration the probability of the member's living and remaining until retirement. This is distributed equally over all the preceding years of service, giving each such year the benefit of discount at the assumed rate. This fixes definitely the Cost or Premium for the current year for every member. The aggregate of these is the Annual Premium for the entire fund. (See Record of Amer. Inst. of Actuaries, Vol. XVI (1927), page 9.)

To this is added the estimated budget for operating expenses.

THE ANNUAL PAYMENT ON THE DEFICIT—

Another Obvious Annual Requirement is the Yearly Payment into the Fund Required to Pay Off or "Amortize" the Deficit.

In this Exhibit, the Deficit is spread over 50 years,—the longest period of uniform spread that would actually provide funds for pensions as they fall due.

Why as long as 50 years? Pensions are granted in recognition of past service often over two generations. The taxpayers of today must bear the normal cost for their own current service; and in times like these, as much of the burden should be passed on to a still later generation as possible without sacrificing the soundness of the financing.

In insured plans the insurance company always requires amortization over periods of 15, 20, or at most 25 years. In determining the tax rate, the attention of the Legislature is called to our conservatism in spreading the amortization over the longer period.

It has been repeatedly held that pensions of this type are a recognized obligation under the law. The Legislature assumes discretion as to how and when the needed taxes shall be levied. To neglect levying sufficient taxes to pay obligations created by law amounts to repudiation. (See page opposite Financial Statement.)

EXHIBIT OF ANNUAL REQUIREMENTS

The Annual Requirement is the amount that should be paid into the Fund yearly, to keep the Liabilities from increasing; and to pay them off in a reasonable time.

Reserve for Refunds:

Only a part of the teachers' contributions will ever apply to the payment of pensions. A substantial portion will be refunded to teachers who die or withdraw before retirement. Only the net contributions, over and above this Reserve for Refunds, apply on the Annual Cost.

*—3½% is used instead of 4%, because here the major portion is nearer at hand. The interest decreases year by year.

This principle is applied in two quite different ways:

- (1) Reserve against **total contributions on hand** at any time.

This Reserve appears in the Financial Statement.

Only the net contributions less this Reserve apply on the net Resources of the fund.

- (2) Reserve against the **annual contributions**.

This Reserve appears in the Annual Requirements.

Somebody (either the teachers or the taxpayers) should contribute the Annual Requirement. How much of this sum do the teachers contribute? Not the entire contributions of that year, but only the **net** yearly contributions after deducting the annual reserve for refunds.

Both the **Total** Reserve for Refunds, and the **Annual** Reserve for Refunds must be computed by the Actuary during the process of valuation.

Interest and Withdrawal Rates:

The prevalence of government loans for many investors has led to a general feeling that interest is best measured in these days by government bond rates. However, securities such as yours have yielded interest at rates consistently higher than government bonds.

It must be remembered that our Cost and Liabilities are discounted for the long period from present age to retirement,—often forty or forty-five years,—which is longer than any ordinary period of financing. Low interest rates in one decade are partly offset by higher rates in later decades.

If lower rates of interest than ever known before should continue uniformly over the next fifty years, it would of course **increase** the necessary Annual Requirements over this long period. In one of the statistical tables in this report, we are showing the difference between Cost and Liability at $3\frac{1}{2}\%$, and at 4% .

Advantage of Using Former Rates:

Unless we use approximately the same basis of interest and withdrawal as heretofore, we cannot observe so well the trends of increase or decrease over a recent period; and this is quite important. One result of a new valuation is to discover the trends and changes in the Liabilities and Deficit, and such trends are distorted when we use a different basis of calculation, so that the actual rates of change are not so clearly seen.

It has seemed wiser, all things considered, to use the same rate of interest. The study of withdrawal during the last five years shows no material change in that rate also.

PART II

Additional data and explanations regarding the peculiar conditions confronting the Teachers' Pension Fund at this exceptional time,—together with additional statistical tables.

UNUSUAL AND VITAL ISSUES

Until a few months ago, we were assuming little or no activity vital to us at the coming legislative session. New conditions have changed this radically, and instead of expecting an inactive session we must be unusually alert. There was never greater need for organized readiness and full information. The completeness and usefulness of the Fund's program might depend upon such readiness.

The Cost of Social Security Benefits:

It has seemed peculiar for teachers to be interested in two separate pension funds when the benefits under both together are less than those for policemen, firemen, and janitors. We are now faced with the possibility that there may be still a third—Social Security. We must have similar data,—the same items of Cost and Liability on the Social Security pensions for the same persons—the members of our Fund.

The \$500 Pensions from Board of Education:

Attention will, of course, be fixed on the entire pension provision for teachers including the \$500 from the Board of Education, and cost data regarding the latter is as imperative as the cost data on our pension fund itself.

Nothing in this Report would be more vital or welcome in the next few months than clear exhibits of cost not only on our fund itself, but likewise on the Social Security benefits for teachers, the Board of Education's pensions for the teachers, and the combined effect of any two, or of all three. The survey ought to cover the special problems and interests along pension lines confronting the teachers at this critical time.

**Liability and Annual Cost of Social Security for
Chicago Teachers—Basis of Calculation:** (See Table)

We are all in hopes that our fund can be exempt and its members can continue to be exempt from the Social Security Act. The most promising scheme for securing this exemption seems to be the plan advocated by Mr. A. A. Weinberg of Chicago, which provides that whenever one of our members is transferred to an employment under Social Security, the contributions that would have accumulated on his account shall be transferred from our fund to the Social Security fund. We shall favor this provision, but realize there is serious doubt about its acceptance by Congress. We ought to consider, therefore, what to do in case exemption fails. In that case the result would probably be the following change in the Teachers' Pension law:—

That every pension payment from the Social Security Fund to a pensioner of this fund for the same period shall be regarded as a part payment upon his pension from this fund; and only the excess over the payment to the same pensioner for the same period from Social Security shall be made from the Teachers' Pension Fund.

There would probably be corresponding changes in the tax rate and in the rate of teachers' contributions.

The Annual Cost and Liability shown in the next table under the title "Social Security" is **the reduction** in Annual Cost and Liability of the Teachers' Pension Fund, as shown in Part I, **if the above change** were made in the **Teachers' Pension law**.

The Liability and Annual Cost shown for Social Security are not the total cost,—but only the cost for the Social Security benefits deducted in the amendment to our law, as described above. The cost figures do not include cost for benefits to families and dependents.

Men and Women Under Social Security:

Women employees must pay the same contributions to Social Security as men; but they don't get the same benefits. The men get pensions for their wives after the man dies,—there is no such provision for husbands of women employees; and all this means more cost for benefits as a whole while women pay the same tax.

As a partial offset to this,—rates for the regular annuities are higher for women because they tend to live longer. But remember that this applies also to the pensions for the wives of the men. The average cost of men's benefits will considerably exceed the average cost for women's benefits.

Actuaries can make fairly good estimates of the costs for these additional benefits, but it will take years of experience before we can forecast accurately the relative cost for men and women under the Social Security Act.

All this is important for us, because our members are so largely women.

These comparative costs are shown in the following table:

Comparison of Current Annual Cost and Liability for each of the following:—Teachers' Pension Fund;—Board of Education \$500 Pensions;—Social Security Pensions; all as explained above, computed for the personnel of the Teachers' Pension Fund on the same basis used for the Financial Statement in Part I.

TOTAL ANNUAL TAX REQUIREMENT

Comparison With Other Chicago Funds

From information available in the Tax Extension Office and the Board of Education budget department, the assessed valuation of property in the City of Chicago has been a little over two billion dollars during the past five years. The following figures, showing the tax mills and revenue, are based upon this estimate. The usual loss and cost of collection of 10% has been deducted.

The following figures show the moderate tax requirement per member of the Teachers' Pension Fund, as compared with other Chicago funds.

We have also expressed the total annual requirement (\$3,237,654 shown in Part I) in the amount of tax-mills required from taxation to finance the fund properly,—an annual tax rate of 1.8 mills.

HENRY R. CORBETT Actuary, Chicago

The Question of Interest Rate;

Results at 4% and at 3½%—

World conditions today give pessimists a great opportunity. Some doubt whether America will ever again have normal prosperity. Life insurance companies are using lower interest rates which means higher premiums, because they are obliged to estimate the worst conditions. If their reserves ever prove too small, the Insurance Departments will close their doors. Their influence encourages low interest expectations; hence many financial authorities think interest on safe investments will continue low. No doubt interest will be low for the next five or ten years, but the Fund will be paying pensions to our present members twenty, forty, even sixty years from now. We are discussing interest rates not over a decade, but two or three generations. We believe that interest will average 4% over this long period.

Moreover, war is destroying and wasting capital as never before in world history,—another reason why capital is likely to bring higher interest as soon as normal times are restored.

A pension fund differs from a life insurance company. For a pension fund the ideal rate is the most **probable** rate, with equal chance of its going higher or lower. The low rate would mean that present taxpayers are asked for excessive taxes. Too high a rate means that future taxpayers pay excessive taxes.

In view of the differences in opinions of well informed people, we are showing results both ways, in the following table:

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE.

The Chicago Teachers' Pension Law as amended and in force July 7, 1931, provides that teachers then in the Chicago public school system who taught outside Chicago must make payment for their outside time within 5 years of teaching service after that date, if this outside service is to be counted for pension. Payment is to be at the rates in force before the law was passed, and may be made in installments.

Teachers entering the service after July 7, 1931, make payment at the rates established in that law, and payment must be completed within five years of teaching service after date of assignment.

The law also provides that military service within the pension period shall be counted as Chicago service but must be paid for at the rates for Outside Experience.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

(2725)

Annuities

The Committee on Annuities and Claims reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

REPORT OF COMMITTEE ON PENSION LAWS AND RULES

Miss Sholund, Chairman of the Committee on Pension Laws and Rules, presented the following report of the Committee:

(2729)

Increase in Pension Tax Rate

The Committee on Pension Law and Rules reports that Senate Bill No. 436 passed the Senate on May 7th by a vote of 44 to 1, passed the House on June 26th by 126 to 0, and was signed by Governor Green on July 15, 1941. This amendment increases the tax rate for the pension fund from eight-tenths of a mill to one and two-tenths mills on the assessed valuation of all taxable property in Chicago.

The Committee recommends that this report be approved and that Sections 154 and 189½ (the two sections amended) be printed in the proceedings.

The Committee further recommends that the Board of Trustees express its appreciation

to SENATOR JOHN M. LEE,

who introduced the Bill and supported it strongly;

to REPRESENTATIVE JOSEPH L. RATEGAN,

who handled the Bill in the House and steered it safely through the stormy days of the filibuster and the closing weeks of the session; and

to MR. DOUGLAS SUTHERLAND, Executive Secretary of the Civic Federation,

whose favorable recommendation to the Committees of the Senate and the House greatly expedited the passage of the Bill.

NOTE: Section 154 is a part of the pension law; Section 189½ is part of the general revenue section for schools. Since both give the rate of tax for the pension fund, both sections were amended.

SECTIONS 154 AND 189½ OF THE SCHOOL ACT AS AMENDED.

Sec. 154. The public school teachers' pension and retirement fund of such city shall consist of moneys paid into said fund by persons desiring the benefits thereof, under the provisions of this Act; of moneys received from donations, legacies, gifts, bequests or otherwise on account of said fund, and of moneys paid into said fund in pursuance of any law now in force or hereafter to be enacted, and also all taxes collected for said fund pursuant to the levy herein (or hereafter) authorized, and moneys from any legal source or increment. For the purpose of providing revenue for such pension fund the board of education of such city shall in the year 1932 and annually thereafter demand and direct, and the city council of such city shall upon such demand and under such direction annually levy such tax, which in the year 1941 shall be eight-tenths (8/10) of a mill, and in the year 1942 and annually thereafter shall be one and two-tenths (1.2) mills on each dollar of the assessed valuation of all taxable property on all taxable property in such city. Said tax shall be known as public school teachers' pension and retirement fund tax. Such tax shall be levied and collected in like manner with other general taxes for school or educational

purposes of such city and shall be in addition to the maximum of all other taxes which such city (either with or without such demand or direction) is now or hereafter may be authorized by statute to levy upon the aggregate valuation of all taxable property within such city.

The County Clerk in reducing taxes levied as and when so required to do by the provisions of Section 2 of an Act entitled, "An Act concerning the levy and extension of taxes," approved May 9, 1901, in force July 1, 1901, as subsequently amended, shall not consider the tax herein authorized as a part of the tax levy of such city required to be included in the aggregate of all taxes to be reduced, and no reduction of any tax levy made under the provisions of said last mentioned Act shall diminish the amount appropriated or levied for said public school teachers' pension and retirement fund tax; said tax, when collected, shall be paid into the public school teachers' pension and retirement fund as a part thereof.

Sec. 189 $\frac{1}{2}$. The city council of any city in this State having a population exceeding 500,000 inhabitants and having a public school teachers' pension and retirement fund shall upon the demand and under the direction of the board of education annually levy for the purpose of providing revenue for such pension fund, a tax which in the year 1941 shall be eight-tenths ($\frac{8}{10}$) of a mill, and in the year 1942 and annually thereafter shall be one and two-tenths (1.2) mills on each dollar of the assessed valuation of all taxable property on all taxable property in such city. Said tax shall be known as public school teachers' pension and retirement fund tax. How the Pension Election is Conducted

Membership of Pension Board

The Board of Trustees of the Chicago Teachers' Pension Fund consists of nine members. Three of these are members of the Board of Education and the other six are elected by and from the contributors. Each teacher member is elected for a three-year term, two being elected each year.

Pension Election in the Schools

The election takes place in the schools. Each school elects a judge of election and two clerks who serve for two years, and who conduct the election in accordance with regulations of the Pension Board. The Pension Office sends to each school all necessary material, including ballots and a ballot box with instructions for conducting the election.

Ballot Box and Report Delivered

When the teachers in the school have voted, the ballot box is sealed and after school the Judge of Election delivers it to the Canvassing Board with reports signed by the Judge and Clerks.

The Canvassing Board

The City is divided into 35 pension election districts and the Judges of Election in each district elect one of their own number as a member of the Canvassing Board for a two-year term. Only the Canvassing Board so elected or other Judges of Election who fill temporary vacancies handle the ballots after they have been placed in the ballot boxes in the schools. The Canvassing Board directs the count and canvass of the ballots.

Counting the Ballots

The ballots are purposely so handled that no record can possibly be made as to how any particular school or district voted. When the voting in the school is concluded the Judge of Election seals the box so that nothing can be added. When the box is delivered to the Canvassing Board the folded ballots are taken out and counted, the number of ballots is checked with the written report brought in by the judge and the ballots (still folded) are placed in a large ballot box with ballots from other schools. For each election the Canvassing Board borrows five large boxes from the Chicago Election Commissioners and ballots from about 80 schools are placed in each box.

Canvassing the Ballots

After all boxes have been received from the schools the large boxes are opened by the Canvassing Board and the ballots are distributed to six tables where for the first time the ballots are unfolded so that the vote may be counted. The ballots are then sorted into groups, each group consisting of all ballots on which the same persons have been voted for. Each table makes out its own report and seals the counted ballots in a large

envelope with a copy of the report pasted on it. The reports are then assembled and the final report made.

In the election of 1941 the first boxes from the schools were received about 2:30 and the canvass was completed and the final reports signed by ten o'clock. There were six candidates for two offices and there were over eleven thousand ballots, so it is evident that the work was well organized and that no time was wasted.

Votes and Ballots

The one point of difficulty seems to be the distinction between votes and ballots. If ten thousand ballots are cast, and two persons are voted for on each ballot, then there are twenty thousand votes. In the 1941 pension election 11,135 ballots contained 22,186 votes, and the Report of the Canvassing Board shows the total number of ballots cast and the total vote received by each candidate.

No Distinguishing Mark on Ballots

The Judge of Election should not put his initials or any other distinguishing mark on the ballots. Such action would make possible a check on the way his school voted—which is exactly what should not occur.

On motion of Miss Mayhew, seconded by Miss Scully, these reports of the Recording Secretary were approved and ordered printed.

Annuities

The Committee on Annuities and Claims reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

Opinions of Attorney—Pension Election

The Committee on Pension Law and Rules reports that in connection with the 1941 pension election three questions arose which were referred to Mr. I. T. Greenacre, Attorney for the Board of Trustees. The first two questions concerned nominating petitions, and the third question was in reference to a contingency which was possible, though unlikely.

Mr. Greenacre's opinions and the questions are submitted herewith.

The Committee recommends that this report be accepted and that the opinions and this report be printed in the proceedings.

OPINIONS OF ATTORNEY RE PENSION ELECTION

Chicago, October 10, 1941.

Miss Catherine J. Trout,
Assistant Secretary of Public School Teachers'
Pension and Retirement Fund,
Chicago, Illinois.

Dear Miss Trout:

In reply to your letter of October 6, 1941, and each of the paragraphs therein, I submit the following copies of each paragraph therein followed by my opinion in answer thereto, as follows:

Illegal Signatures Do Not Invalidate a Petition

"One of the petitions contained 39 signatures. Examination showed that four were names of annuitants and one other we could find no record of. We accepted the petition on the basis of the 34 valid signatures (only 25 are required). Was that right?"

Answer: Yes.

Candidate May Not Withdraw After Canvassing Board Has Met.

"On Wednesday, October first, the Canvassing Board canvassed the petitions. We received written acceptances from all the candidates. On Thursday, October 2nd, we mailed specimen ballots to the schools. On Saturday, October 4th, we received a telegram from one of the candidates requesting withdrawal of his name. We accepted the telegram but could not withdraw the name. The Rules and Regulations in Section V of By-Law 7 provide that:

'It shall be the duty of the Recording Secretary . . . to notify the contributor . . . that such petition has been filed, and unless such contributor shall notify the Recording Secretary of the withdrawal of his name as such candidate not later than noon of the day the Canvassing Board meets to canvass the petitions as herein provided the name of such contributor shall appear on the primary ballot, if the Canvassing Board finds the petition of such contributor sufficient.'

The candidate's name therefore appeared on the official ballot. Was that proper?"

Answer: Yes.

If Three Candidates Receive Majority—Two Highest Are Elected.

"The Pension Law (Sec. 152) provides that 'any candidate for Trustee of the Pension Fund who receives a majority of all the votes cast at the Primary Election shall thereby be, and be declared to be, finally elected Trustee.'"

Answer: Correct, but circumstances might develop requiring in connection therewith the application of the provisions of the Statute on the Construction of the Statutes (See: Illinois Revised Statutes 1941, State Bar Association Edition, Page 2110, Chapter 131, Section 1, first 2 paragraphs reading as follows:

"1. General Rules. Sec. 1. That in the construction of all statutes now in force, or which may hereafter be enacted, the following rules shall be observed, unless such construction would be inconsistent with the manifest intent of the Legislature or repugnant to the context of the same statute, that is to say:

First—All general provisions, terms, phrases and expressions shall be liberally construed in order that the true intent and meaning of the Legislature may be fully carried out."

"If we have ten thousand ballots, each containing two votes, it is possible that three candidates might receive 5,040, 5,030 and 5,010 votes respectively. But there are only two vacancies.

Answer: While it would be unusual, yet it could happen. In such case the two higher candidates would be finally elected. This would also be true if the two highest were tied, but if the last two were tied, Section XIII of By-Law 7 of the Rules and Regulations provides that "if at any primary or final election two or more persons shall receive the same number of votes, and all of them cannot under these by-laws become candidates or trustees, as the case may be, then such tie or ties shall be then and there decided by lot."

Sincerely yours,

(Signed) I. T. GREENACRE,
Attorney.

Time Spent on Sick Leave May Be Counted for Pension

The Committee on Pension Law and Rules reports that Mr. I. T. Greenacre, attorney for the Board of Trustees, has rendered an opinion on the question as to whether time spent by a teacher on sick leave for which the Board of Education pays part salary may be counted as part of the time required for a pension; and recommends that this opinion be accepted and printed in the proceedings, and that such time be allowed for pension.

OPINION OF ATTORNEY RE CREDIT FOR SICK LEAVE

To the Honorable Board of Trustees of the Public
School Teachers' Pension and Retirement Fund,
Chicago, Illinois:

Ladies and Gentlemen:

Your attorney to whom has been referred the question of whether the time spent upon leave of absence for which the Board of Education of the City of Chicago pays part salary may be counted as part of the service time necessary to qualify a teacher to receive a pension under the provisions of the School Act applicable to your pension fund, after consideration thereof, respectfully reports that:

It is his opinion that such time spent on absence with part salary paid by the Board of Education may be so counted; provided that if any teacher desires to count for pension purposes the time spent on such leave he or she shall pay into the Fund the amount that would have been deducted from his or her salary if he or she had been in active teaching service in the public schools in Chicago; and if payment is deferred then simple interest at 4% per annum should be added to such required payment.

When a teacher is absent on account of personal illness her name is carried on the regular payroll of the Board of Education for two weeks, pension deductions are made, and the time is credited for pension. Absence in excess of two weeks is under "Leave of Absence" and no pension is deducted, although when the absence is for personal illness, part salary is paid for an additional ten weeks, or two and one-half months. The rate of payment per day is the same for teachers on sick leave and teachers on sabbatical leave.

This opinion is an extension of the opinion rendered January 19, 1940, concerning Credit for Sabbatical Leave, which opinion is set forth in the printed proceedings of the Board of Trustees for February 16, 1940, on page 492.

(Signed) I. T. GREENACRE.

(2770)

Annuities

The Committee on Annuities and Claims reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

McCOY, HOLLAND, ARNDT & SWEENEY

Chicago, February 3, 1942.

The Board of Trustees of the Public School Teachers' Pension and Retirement Fund, Chicago, Illinois.

Ladies and Gentlemen:

Examination of the records of the office of the Treasurer of the City of Chicago, as at December 31, 1941, discloses that the Treasurer had in his custody and was accountable for cash and securities of

THE BOARD OF TRUSTEES OF THE PUBLIC SCHOOL TEACHERS' PENSION AND RETIREMENT FUND, CHICAGO

in amounts as follows:

Cash	\$ 283,215.52
Securities—Principal	9,405,200.00
Coupons in default.....	498.75

The First National Bank of Chicago has certified to us that the above stated balance of cash was on deposit in a separate account to the credit of the Fund and we reconciled it satisfactorily with the cash records of the Board of Trustees.

Securities, in the principal amount set out above, and coupons in default were inspected and counted in the office of the Treasurer and subsequently were found to be in agreement with the total shown by the Fund's securities records. Coupons next maturing and all following were attached to the said securities.

Our examination of the records of the Board of Trustees of the Public School Teachers' Pension and Retirement Fund was limited to the reconciliation of the amounts of cash, securities and coupons in default held by the Treasurer of the City of Chicago, as ex-officio custodian of the Fund, with the records of the Fund as at December 31, 1941.

Yours very truly,

(Signed) McCOY, HOLLAND, ARNDT & SWEENEY.

On motion of Miss Mayhew, seconded by Miss Scully, this communication was received and ordered printed.

TEACHERS' PAYMENTS FOR SABBATICAL LEAVE AND SICK LEAVE

A teacher who has been granted Sabbatical Leave by the Chicago Board of Education may count the time so spent as part of the service necessary to qualify him or her to receive a pension by paying into the Fund the amount that would have been deducted if the teacher had been in active service plus simple interest at four per cent (4%) per annum if payment is deferred. Time spent on sick leave for which the Board of Education paid part salary may also be credited for pension under the same terms as payment for Sabbatical Leave.

The following teachers have made payments for time spent on Sabbatical Leave or Sick Leave on the dates and in the amounts shown after each name:

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE.

The Chicago Teachers' Pension Law as amended and in force July 7, 1931, provides that teachers then in the Chicago public school system who taught outside Chicago must make payment for their outside time within 5 years of teaching service after that date, if this outside service is to be counted for pension. Payment is to be at the rates in force before the law was passed, and may be made in installments.

Teachers entering the service after July 7, 1931, make payment at the rates established in that law, and payment must be completed within five years of teaching service after date of assignment.

The law also provides that military service within the pension period shall be counted as Chicago service but must be paid for at the rates for Outside Experience.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

The Annuitants of February, 1942.

NOTE: The Financial Secretary reports 3,062 annuitants drawing pension in December, 1941. This includes only those who have completed their payments for the "basic" pension—that is, the pension for 25 years of service. The Recording Secretary, reporting the number in February, subtracts from 3,062 the sum of those who have returned to service and those whose deaths have been reported, and adds those who were placed on the pension roll in January, including all those whose payments are not completed.

The following table shows the number of annuitants classified by years of service and arranged in three groups according to the dates on which their names were placed on the pension roll:

Group I includes all those who retired before July 1, 1923.

Group II includes those who retired between July 1, 1923, and July 11, 1935.

Group III includes those who retired after July 11, 1935.

The Disability Annuitants constitute a fourth group.

Annuitants in Group One (all who retired before July 1, 1923) were granted the increases authorized by the legislature of 1923, but those increases have been withheld since September 1, 1927, from those persons who were placed on the pension roll before July 1, 1923, on account of injunction proceedings instituted against the Pension Board. These persons receive a maximum of \$600 per year. Before July 1, 1907, women teachers could retire on pension with 20 or more years of service, and under the law they receive pro-rata pensions.

Annuitants in Group Two receive the rates authorized by the law of 1923—that is from \$800 to \$1,000 depending on length of service. In May, 1926, the compulsory retirement law became effective, and until July, 1935, the compulsory retirement age was 70.

Annuitants in Group Three receive the rates authorized by the legislature of 1935, which raised the maximum to \$1,200 for 35 years of service. At the same session the legislature fixed the compulsory retirement age at 65.

The Pension Law as amended by the Legislature of 1931, provides that any person retired by the Board of Education under the Compulsory Retirement Law with less than 25 years of service shall receive as pension such proportion of \$800 as his time of service bears to 25 years.

All questions involving the expenditure of money or the investing of Pension Fund property shall require for their adoption a majority vote of all the members of the Board.

MOTION TO RECONSIDER

Rule XVII. No motion for a reconsideration of any vote shall be entertained unless such motion shall be made at the meeting at which the vote sought to be reconsidered shall have been taken, or at the next regular meeting thereafter. Upon the request, indicated by a motion and second, or otherwise, of any two members of the Board who shall have voted with the prevailing side upon any matter, a motion made at the same meeting to reconsider the vote thereon, or a notice given at the same meeting of an intention to move at the next regular meeting a reconsideration of such vote, shall unless sooner disposed of, suspend the operation of the original vote until the close of the next regular meeting. Where the ayes and noes have not been called on any question it shall be presumed, for the purpose of a motion to reconsider, that any member voted with the prevailing side upon such question.

ANNUITIES

Applications for Annuities

By-Law 2, Sec. 1. Any person entitled thereto under the law, having

completed the required term of service and the required payments into the pension fund, desiring an annuity of any kind, shall make written application therefor on the official blank provided by the Board of Trustees.

Applications for Disability Annuities.

Sec. II. Any contributor to the pension fund, having taught the required number of years and contributed the required amount to the pension fund, desiring an annuity for disability, shall make application on the official blank provided by the Board of Trustees.

No person shall be retired on a disability annuity until such person shall have been declared by three competent physicians, who have made a physical examination of such person at the request of a majority of the Board of Trustees, to be suffering from a disability which wholly and presumably permanently incapacitates the applicant for teaching.

Computing Time Necessary for Annuity.

By-Law 3, Sec. I. In computing the time necessary for an annuity, only time served in public schools of the United States shall be considered; provided that time spent in the military service of the United States during the pension period shall be counted as service in Chicago if payment therefor is made as provided in Section 155 of the School Act.

A Year of Service Outside Chicago

Sec. II. In computing outside experience, that is, past service of a teacher rendered outside of the City of Chicago, no year's service shall consist of less than the full legal school year of the place at which such service was rendered.

Where the service rendered was less than the required school year at the time and place where the service was rendered then the credit given shall be such proportional part of a school year as the number of months taught bears to ten months.

Substitute Service Counted.

Sec. III. In estimating the required time necessary for an annuity substitute service or service in Chicago

under a temporary teachers' certificate shall be credited at the rate of one month's credit for each 20 days of such service.

Submitting Evidence of Service Outside of Chicago.

By-Law 4. It shall be the duty of the Recording Secretary after each meeting of the Board of Education, to make a list of the teachers who have entered the service of the Board of Education for the first time as teachers and whose record of service rendered in public schools outside of Chicago has not been approved and accepted by the Board of Trustees.

It shall be the duty of the Recording Secretary to notify each such teacher, on the official blank provided by the Board of Trustees, to present evidence attesting and proving service of such teacher in public schools outside of Chicago, if there be such service, and the Recording Secretary shall present the same to the Committee on Finance and Judiciary and the findings of the committee thereon shall be promptly reported to the Board of Trustees.

When approved by the Board of Trustees, the Recording Secretary shall submit to the Payroll Bureau of the Board of Education a statement, on the official blank provided by the Board of Trustees, showing said list of teachers and the amount of service in public schools outside Chicago that has been presented by each such teacher and approved and accepted by the Board of Trustees, which statement shall be the basis for placing each such teacher in the proper group of the groups provided under Section 155 of the pension law, and the amounts provided in said section shall thereupon be deducted from the salaries of each such teacher each month and set aside and paid into the teachers' pension fund.

Payment for Outside Service

By-Law 5. Payments for Outside Service under the provisions of the Pension Law as amended and in effect July 7, 1931, may be made in full or in installments of not less than twenty per cent of the entire amount owing the Pension Fund on account of such outside service.

It shall be the duty of the Recording Secretary to notify at least once a year each teacher in service who has taught in public schools of the United States outside Chicago of the provisions of the pension law regarding payment for his or her outside time, and of the amount still due the fund on such account.

ANNUITANTS MAY SEVER CONNECTION WITH THE PENSION FUND.

By-Law 6. Any person, whose name is on the list of those who are receiving a pension from the Public School Teachers' Pension and Retirement Fund, may have such name stricken from such list, provided that such person shall make an application in writing to the Board of Trustees stating such desire to avail himself or herself of the privileges of this rule.

Any person whose name is so stricken from the list of annuitants shall, if such person again retires from the service of the Board of Education, and is again granted an annuity, be qualified for an annuity under the provisions of the Pension Law then in force. The Pension Fund shall not, during the time such name remains stricken from the list of annuitants, nor at any time thereafter, be liable for or pay any pension, annuity, or benefit for such period of time while such name remained so stricken from said list.

BY-LAW 7—NOMINATION AND ELECTION OF PENSION TRUSTEES

TERM OF OFFICE—DATE OF ELECTION

By-Law 7. Sec. 1. On the second Friday in the month of November of each year there shall be elected two members of the Board of Trustees from those members of the teaching force who are contributors to the pen-

sion and retirement fund, who shall hold office for a term of three years, while remaining contributors thereto.

PRIMARY ELECTION

Sec. II. Five weeks before each final election there shall be held in each of the places hereinafter designated as polling places, a Primary Election for the purpose of nominating candidates for said Board of Trustees from the members of the teaching force. At one of the said polling places every person who is a member of the teaching force of such city, and a contributor to such pension and retirement fund, shall be entitled to vote by secret ballot at such primary election for as many persons to be nominees as there are trustees to be elected; provided no contributor shall be entitled to vote unless his or her name shall appear on the registration sheet of the polling place at which he or she presents himself or herself. The persons receiving the highest number of votes in said primary less than a majority of all the votes cast thereat shall appear as nominees for trustees upon the election ballot; provided, the number of such names appearing on the election ballot shall be not more than double the number of trustees to be elected, and provided that any candidate for Trustee of the Pension Fund who receives a majority of all the votes cast at the Primary Election shall thereby be, and be declared to be, finally elected trustee. Where the full number of candidates to be finally elected each receives a majority of all the votes cast at the Primary Election no final election shall be held.

Notices of Elections

Sec. III. On Saturday of the eighth week preceding the date fixed by law for the Annual Election of Trustees to the Board of Trustees of the Public School Teachers' Pension and Retirement Fund, there shall be mailed by the Recording Secretary to the Judge of Election in each school, a notice of the primary and final elections and of the time and place of holding said elections, and two credential blanks, which blanks shall be each in the following form:

Board of Education Polling Place

There shall be in addition to the above, a polling place provided by the Secretary of the Board of Education at the rooms of the Board of Education, and all superintendents, supervisors, teachers of special subjects and all other contributors to the teachers' pension fund who are not permanently assigned to and located in some school may vote at primary and final elections at said polling place in the rooms of the Board of Education; provided, that such superintendents, supervisors, teachers of special subjects, and other contributors may vote at the polling place in the school in which such superintendent, supervisor, special teacher, or other contributor may be on the days of said elections.

Sec. XIII. It shall be the duty of the Recording Secretary to have registration sheets for each school printed, said printed sheets to contain the list of contributors to the said Pension Fund who are teachers in each school and entitled to vote therein.

After opening the supplies envelopes and before declaring the polls open at both Primary and Final Elections, it shall be the duty of the Judge and Clerks of Election in each school to add to the printed registration sheets the names of any contributors who have been transferred to the school or newly assigned there, and to strike off from the printed sheets the names of any teachers no longer entitled to vote in that school.

The Judge and Clerks of Election shall be entitled to a reasonable time after opening the supplies envelope and before declaring the polls open to comply with the requirements of this section and also to check up the election supplies with the accompanying list of said supplies.

ELECTION SUPPLIES AND BALLOTS

Sec. XIV. It shall be the duty of the Recording Secretary to mail in securely sealed packages, the ballot box, two copies of the printed registration sheet, blank certificates for returns, letters of instruction, and other election material for the schools, so that the same shall be received in each school not later than two days before any primary or final election. The envelope containing the official ballots shall be sealed and the same shall not be opened by the Judge and Clerks of Election until the polls have been declared opened. The Judge and Clerks of Election shall open and inspect the envelope containing the ballot box and

the supplies other than the official ballots on receiving the same.

ELECTIONS—HOW CONDUCTED

Sec. XV. At all elections, Primary and Final, the polls shall be opened in each school at such time as the contributors in the school shall by majority vote elect, and shall remain open for a period of one hour from the time of opening; provided, every voter in line at the time fixed for closing the polls shall be permitted to vote. When the polls are opened at either a primary or final election and a teacher entitled to vote appears for that purpose the judge of election shall hand such teacher one of the Australian ballots to be used at that election and such teacher shall then retire to some convenient place of secrecy on the same floor as the ballot box to prepare his or her ballot and properly mark the same, and while said teacher is preparing such ballot and marking the same, he or she shall be out of sight of any other person. Said teacher after marking his or her ballot shall fold the same so that the facsimile signatures on the back thereof are plainly visible. He or she shall then deliver the folded ballot to the Judge of Election who shall immediately cast the same into the ballot box in the presence of the voter and the clerks, who shall thereupon check off the name of such person voting from the printed copies of the registration sheets in their possession. The voter may vote by putting a cross in the square before the name of each person intended to be voted for. If the voter votes for more persons than may be voted for for the same office and term, no vote shall be counted for that office for that term.

Any judge or clerk of election in any school is hereby authorized and empowered to call on any number of contributors which he or she may deem necessary to assist in seeing to it that the secrecy of the ballot is maintained from the time the contributor receives the ballot from the judge and retires to mark such ballot and until the ballot is deposited in the ballot box; and that the contributor casting her ballot is given an opportunity to retire to a school room or

other place on the same floor with the polling place and that no person is permitted to enter the room while a contributor is therein marking a ballot. There shall be no electioneering or soliciting on the same floor with the polling place while the polls are open.

Ballots Delivered to Canvassing Board.

Immediately on the closing of the polls at both the primary and final elections the ballot box shall be sealed and shall be taken by the judge of election together with the registration sheets used at the election, to the office of the Board of Education and delivered to the Canvassing Board.

Certificate of Election.

Accompanying such sealed ballot box there shall also be a certificate signed by the judge and clerks that such election has been conducted in their school in accordance with the "Letter of Instructions" herein authorized.

COUNT AND CANVASS OF BALLOTS

Sec. XVI. It shall be the duty of the members of the Canvassing Board to assemble at the office of the Board of Education not later than 4 o'clock on the day of the primary and also on the day of the final election, and immediately on receipt of the sealed ballot boxes, certificates and registration sheets hereinbefore mentioned, proceed to count the ballots in the manner as herein prescribed.

Before opening the ballot box from any school it shall be the duty of the chairman and secretary of the Canvassing Board, or such other members of the Canvassing Board as they may call to their assistance, to compare the certificate made out in triplicate accompanying such box with the printed copies of the registration sheet, and the returned, unused ballots. If it shall appear that the number of returned ballots, including any spoiled ballots, corresponds with the number reported in the certificate to have been returned; and the number of contributors in that school who

have voted as stated in the certificate is the same as the number of such teachers indicated on the printed copies of the registration sheet, then the chairman and secretary of said Canvassing Board, or such other members of the Canvassing Board as they may call to their assistance, shall open the ballot box and count the ballots in said box. If it shall appear that the number of ballots cast in said school agrees with the statement on the judge's certificate from that school and with the registration sheets, the chairman and secretary shall so certify by their signatures in the proper blank on the certificate of the Judge of Election from that school, furnishing the Judge with one such signed certificate which shall be the Judge's receipt for his ballot box. Then the ballots shall be taken from the box, and placed in a receptacle for the purpose, together with the ballots from the other schools and from the Board of Education office.

When the ballot boxes from all the schools and from the Board of Education office have been so opened and all the ballots have been so placed in the receptacle, the Canvassing Board shall proceed to count the votes on the ballots in the said receptacle, provided that when the hour of five o'clock arrives the Canvassing Board may proceed to count the votes on said ballots in said receptacle, and that ballot boxes returned after that hour may be opened by the chairman and secretary or such other members of the Canvassing Board as they may call to their assistance, and that the contents of said boxes shall be counted and placed in said receptacle the same as the contents of other ballot boxes; and provided that the count of said votes shall not begin until at least two-thirds of the total number of members of the Canvassing Board shall be present.

Decision in Case of Tie

If at any primary or final election two or more persons shall receive the same number of votes, and all of them cannot under these by-laws become candidates or trustees, as the case may be, then such tie or ties shall be then and there decided by lot.

Count of Ballots Certified

When said count of said votes is completed, said board shall through its chairman and secretary, certify the results of said election to the Secretary of the Board of Education and to the Recording Secretary of the Board of Trustees. The ballots counted shall be securely sealed in packages and delivered to the Secretary of the Board of Education with said report. Discarded and uncounted ballots shall be returned with said report to the Secretary of the Board of Education. The Board of Trustees shall at its next meeting enter on its proceedings the result of said election.

On receipt of said certificate of the results of said election it shall be the duty of the Recording Secretary to mail at once written notice of said results to all candidates whose names appear on said ballots, and printed notice to the judge of election in each school.

FINAL ELECTION

Sec. XVII. If the full number of candidates to be finally elected did not each receive a majority of all the votes cast at the Primary Election, then a final election shall be held to complete the full number of trustees.

Final Election Ballots

For each election of Trustees there shall be printed Australian Ballots which shall not be numbered or contain any distinguishing mark except that such ballot shall be authenticated with the facsimiles of the signatures of the Secretary of the Board of Education and the Recording Secretary of the Board of Trustees of the Public School Teachers' Pension and Retirement Fund on the back thereof. The names of the persons receiving the highest number of votes less than a majority of all the votes cast in said primary shall appear as nominees for trustees upon the election ballot; provided, the number of such names appearing on the election ballot shall be not more than double the number of trustees to be elected, and provided that names shall be placed on the ballot in groups, candidates for the same term to constitute a group

and the names shall be placed in each group in the order indicated by the number of votes cast for each one at the primary, those having the highest number appearing first in the group.

Investment of the Pension Fund

LIMITED BY LAW:

Investments of the Chicago Teachers' Pension Fund are limited by law to securities of the United States Government and of the State of Illinois and its subdivisions. Therefore the Fund holds bonds of the government and of the state and its subdivisions; but only of those municipalities and districts with authority to levy taxes on all taxable property in the district for the payment of the bonds. This excludes revenue bonds and special assessment bonds.

TAX ANTICIPATION WARRANTS:

For some years the fund held tax anticipation warrants of the Chicago Board of Education; but these were paid to the Fund, not purchased by it. When teachers were paid in tax anticipation warrants the deductions from salary for pension were also paid in tax anticipation warrants. Warrants were also paid by teachers and annuitants making payment into the Fund for their outside service or for other required payments. The Fund now holds only \$100 in Tax Anticipation Warrants; all the others have been redeemed at par with interest to date of redemption.

FACTORS CONSIDERED:

In making investments the Board of Trustees realizes that the prime consideration is safety of principal; but other factors must also be considered. The Trustees should get the highest return consistent with safety. Sometimes this may be accomplished by buying bonds of smaller or less known places. Because their names are not familiar their bonds are not widely salable, even though their credit rating is high; but this Fund buys for investment not for speculation and it expects to hold its bonds till they mature. Salability is not necessary.

Another thing that should be considered is the distribution of the maturities. The actuary points out the years in which the Fund may expect its maximum expenditures. Care should be taken to buy bonds maturing in those years so that funds will be on hand even if emergencies such as payless paydays develop. Otherwise, long term bonds usually yield a greater return than short term bonds, and require less bookkeeping for, once purchased, no new record for that amount of money need be made until the bonds mature and new bonds are purchased.

SELECTION FROM OFFERINGS:

Up to ten years ago when the Board of Trustees wished to invest, more bonds were offered than the trustees could buy. But with the coming of the depression, municipalities ceased to incur

new obligations by issuing bonds except in cases of absolute necessity. The result is that now the Board finds it has money for more bonds than are available. In former days the trustees chose the bonds they wanted. Now they take the best of the available bonds.

BOND ADVISORY SERVICE:

To cope with this situation, and with the question of refunding bonds, the Board of Trustees now receives advisory service in connection with its bond purchases, and it currently employs Standard and Poor's Corporation (formerly Standard Statistics Company) to furnish this advice. This does not mean that the trustees have shifted their responsibility to other shoulders; as trustees the responsibility is theirs and they must meet it. But the trustees seek the advice of an attorney and an actuary when problems arise, and the employment of advisory investment service is only the development of the investment service in the same manner.

WHAT BONDS ARE HELD:

Over one-fourth of the Fund is in Government bonds. These do not yield as high a return as municipal bonds but they provide immediate cash if that is ever necessary; and at least they give some return. Many of them were purchased because desirable municipal bonds were not available. Of the municipals over half are bonds of school districts. General obligation bonds of cities, towns, etc., are second, and park bonds, including Forest Preserve districts, come next.

NO DEFAULTS:

During the depression many districts and municipalities found it impossible to redeem their bonds and pay their interest when due, but no bond has ever defaulted. One school district in the coal mining part of the state found itself unable to redeem its bonds, but the trustees were able to sell the \$11,000 remaining in the Fund at 85, that is for \$9,350. All other bonds which came due have been redeemed at par.

REFUNDING OF BONDS:

Many of the districts and municipalities met their obligations by refunding their bonds. That is, new bonds having the same face value as the old ones were exchanged for the old ones. These transactions are carried on the books as sale of the old bonds and purchase of the new ones. The advantage to the district lies in the extension of the dates of maturity, that is bonds maturing from 1942 to 1949 are replaced by bonds maturing perhaps from 1944 to 1961. The former schedule for maturing bonds was based on tax collections before the depression; the new schedules are based on the lower rates of collection and take into account the lower assessments.

The advantage to the Fund lies in the increased stability of the new bonds.

Another reason the school district has for refunding is that by a recent amendment to the law, school districts may levy taxes for their bonds in addition to their legal rates for building and educational purposes. This releases for school purposes funds which formerly were paid for interest and redemption of bonds.

NOTICE OF INTENTION TO PURCHASE:

The Board of Trustees purchases bonds only at Board meetings, and a majority vote of the Board is required. When funds are available for investment notices are sent out to all bond houses on the list. The list contains the names of all firms who have asked to be placed on it. The notice tells when bonds will be purchased and the date on which offerings should be submitted. Each offering gives the name of the district, the rate of interest, the date of issue of the bonds, the dates of maturity, a statement of the purpose for which the bonds are issued, data concerning the size of the district, its valuation, tax collections, etc., and the rate the bonds will yield at the price quoted.

METHOD OF PURCHASE:

All these offerings are listed and a copy is mailed to each board member. A copy is also furnished to the investment advisor, Standard and Poor's Corporation. At the meeting the offerings are taken up in order and discussed by the advisor and the Board members. The Board then decides by vote which offers to accept, and the bond houses are notified of the action.

CITY TREASURER IS CUSTODIAN:

The bonds are kept in the office of the City Treasurer, ex-officio custodian of the Fund. The work of cutting coupons, collecting interest and money for matured bonds is all handled in that office, but a duplicate record of all transactions affecting the pension fund is furnished to the pension office. One employee of the Pension Board is assigned to the City Treasurer's office.

ANNUAL CHECK-UP:

Once a year a committee of the Board of Trustees counts all the bonds held for the Fund in the City Treasurer's office, checking them against a previously prepared list. The report of this check-up is printed in the February proceedings.

Letter from the President of the Board of Trustees

To the Contributors and Annuitants:

MEMBERSHIP:

There was one change in the membership of the Board of Trustees during the year caused by the retirement on May 6th of Mrs. Sara C. Larkin. The Board of Trustees, in accordance with the law, filled the vacancy until the next regular election, by the election of a new member—Miss Evelyn Sholund of the Spalding School. At the election in October, Miss Sholund was elected by the contributors for a three-year term. At the same time Miss Susan Scully was re-elected to the Board of Trustees.

There was no change in the members selected by the Board of Education.

INVESTMENTS:

The invested fund increased \$339,650 (face value) during the year, bringing the total on December 31, 1941 up to \$9,405,200.00. A report on the invested fund is printed elsewhere in this pamphlet.

TAX MONEY:

The tax money paid into the pension fund increased \$113,927.32 over the amount paid in 1940. It is interesting to note that this includes some back taxes for every year from 1927 to 1939.

OTHER FINANCIAL ITEMS:

A check-up of the December payroll showed that the number of contributors decreased 337 during 1941.

Due to the decrease in the number of contributors deductions from payrolls were \$25,406.50 less than in 1940.

We placed on the roll during the year 274 new annuitants including 7 disability annuitants. Deaths and withdrawals made the

net increase 168. The net payment to annuitants was \$2,900,774.42, an increase over 1940 of \$180,300.17.

BEQUEST:

The fund received in 1941 another payment from the bequest of the late Matilda Niehaus, formerly principal of the Brown School. This payment of \$749.20 brings the total received from this bequest to \$27,294.66.

SOCIAL SECURITY:

Several Bills to amend the social security law were introduced in Congress; some of them proposed to include all public employees (this would include teachers); some would include only those not now in pension systems. None of the Bills ever succeeded in getting past the committees to which they were referred; most of them were never publicly discussed. Of course action may still be taken; the Bills are not dead.

The Pension Board is keeping in touch with the situation and will notify the contributors and annuitants if any action is taken affecting our pension.

IDA NICELY LILLIS,
President, Board of Trustees.

February 24, 1942.

On motion of Miss Mayhew, seconded by Miss Sholund, these reports were adopted by unanimous vote.

PENSION PAYROLL FOR THE MONTH OF JANUARY 1942

NOTE: If an annuitant does not return the receipt for her pension warrant, the warrant for the following month is issued, but it is not mailed until the receipt for the preceding month is returned. If the death of an annuitant is not reported until after one or more warrants have been issued, these warrants are deposited back into the Fund as Unearned Pension and another warrant for the fractional part of the month up to the date of death is issued to the estate.

LIST A.

The annuitants in the following list were placed on the pension roll before July 1, 1923, and therefore the increases authorized by the legislature of 1923 are withheld from the amounts due them each month pending a decision in the injunction suit which seeks to prevent the Pension Board and the City Treasurer from paying those increases.

LIST B.

The names with no amount printed after them are new ones—added this year.

The Annuitants in the following list were placed on the pension roll since July 1, 1923, and are therefore not affected by the suit for injunction.

A teacher retiring with more than 25 years of service adds to the deductions from salary an amount sufficient to bring the total to the sum required for 25 years of service; he then receives \$800, the annuity paid for 25 years of service, and the additional annuity allowed for additional service accumulates until the required payment for the additional annuity is completed.

* The first of these amounts is the sum due the fund for either the basic pension or the additional pension, and the second amount is the sum due the annuitant to the end of January. For the basic pension (that is, the pension paid for not more than 25 years of service) the pension is withheld until payment is completed; for the additional pension, (that is, the pension paid for service in excess of 25 years) the amount of pension in excess of \$80 per month is withheld until payment is completed. Then to complete the record a check for this amount due the fund is issued and deposited, and a receipt is issued to the annuitant. See note at beginning of this List.

† Includes pension for more than one month.

‡ This annuitant died in January and the first of these amounts is "unearned pension" deposited back into the fund; the second amount is the sum due the estate for the fractional part of the month up to the date of death.

The Committee on Annuities and Claims reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

Disability Annuities

The Committee on Annuities and Claims reports that since the adoption of the last report on Disability Annuities, the Committee has received from the Recording Secretary and submits herewith certificates from the physicians appointed by the Pension Board to examine the persons hereinafter listed; that it has considered these certificates and the applications for Disability Annuity submitted by these persons together with other evidence and finds that each such person has completed twelve or more years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; and that each has been declared by three competent physicians who have made a physical examination of said person to be suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching. The committee therefore

REPORT OF THE PROCEEDINGS
OF THE
Board of Trustees
OF THE
**Public School Teachers' Pension and
Retirement Fund, City of Chicago**

**Adjourned Regular Meeting—Official Report
Friday, May 15, 1942**

An adjourned regular meeting of the Board of Trustees of the Public School Teachers' Pension and Retirement Fund was held Friday, May 15, 1942.

The President, Mrs. Lillis, called

the meeting to order at 4:00 p. m. and there were then

Present—Miss Mayhew, Mr. Geilen, Mrs. Oliver, Mrs. Lillis, Miss Scully, Miss Sholund—6.

Absent—Mr. Walker, Mr. Olson, Mr. Frankland—3.

(2813)

In accordance with the wishes of the Board, Mrs. Lillis prepared the following announcement to be sent to the annuitants with the May pension warrants and to the contributors.

To the Annuitants:

It is with deep sorrow and regret that the Teachers' Pension Board announces the death of Miss Catherine J. Trout on Sunday, May 10, 1942. The Pension Board and the Chicago teachers have lost a wise counsellor whose faithful devotion to duty and whose calm, unimpassioned judgment have contributed largely to the successful conduct of pension affairs in the years now gone by.

Miss Trout was elected as a member of the Board of Trustees in November, 1920. In March, 1922, she resigned as one of the Trustees to take the position of Assistant Secretary in charge of the pension office. In that capacity she developed much of the system now used in the handling of pension work.

We know that the annuitants, many of whom knew Miss Trout personally as well as officially, join the Pension Board in sympathy, and in a realization of the loss suffered by the school system and by the pensioners.

TEACHERS' PAYMENTS FOR SABBATICAL LEAVE AND SICK LEAVE.

A teacher who has been granted Sabbatical Leave by the Chicago Board of Education may count the time so spent as part of the service necessary to qualify him or her to receive a pension by paying into the Fund the amount that would have been deducted if the teacher had been in active service plus simple interest at four per cent (4%) per annum if payment is deferred. Time spent on sick leave for which the Board of Education paid part salary may also be credited for pension under the same terms as payment for Sabbatical Leave.

The following teachers have made payments for time spent on Sabbatical Leave or Sick Leave on the dates and in the amounts shown after each name:

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE.

The Chicago Teachers' Pension Law as amended and in force July 7, 1931, provides that teachers then in the Chicago public school system who taught outside Chicago must make payment for their outside time within 5 years of teaching service after that date, if this outside service is to be counted for pension. Payment is to be at the rates in force before the law was passed, and may be made in installments.

Teachers entering the service after July 7, 1931, make payment at the rates established in that law, and payment must be completed within five years of teaching service after date of assignment.

The law also provides that military service within the pension period shall be counted as Chicago service but must be paid for at the rates for Outside Experience.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

Audit for 1941

The Committee on Finance and Judiciary reports that in accordance with authority granted by the Board of Trustees an audit of the Pension Fund has been completed by Henry R. Corbett Associates, and the report is submitted herewith.

The Committee recommends that this report be accepted and printed in the proceedings.

LETTER TRANSMITTING REPORT.

To the Board of Trustees
of the Public School Teachers'
Pension and Retirement Fund,
Chicago, Illinois.

In accordance with your directions, we have audited the accounts of the Teachers' Pension and Retirement Fund of Chicago, for the year 1941, and submit the following report.

Respectfully,
HENRY R. CORBETT ASSOCIATES.

NOTE.

It is generally recognized in the accounting profession that the actuarial liabilities and the peculiar financial set-up of pension funds and life insurance companies present to the auditor problems seldom encountered elsewhere.

An actuary familiar with a pension fund is in position to make the best possible audit thereof. The auditing of pension funds and insurance companies is, therefore, generally referred to the actuary.

DETAILS OF AUDIT.

The reader should understand that what may appear to be discrepancies between certain items in this Audit report and corresponding items in the Annual Statement of the Financial Condition of the Fund (published by the Retirement Board) are not discrepancies in fact. They are the same transactions presented on a different basis.

In the Board's Annual Statement the figures are given on the familiar "par value" or "cash basis", while in the Audit they are on the more exact and technical "book value" or "accrual basis". Let us make clear the reasons for using the latter in the Audit.

INVESTMENTS AND INTEREST.

On the books of the Pension Office the securities are carried both at par and book value,—Cash Basis and Accrual Basis.

Par Value:

It is essential to have a record of the par value, especially for the transactions with the Treasurer's office where all records deal with the par value.

The par value has been used for years in the Annual Statement published by the Pension Office. This statement is being continued, to permit comparison on a uniform basis.

The Par Value of bonds and tax warrants, as well as the amount of unpaid interest coupons, as shown on the books of the Pension Office, has been checked in detail and found to be in agreement with the records of the City Treasurer as at the close of the year. We made no count of the bonds themselves, as a committee consisting of several members of the Pension Board checks and counts the bonds once a year. All bonds are registered in the name of the Retirement Board and can be sold or exchanged only on the order of the Board.

Book Value:

It is equally necessary to keep account of the book value. Practically all large trust and pension funds, including this Fund, maintain their investment records on the book value basis which shows not only the par value, but also the effects of premium and discount. This enables them to ascertain each year the **actual** interest yield on the investments as a whole,—and to determine the gain or loss on bonds sold before maturity.

Under the book value method, bonds are carried on the books at actual cost, considering premium and discount. At the start this is simple enough; but remember that both premium and discount must disappear gradually because the payment received at maturity is the par value. The premium must be written off proportionately year by year, and the discount must be written up.

An example will help to make this clear:—

A \$1,000 bond is purchased for \$1,050. The \$50 does not come back when the bond matures, but is recovered in the form of a larger yearly interest payment. A proportional part of this interest year by year is treated as a partial repayment of the premium, and only the remainder is **true** interest.

If the same bond were bought for \$950 it would likewise bring in \$1,000 at maturity—a gain of \$50. This gain increases the interest proportionately year by year, so that the **true** interest in this case becomes larger than the coupon rate instead of smaller. Each year a proportion of the discount is “written up” or the premium “written off” so that at maturity of the bond the book value is the par value. In other words, the book value of the discount bond increases year by year, whereas that of the premium bond decreases.

The yearly gain from “write-up” of discount is added to the year’s coupon interest; on the other hand, the yearly loss from “write-off” of premium is **deducted** from the coupon interest. These additions and deductions are book entries only and do not affect the amount actually due on the interest coupon.

Like other technical processes of accounting, its details would be fully understood only by practice; but there is no question whatever about the need and soundness of the book value system in computing the true interest and the true increase or decrease of value year by year from date of purchase to date of maturity.

Market Price:

It is well understood, of course, that current premiums or discounts which determine the market price, depend on the temporary and local demand and supply for securities of any particular type or issue. Whatever the contributing cause of the premium or discount, the book value treats them as described above, "writing off" or "writing up" a proportional part each year.

Trend of Interest Rates:

As is well known in financial circles, interest rates have shown a downward trend in recent years. This has considerable significance for a pension fund, for any permanent decrease would materially increase the fund's liabilities and deficit. The following table shows how the Teachers' Pension Fund investment income has been affected:—

	Approximate Actual Investment	Interest Earned on Investment	Interest Yield
1938	\$8,608,692	\$326,291	3.79%
1939	9,227,414	337,378	3.66%
1940	9,377,261	344,848	3.68%
1941	9,609,070	331,081	3.45%

Note the significance of the words "Actual Investment". Observe that these are the rates if only the Bonds on Hand are considered as invested continuously. When we think of the entire assets including besides bonds the bank balances that draw no interest, the taxes in process of collection, etc.,— and so think of our total General Reserve of about 13½ millions as yielding only \$331,000; then the interest rate earned by the entire Teachers' Fund in 1941 is slightly less than 2.5 per cent. This shows how every dollar possible must be kept invested.

In view of the uncertainty as to interest rates in the immediate future, we calculated the required Reserve and the Annual Cost in our last valuation at both 4% and 3½%, showing the results at both rates.

The results at 4% enable us to compare them with those in other Chicago funds, for which the law requires that reserves shall be at 4%.

CASH RECEIPTS AND DISBURSEMENTS.

This exhibit deals solely with the cash actually received and paid out during the period. There is a tendency to confuse Receipts and Disbursements with similar items not on a Cash Basis but on what is called an "Accrual" Basis. For instance, tax money actually paid to the Fund appears in the Receipts and Disbursements statement, while the entire amount levied and the year to year adjustments of the levy are recorded in the General Reserve Account.

Cash Receipts:

We have checked and verified the Cash Receipts for 1941 and have found them properly recorded in the books of the Fund, and promptly deposited with the City Treasurer. This included tax money, bond interest, proceeds of bond

sales and maturities, deductions from teachers' salaries, and items of minor importance.

Receipts coming through the Board of Education such as taxes and amounts deducted from teachers' salaries, have been checked against the corresponding items on the Board of Education books. Other items handled directly with the City Treasurer's office have been checked against the books in that office. These latter include the bond interest, the proceeds of bond sales and maturities, unearned pension checks, amounts withheld from annuitants, contributions by teachers in connection with sabbatical leave or teaching service outside Chicago, and sundry receipts.

The Pension Office records for individual pensioners have been checked for pension checks void because of death; also for amounts withheld from monthly payments to make up deficiencies in contributions for past service.

Cash Disbursements:

We have verified the current roll of pensioners and have ascertained that all additions thereto during the year 1941 had been properly authorized by the Board of Trustees.

All other disbursements—bond purchases, refunds, administrative expenses, etc.,—were checked against the minutes of the Pension Board and found to have been duly authorized.

Reconciliation with Treasurer's Office:

Each month the Treasurer furnishes the Pension Office with a summary of the incoming and outgoing cash, and the balance in his custody on the last day of the month. The exhibit "Cash in Custody of Treasurer" shows the tieup between the Treasurer's books and those of the Pension Office, with respect to cash transactions.

The Contingent Fund:

Checks for pensions and for all major disbursements are drawn directly upon the City Treasurer. To relieve the Treasurer's office of small checks for minor expense, a Contingent Account is maintained in the American National Bank and Trust Co. of Chicago. In the statement of Current Ledger Resources and of Receipts and Disbursements, the Cash on hand at specified dates includes both the City Treasurer's Account and the Contingent Fund.

The Contingent Fund account is reconciled by the Pension Office each month, and by our staff as of the close of the year. The year-end reconciliation is given in this report.

GENERAL RESERVE ACCOUNT.

This account shows at any time the entire amount of net assets that apply on the reserve required at that time. The balance is the "Deficit" or the "Unfunded Reserve".

As nearly as it can be described, this account corresponds to a combination of what are known in commercial accounting as the "income" and "surplus" accounts. In so far as it can be done in a pension fund, the General Reserve Account is carried on an accrual basis.

Besides the net ledger resources, it shows the net tax levy for the current year, together with adjustments of prior year levies; the actual interest earned during the year on investments, and the gain or loss on bonds sold or exchanged before maturity; the amounts deducted from teachers' salaries; the pensions and refunds paid during the year; the administrative expenses and other items, that apply as described above.

Operations of 1941:

Of particular interest are the net gain of \$86,840 from the sale and exchange of bonds during the year and a loss in the form of a downward revision of \$74,210 in the tax levies of 1929 and 1933.

The increase of net ledger resources during 1941, as shown in the General Reserve Account, was about \$87,000, a drop of more than \$200,000 from the increase of 1940. Without the substantial addition to the Pension Fund tax rate for 1942 and future years, which was granted at the last session of the General Assembly, there undoubtedly would be in 1942 a decrease in excess of \$100,000 in the net ledger resources. This gives a rough idea of the exhaustion of assets that was bound to occur unless the Fund's revenue was increased.

**Deficiency Contributions Due
from the Board of Education:**

The Board of Education is still carrying on its books the credit of \$1,030,584 due to the Pension Fund. This is the sum by which the tax revenues of 1928, 1929 and 1930 fell short of the amount the Board of Education was, and still is, required to contribute for those years. Because of the Board's failure to discharge this obligation, the Fund has lost a very large sum in interest at the rate actually realized on the Fund's investments.

ACTUARIAL LIABILITIES AND DEFICIT
(AN APPROXIMATION)

As of December 31, 1941.

A complete Balance Sheet cannot be presented unless the Actuarial Liabilities be known.

All present members (including pensioners) are to get specified payments for either pensions or refunds; Sound insurance principles call for yearly premiums for all this, spread over the period of service.

The amount that really ought to be on hand today is the LIABILITY; a better term is the Actuarial Required Reserve.

What the Resources of today lack of this, is the DEFICIT; or the Unfunded Reserve. The Deficit can be spread, in annual payments, over a sufficiently long future period;

The ANNUAL REQUIREMENT consists of:—

- (a) the Payment on the Deficit,
- (b) the Annual Premiums from now on.

On June 30, 1940—the Liabilities, as defined above, amounted to..\$67,698,758
(Observe that the Liabilities, as stated, include the Reserve for Refunds)

On June 30, 1935—(for comparison) these Liabilities were \$61,714,300—an increase in five years of \$5,984,458.

The Actuarial Liabilities in this Fund are found to increase rather steadily. A satisfactory estimate until the next valuation, can be made by proportionate increase. It is one and a half years since the last valuation; therefore the increase for this period would be 1,795,338

Making the Actuarial Liabilities—also called the Required Reserve or the Accrued Reserve—at this date, December 31, 1941.....	\$69,494,096
Current Ledger Resources—also called the Funded Reserve (See next page).....	13,607,387
DEFICIT—Also called the Unfunded Reserve.....	<u>\$55,886,709</u>

The Deficit, or Unfunded Reserve, one year ago was \$54,776,797. This increase in the deficit of \$1,109,912 is partly due to the increase of uncollectible taxes—See “General Reserve” account.

For some years past, the per cent of loss has been considerably above ten per cent.

REPORT OF COMMITTEE ON ANNUITIES AND CLAIMS

Miss Komarek, chairman of the Committee on Annuities and Claims, presented the following reports of the Committee:

(2837)

Annuities

The Committee on Annuities and Claims reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

Disability Annuities

The Committee on Annuities and Claims reports that since the adoption of the last report on Disability Annuities, the Committee has received from the Recording Secretary and submits herewith certificates from the physicians appointed by the Pension Board to examine the persons hereinafter listed; that it has considered these certificates and the applications for Disability Annuity submitted by these persons together with other evidence and finds that each such person has completed twelve or more years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; and that each has been declared by three competent physicians who have made a physical examination of said person to be suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching. The committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted a Disability Annuity in the amount set forth below opposite his or her name; said Disability Annuity to date from the day on which the application was received, and to take effect when the applicant shall have complied with the provisions of the Pension Law.

TEACHERS' PAYMENTS FOR SABBATICAL LEAVE AND SICK LEAVE.

A teacher who has been granted Sabbatical Leave by the Chicago Board of Education may count the time so spent as part of the service necessary to qualify him or her to receive a pension by paying into the Fund the amount that would have been deducted if the teacher had been in active service plus simple interest at four per cent (4%) per annum if payment is deferred. Time spent on sick leave for which the Board of Education paid part salary may also be credited for pension under the same terms as payment for Sabbatical Leave.

The following teachers have made payments for time spent on Sabbatical Leave or Sick Leave on the dates and in the amounts shown after each name:

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE.

The Chicago Teachers' Pension Law as amended and in force July 7, 1931, provides that teachers then in the Chicago public school system who taught outside Chicago must make payment for their outside time within 5 years of teaching service after that date, if this outside service is to be counted for pension. Payment is to be at the rates in force before the law was passed, and may be made in installments.

Teachers entering the service after July 7, 1931, make payment at the rates established in that law, and payment must be completed within five years of teaching service after date of assignment.

The law also provides that military service within the pension period shall be counted as Chicago service but must be paid for at the rates for Outside Experience.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

REPORT OF COMMITTEE ON ANNUITIES

Miss Komarek, chairman of the Committee on Annuities, presented the following reports of the Committee:

(2857)

Annuities

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

Authorize Letter to Board of Education re Annual Tax Levy

Mr. Henry G. Corbett, Actuary for the Board of Trustees of the Public School Teachers' Pension and Retirement Fund, called attention to the necessity of a change in the procedure used in fixing the demand and direction for the annual tax levy. The Recording Secretary then presented the following communication:

Letter to the Board of Education.

Chicago, Illinois, December 2, 1942.

Mr. James B. McCahey, President
Board of Education,
Chicago, Illinois.

Dear Sir:

The Board of Trustees of the Public School Teachers' Pension and Retirement Fund respectfully requests that when the Chicago Board of Education makes its formal demand upon the City Council of Chicago to levy the tax for the Public School Teachers' Pension Fund, the procedure used by other Chicago Pension Funds be adopted. Those funds ask in their advance demand for an amount which would be an increase of about one-seventh in the limit of levy based on the last preceding valuation, in order to prevent possible loss of tax because of a larger valuation at the final date of levy.

Such procedure seems necessary under existing conditions in order to carry out the intent of the Legislature, clearly expressed in Section 189½ (Chapter 122—Schools) of the Statutes of Illinois. (Booklet enclosed.) There can be no injustice or harm in such increase even if excessive, because the County Clerk cannot and will not allow the final levy to exceed the legal tax.

The enclosed exhibit regarding past years tends to illustrate and support our request for the adoption of a rule making the advance demand for any year an increase of one-seventh over the Legal Limit of levy based on the last preceding valuation.

We feel our responsibility for keeping the tax income up to the full legal limit. If the levy for 1942 now pending in the County Clerk's Office could be amended at this time to conform to the above rule, the Pension Board respectfully requests that it be done.

Sincerely yours,

SUSAN SCULLY,
Recording Secretary.

Miss Scully then moved that this letter and exhibit be approved, sent to the Board of Education and printed in the proceedings; motion seconded by Miss Sholund and adopted by unanimous vote.

ADJOURNMENT

On motion of Miss Sholund, seconded by Mrs. Oliver, the meeting adjourned to meet at the call of the Recording Secretary.

Susan Scully

Recording Secretary.

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

TEACHERS' PAYMENTS FOR SABBATICAL LEAVE AND SICK LEAVE.

A teacher who has been granted Sabbatical Leave by the Chicago Board of Education may count the time so spent as part of the service necessary to qualify him or her to receive a pension by paying into the Fund the amount that would have been deducted if the teacher had been in active service plus simple interest at four per cent (4%) per annum if payment is deferred. Time spent on sick leave for which the Board of Education paid part salary may also be credited for pension under the same terms as payment for Sabbatical Leave.

The following teachers have made payments for time spent on Sabbatical Leave or Sick Leave on the dates and in the amounts shown after each name:

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE.

The Chicago Teachers' Pension Law as amended and in force July 7, 1931, provides that teachers then in the Chicago public school system who taught outside Chicago must make payment for their outside time within 5 years of teaching service after that date, if this outside service is to be counted for pension. Payment is to be at the rate in force before the law was passed, and may be made in installments.

Teachers entering the service after July 7, 1931, make payment at the rates established in that law, and payment must be completed within five years of teaching service after date of assignment.

The law also provides that military service within the pension period shall be counted as Chicago service but must be paid for at the rates for Outside Experience.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

Disability Annuities

The Committee on Annuities reports that since the adoption of the last report on Disability Annuities, the Committee has received from the Recording Secretary and submits herewith certificates from the physicians appointed by the Pension Board to examine the persons hereinafter listed; that it has considered these certificates and the applications for Disability Annuity submitted by these persons together with other evidence and finds that each such person has completed twelve or more years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; and that each has been declared by three competent physicians who have made a physical examination of said person to be suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching. The committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted a Disability Annuity in the amount set forth below opposite his or her name; said Disability Annuity to date from the day on which the application was received, and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the records of the Pension Board the Disability Annuities granted herein; and to file this report and the applications and physicians' certificates herewith submitted in the Pension Office.

The Annuitants of January, 1943

The following table shows the number of annuitants classified by years of service and arranged in three groups according to the dates on which their names were placed on the pension roll:

Group I includes all those who retired before July 1, 1923.

Group II includes those who retired between July 1, 1923, and July 11, 1935.

Group III includes those who retired after July 11, 1935.

The Disability Annuitants constitute a fourth group.

Annuitants in Group One (all who retired before July 1, 1923) received the rates authorized by the Law in effect previous to 1923.

Annuitants in Group Two receive the rates authorized by the law of 1923—that is from \$800 to \$1,000 depending on length of service. In May, 1925, the compulsory retirement law became effective, and until July, 1935, the compulsory retirement age was 70.

Annuitants in Group Three receive the rates authorized by the legislature of 1935, which raised the maximum to \$1,200 for 35 years of service. At the same session the legislature fixed the compulsory retirement age at 65.

The Pension Law as amended by the Legislature of 1931, provides that any person retired by the Board of Education under the Compulsory Retirement Law with less than 25 years of service shall receive as pension such proportion of \$800 as his time of service bears to 25 years.

Appointment of Physicians

The Committee on Annuities reports that the Committee has received from the Recording Secretary applications for Disability Annuity submitted by the persons hereinafter listed who have completed at least twelve years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; also that each such application is accompanied by a certificate from a competent physician declaring that the applicant is suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching.

The Committee therefore

RECOMMENDS that in addition to the physician whose certificate accompanies the application, there be appointed for each applicant the two physicians whose names are set forth below after the name of each such applicant for Disability Annuity. The Committee further recommends that the Recording Secretary be, and hereby is, authorized and directed to notify the applicant and the physicians so appointed of this action of the Pension Board, and to file this report in the Pension Office.

REPORT OF COMMITTEE ON PENSION LAW AND RULES

Miss Sholund, Chairman of the Committee on Pension Law and Rules, reports that the Committee has carefully considered By-Law 5 of the Rules and Regulations of the Board of Trustees and has prepared an amendment thereto in the form of an addition to be designated as By-Law V, Sec. II.

The Committee therefore recommends the adoption of the following:

Repayment of Refunds by Teachers Returning to Service

Sec. II. Pursuant to the statute in that behalf, the refunds which teachers returning to service are required to repay to the Pension Fund on return to service, are due and payable immediately on such return to service with interest thereon at four per cent per annum from the dates the refunds were received to the dates of their repayment.

As teachers affected are in default to the Pension Fund till said repayments are made and consequently are not eligible to receive the full benefits of the Pension Fund until then, such teachers shall repay said refunds previously received by them immediately upon returning to service with interest thereon as provided by law, or shall make arrangements immediately upon return to service with the Board of Trustees for such repayments in suitable installments.

On motion of Miss Sholund, seconded by Miss Komarek, this report was approved and ordered printed.

Letter from the President of the Board of Trustees

To the Contributors and Annuitants:

It is with deep sorrow and regret that we report the death on May 10, 1942, of Miss Catherine J. Trout, who had been Assistant Secretary in charge of the pension office since 1922. Her faithful devotion to the cause of teachers' pensions for more than twenty years contributed greatly to the development of our efficient pension system.

MEMBERSHIP:

There were two changes in the membership of the Board of Trustees during the year. Miss Arline Mayhew resigned May 29th and on June 1st began work as Assistant Secretary in the pension office. In accordance with the law, the Board of Trustees elected Miss Anne Komarek of the Bryant School to fill the vacancy until the next regular election, which took place in October, when Miss Komarek was elected by the contributors to fill Miss Mayhew's unexpired term of one year.

At the Primary Election on October 9th, Mr. Henry G. Geilen received a majority of all votes cast and was re-elected for a three-year term. The three remaining candidates, Mr. Robert D. Gregg, Mrs. Ida Nicely Lillis, and Miss Edna M. Siebert, each received less than a majority of all votes cast so a Final Election was held, according to the law, on November 13, 1942, when the two receiving the highest number of votes, Mr. Gregg and Miss Siebert, were entitled to have their names printed on the ballot. Mr. Gregg received a majority and was elected for a three-year term.

The members selected from the Board of Education are Mr. Nels H. Olson, Mr. Wilson Frankland, and Mr. Joseph W. Cremin.

INVESTMENTS:

The invested fund decreased \$225,750 (face value) during the year, making the total on December 31, 1942, \$9,179,450.00. A report on the invested fund is printed elsewhere in this pamphlet.

TAX MONEY:

The tax money paid into the pension fund decreased \$57,047.54 from the amount paid in 1941. It is interesting to note that this includes some back taxes for every year from 1927 to 1941.

OTHER FINANCIAL ITEMS:

A check-up of the December payroll showed that the number of contributors decreased 624 during 1942.

Due to the decrease in the number of contributors, deductions from payrolls were \$37,236 less than in 1941.

We placed on the roll during the year 271 new annuitants including 9 disability annuitants. Deaths and withdrawals made the net increase 143. The net payment to annuitants was \$3,083,006.79, an increase over 1941 of \$182,232.37.

HENRY G. GEILEN,
President, Board of Trustees.

February 19, 1943.

(2917)

The Recording Secretary reports that in connection with the injunction suits of 1927, Mr. Henry W. Olschner, the attorney for the Board of Trustees to whom the question was referred, has submitted the following opinion:

**RESOLUTION RE UNCONSTITUTIONALITY OF ACT INCREASING
PENSIONS OF ANNUITANTS WHO RETIRED PRIOR TO
PASSAGE OF ACT**

WHEREAS, in 1927 there were filed in the Superior Court of Cook County, Illinois, two suits for injunction, one thereof being against the trustees of the Policemen's Pension Fund (Porter vs. Loehr, No. 461547) and the other being against the trustees of the Public School Teachers' Pension and Retirement Fund of the City of Chicago (Porter vs. Schjoldager, No. 461548), to enjoin these trustees from paying increased pensions to annuitants who had retired from service prior to the enactment of the laws granting such increases in pensions.

AND WHEREAS, upon the filing of these injunction suits, the City Treasurer of the City of Chicago deemed it inadvisable to pay such increases in pensions to such annuitants until the constitutionality of these laws had been adjudicated, no further increases were paid to such annuitants by the Board of Trustees of the Public School Teachers' Pension and Retirement Fund of the City of Chicago, and the pension warrants to such annuitants thereafter contained the words "less portion withheld pending litigation."

AND WHEREAS, the same question of constitutionality was present in both of said injunction suits, the Policemen's Case was tried as a test case, and on appeal to the Supreme Court of the State of Illinois, the provisions of the law granting pension increases to previously retired annuitants were held unconstitutional (Porter vs. Loehr, 332 Illinois Supreme Court Reports, Page 353. Opinion rendered October 25, 1928, Rehearing denied December 7, 1928), and this Supreme Court decision thus announcing the law of this state, also decided and controlled the injunction against trustees of the teachers' pension fund, so that no further proceedings in that suit were necessary and consequently none were had therein, and no litigation in that behalf is now pending.

AND WHEREAS, the provisions of the Act granting increases in pensions to previously retired school teacher annuitants are unconstitutional and no such annuitants are entitled to such pension increases, it is confusing and serves no useful purpose to include in the pension warrants to such annuitants the words "less portion withheld pending litigation."

BE IT THEREFORE RESOLVED that henceforth the words "less portion withheld pending litigation" be eliminated from all pension warrants to said annuitants.

A certified copy of the above resolution was sent to the City Treasurer of Chicago.

On motion of Miss Scully, seconded by Miss Komarek, these reports were adopted by unanimous vote.

Authorize Letter to Board of Education re Money Due Pension Fund

Miss Scully called attention to the fact that the total income for the year 1942 was less than the total expenditures for that year. She then presented the following communication:

LETTER TO THE BOARD OF EDUCATION.

February 19, 1943.

To the Honorable the Board of Education and the Members thereof:

Your attention is respectfully called to the following facts concerning money due, under Section 165 of the School Act, to the Public School Teachers' Pension and Retirement Fund for the year ending December 31, 1942.

Income, January 1 to December 31, 1942.....	\$3,105,541.54
Expenditures, January 1 to December 31, 1942.....	3,227,805.48

Excess of total expenditures over total income due Public School Teachers' Pension and Retirement Fund account of year ending December 31, 1942.....	\$ 122,263.94
--	---------------

This is in addition to the sum of \$1,030,584.21 due the Pension Fund for deficiencies before January 1, 1932, and \$68,437.92, the balance of public money due account of year ending December 31, 1940, as stated in our letter to you dated March 26, 1941.

Respectfully submitted,

SUSAN SCULLY,
Recording Secretary for the Board of Trustees of the Public School Teachers' Pension and Retirement Fund.

Miss Scully moved that this letter be approved and sent to the Board of Education and to the members thereof; motion seconded by Miss Komarek and carried by unanimous vote.

ADJOURNMENT

On motion of Miss Scully, seconded by Mrs. Oliver, the meeting adjourned to meet at the call of the Secretary.

Recording Secretary.

PENSION PAYROLL FOR THE MONTH OF JANUARY 1943

NOTE: If an annuitant does not return the receipt for her pension warrant, the warrant for the following month is issued, but it is not mailed until the receipt for the preceding month is returned. If the death of an annuitant is not reported until after one or more warrants have been issued, these warrants are deposited back into the Fund as Unearned Pension and another warrant for the fractional part of the month up to the date of death is issued to the estate.

LIST B.

The names with no amount printed after them are new ones—added this year.

The Annuitants in the following list were placed on the pension roll since July 1, 1923.

A teacher retiring with more than 25 years of service adds to the deductions from salary an amount sufficient to bring the total to the sum required for 25 years of service; he then receives \$800, the annuity paid for 25 years of service, and the additional annuity allowed for additional service accumulates until the required payment for the additional annuity is completed.

* The first of these amounts is the sum due the fund for either the basic pension or the additional pension, and the second amount is the sum due the annuitant to the end of January. For the basic pension (that is, the pension paid for not more than 25 years of service) the pension is withheld until payment is completed; for the additional pension, (that is, the pension paid for service in excess of 25 years) the amount of pension in excess of \$80 per month is withheld until payment is completed. Then to complete the record a check for this amount due the fund is issued and deposited, and a receipt is issued to the annuitant. See note at beginning of this List.

† Includes pension for more than one month.

‡ This annuitant died in January and the first of these amounts is "unearned pension" deposited back into the fund; the second amount is the sum due the estate for the fractional part of the month up to the date of death.

(2921)

Letter from Auditors of City Treasurer's Accounts

McCOY, HOLLAND & GOODSELL.

Chicago, April 7, 1943.

The Board of Trustees of the Public School
Teachers' Pension and Retirement Fund, Chicago,
Chicago, Illinois.

Ladies and Gentlemen:

Examination of the records of the office of the Treasurer of the City of Chicago, as at December 31, 1942, discloses that the Treasurer had in his custody and was accountable for cash and securities of

**THE BOARD OF TRUSTEES OF THE PUBLIC SCHOOL
TEACHERS' PENSION AND RETIREMENT FUND,
CHICAGO**

in amounts as follows:

Cash	\$ 507,826.96
Securities—Principal	9,179,450.00
Coupons in default.....	<u>2,036.25</u>

The First National Bank of Chicago has certified to us that the above stated balance of cash was on deposit in a separate account to the credit of the Fund and we reconciled it satisfactorily with the cash records of the Board of Trustees.

Securities, in the principal amount set out above, and coupons in default were inspected and counted in the office of the Treasurer and subsequently were found to be in agreement with the total shown by the Fund's securities records. Coupons next maturing and all following were attached to the said securities.

Our examination of the records of the Board of Trustees of the Public School Teachers' Pension and Retirement Fund was limited to the reconciliation of the amounts of cash, securities and coupons in default held by the Treasurer of the City of Chicago, as ex-officio custodian of the Fund, with the records of the Fund as at December 31, 1942.

Yours very truly,
(Signed) McCOY, HOLLAND & GOODSELL.

On motion of Miss Scully, seconded by Mrs. Oliver, this communication was received and ordered printed.

The Committee on Annuities reports that since the adoption of the last report on Disability Annuities, the Committee has received from the Recording Secretary and submits herewith certificates from the physicians appointed by the Pension Board to examine the persons hereinafter listed; that it has considered these certificates and the applications for Disability Annuity submitted by these persons together with other evidence and finds that each such person has completed twelve or more years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; and that each has been declared by three competent physicians who have made a physical examination of said person to be suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching. TEACHERS' PAYMENTS FOR SABBATICAL LEAVE AND SICK LEAVE.

A teacher who has been granted Sabbatical Leave by the Chicago Board of Education may count the time so spent as part of the service necessary to qualify him or her to receive a pension by paying into the Fund the amount that would have been deducted if the teacher had been in active service plus simple interest at four per cent (4%) per annum if payment is deferred. Time spent on sick leave for which the Board of Education paid part salary may also be credited for pension under the same terms as payment for Sabbatical Leave.

The following teachers have made payments for time spent on Sabbatical Leave or Sick Leave on the dates and in the amounts shown after each name:

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE.

The Chicago Teachers' Pension Law as amended and in force July 7, 1931, provides that teachers then in the Chicago public school system who taught outside Chicago must make payment for their outside time within 5 years of teaching service after that date, if this outside service is to be counted for pension. Payment is to be at the rates in force before the law was passed, and may be made in installments.

Teachers entering the service after July 7, 1931, make payment at the rates established in that law, and payment must be completed within five years of teaching service after date of assignment.

The law also provides that military service within the pension period shall be counted as Chicago service but must be paid for at the rates for Outside Experience.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

Audit for 1942

The Committee on Finance and Judiciary reports that in accordance with authority granted by the Board of Trustees an audit of the Pension Fund has been completed by Henry R. Corbett Associates, and the report is submitted herewith.

The Committee recommends that this report be accepted and printed in the proceedings.

LETTER TRANSMITTING REPORT.

To the Board of Trustees
of the Public School Teachers'
Pension and Retirement Fund,
Chicago, Illinois.

In accordance with your directions, we have audited the accounts of the Teachers' Pension and Retirement Fund of Chicago, for the year 1942, and submit the following report.

Respectfully,

HENRY R. CORBETT ASSOCIATES.

NOTE.

It is generally recognized in the accounting profession that the actuarial liabilities and the peculiar financial set-up of pension funds and life insurance companies present to the auditor problems seldom encountered elsewhere.

Actuaries familiar with pension funds and with accounting procedure are in position to make the best possible audit thereof. The auditing of pension funds and insurance companies is, therefore, generally referred to the actuarial department.

FOREWORD

The Annual Audit is a detailed report on the current financial condition of the Fund. It will be appropriate, therefore, to call attention briefly to some features of the financial structure of pension funds which need to be kept in mind.

An insurance company, or a bank, or a big business, must have a surplus. A continuing deficit would close their doors. But when a pension fund is started a deficit is created which commonly continues for many years. The normal payments by members and taxpayers, like the premiums on insurance, are supposed in theory to have been paid throughout the service of every member, and since these of course have been unpaid, they have increased into a large liability. This must be spread over the future in yearly payments along with the normal yearly cost or premium which continues until retirement. This deficit is not necessarily unsound if reserves are being built up to take care of it over future years.

Pension payments to present members might be going on fifty or sixty years hence, and would average thirty or forty years away. No other liabilities, commonly known to business, are willingly tolerated over anything like so long a time. There must of course be sound plans, correct forecasts, and steady accumulation of reserves; and, of course, strict audit of the financial situation every year.

Accumulation of Reserves—General Reserve Account:

All the Net Resources of the Fund are considered as constituting a reserve against this Liability for Past Service. The General Reserve Account sets forth these Net Resources and the increase or decrease each year.

Cash Basis and Accrual Basis:

Financial exhibits are said to be on the "Cash Basis" when they include only the amounts actually received and disbursed in cash during the period covered. When they also show the income actually accrued although not yet received in cash, and likewise the expense or outgo actually incurred but not yet paid,—they are then said to be on the "Accrual Basis".

The Annual Statement published by the Pension Board at the close of the year is on the "Cash Basis" because it deals with actual cash receipts and disbursements. Its immediate purpose is to check up the account of the Treasurer and the Contingent Bank account. For this reason the bond accounts are listed at par regardless of the premiums and discounts which do not concern the Treasurer.

The Annual Audit, however, is on the "Accrual Basis" except where cash is clearly specified or indicated; as, for example, in the Cash Receipts and Disbursements in the Audit and the Cash on Hand accounts. All the other important exhibits, including "Net Ledger Resources", and the "General Reserve" account must, of course, consider not only the resources on hand in cash, but also the income actually accrued although not yet received in cash, and likewise the expense or outgo actually incurred but not yet paid. In other words, they must be on the "Accrual Basis" (bonds on the "Book Value" basis) and the totals differ from the "Cash Value" and "Par Value" totals in the printed "Financial Statement" of the Pension Office.

TREND OF INTEREST RATES

This has considerable significance for a pension fund, for any permanent decrease would materially increase the fund's liabilities and deficit. The following table shows how the Teachers' Pension Fund investment income has been affected:

	Approximate Actual Investment	Interest Earned on Investment	Interest Yield
1938	\$8,608,692	\$326,291	3.79%
1939	9,227,414	337,378	3.66%
1940	9,377,261	344,848	3.68%
1941	9,609,070	331,081	3.45%
1942	9,684,979	319,200	3.33%

Note the significance of the words "Actual Investment".

Observe that these are the rates if only the Bonds on Hand are considered as invested continuously. When we think of the entire assets including, besides bonds, the bank balances that draw no interest, the taxes in process of collection, etc.—and so think of our total General Reserve of about 13½ millions as yielding only \$331,000; then the interest rate earned by the entire Teachers' Fund in 1941 and 1942 is slightly less than 2.5 per cent. This shows how every dollar possible must be kept invested.

COMMENT ON GENERAL RESERVE ACCOUNT:

The reader is asked to review the "Foreword" of the Audit, which throws important light on the nature of the General Reserve Account.

This account corresponds closely to the "General Fund" account commonly used in municipal accounting, and is somewhat similar to the combined capital and surplus accounts of a private corporation. The term "Reserve Account" is more appropriate for public pension funds where the entire net resources may be thought of as a reserve against the liability. The "Accrual Basis" is used except for exhibits where the "Cash Basis" alone is clearly indicated.

At the close of the year the balance in the General Reserve account represents the entire Net Assets at that time. As usual in pension funds, Net Resources fall short of meeting the Actuarial Liabilities, and the balance is the actuarial Deficit, sometimes called the "Unfunded Reserve".

In this exhibit we show the balances at the beginning and end of the year, and the total increases and decreases during the year, with the resulting net increase. Then follows on the succeeding pages—the listing of details of the items thus summarized on the first page of the exhibit.

Operations of 1942:

The Net Ledger Resources are about \$777,000 greater than those reported a year ago. The larger part of this gain is due to the increase of over \$700,000 in the 1.2 mill tax levy for 1942 over the rate of .8 mill in effect previously. Without this tax increase (and the recent increase of \$190,000 in the amount due from the Board of Education for Deficiency Contributions for the years 1940 and 1942)—the Net Ledger Resources would have decreased about \$132,000.

COMMENT ON INVESTMENT ACCOUNT:

This exhibit is on the basis of book values (or adjusted values); that is, it shows not only the par value but also the amount of premium or discount remaining at the date of the Audit.

An exact proportion of the premium or discount must be written off each year (and charged or credited to **Interest Received**, thus fixing the true interest) so that the exact par value will remain when the bonds mature and are paid off.

Par values must be kept also, to accord with those on the books of the City Treasurer who is concerned only with the custody of the bonds and the collection of principal and interest when due, and is not obliged to maintain a record of the current amounts of premium or discount. The Audit, however, must record not only the safe keeping and the collection of principal and interest, but also the true rate of interest being earned and the extent of gain or loss in case of the sale or exchange of any group of bonds. It is, therefore, necessary for the pension office to keep, and for the Audit to show, more complete records than are found in the Treasurer's office. (See "Foreword" at beginning of this Report, under the title "Cash Basis and Accrual Basis.")

New Investment Records:

During the last six months, the method of investment record keeping in the Pension Office has been revised. The new system, radically different from the one it replaces, will not only meet the requirements of the State Insurance Department, but will greatly facilitate the operations of the pension office, providing quickly any needed information which could heretofore be obtained from the old records only at the expense of much time and effort.

The new system gives in compact form all the data required with respect to acquisition, description, maturity and call dates, par value, purchase prices, premium or discount, exact interest, defaults, gain or loss on sale or exchange, and other details, easily summarized at any month-end.

The new system also enables us to give in this exhibit much useful detail not given heretofore.

Operations of 1942:

The amount of securities on hand declined \$225,750 par value (\$276,405 book value including premium and discount) during the year. Such a decline was to be expected since the taxes collected in 1942 were on the old basis (.8 mill) and this was insufficient to keep the cash receipts above the level of the disbursements.

* These bonds (package 921) are part of \$14,000 par value acquired in 1937 in exchange for other 5% bonds of School Dist. 71 (packages 797 and 798) maturing 1937/49, which had been purchased in 1935 at prices ranging from 101.26 for the first maturity to 105.90 for the last, or on a 4.45 per cent yield basis.

** When received by the Fund these amounts (totaling \$433.75) were labeled "interest". Since each applies to a period subsequent to sale of the bonds, there was no investment, so far as these bonds are concerned, during those periods; hence in this report the items in question are treated as inducements to sell, or premiums.

COMMENT ON CASH RECEIPTS AND DISBURSEMENTS:

In the "Foreword" to the Audit, reference was made to the printed Annual Statement of the Pension Office at the close of each year, and to some differences of plan and basis between it and the present Audit.

However, this exhibit of Cash Receipts and Disbursements conforms exactly to the "Receipts and Disbursements" in the Annual Statement (except for some differences in arrangement). Like the latter, it deals solely with the cash actually received and paid out during the period under review. The same is true of our two exhibits of Cash on Hand,—one with the Treasurer, and one in the Contingent Account.

Except where Cash is specified in the title, the exhibits of this Audit are on the so-called "Accrual Basis", for they include not only cash items received and paid, but also items actually accrued or owed, even if not yet settled by cash payment. (See "Cash and Accrual Basis" in the Foreword to the Report.)

In the process of preparing this exhibit we checked and verified all receipts and disbursements for 1942. We have reconciled the Pension Office records with those of the City Treasurer and the Board of Education, wherever the verification of the transactions called for such procedure.

REPORT OF COMMITTEE ON ANNUITIES

Miss Sholund, for the chairman of the Committee on Annuities, presented the following reports of the Committee:

(2948)

Annuitics

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

TEACHERS' PAYMENTS FOR SABBATICAL LEAVE AND SICK LEAVE.

A teacher who has been granted Sabbatical Leave by the Chicago Board of Education may count the time so spent as part of the service necessary to qualify him or her to receive a pension by paying into the Fund the amount that would have been deducted if the teacher had been in active service plus simple interest at four per cent (4%) per annum if payment is deferred. Time spent on sick leave for which the Board of Education paid part salary may also be credited for pension under the same terms as payment for Sabbatical Leave.

The following teachers have made payments for time spent on Sabbatical Leave or Sick Leave on the dates and in the amounts shown after each name:

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE.

The Chicago Teachers' Pension Law as amended and in force July 7, 1931, provides that teachers then in the Chicago public school system who taught outside Chicago must make payment for their outside time within 5 years of teaching service after that date, if this outside service is to be counted for pension. Payment is to be at the rates in force before the law was passed, and may be made in installments.

Teachers entering the service after July 7, 1931, make payment at the rates established in that law, and payment must be completed within five years of teaching service after date of assignment.

The law also provides that military service within the pension period shall be counted as Chicago service but must be paid for at the rates for Outside Experience.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

REPORT OF COMMITTEE ON ANNUITIES

Miss Komarek, chairman of the Committee on Annuities, presented the following reports of the Committee:

(2967)

Annuities

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the application presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

Outside Service in Federal Projects May Not Be Counted for Pension

The Committee on Pension Law and Rules reports that Mr. Henry W. Olschner, attorney for the Board of Trustees, has rendered an opinion on the question as to whether services rendered by a teacher in various Federal projects may be counted as outside time for pension purposes; and recommends that this opinion be accepted and printed in the proceedings, and that no credit be allowed for such service.

OPINION OF THE ATTORNEY.

June 23, 1943.

Board of Trustees of the Public School Teachers' Pension
and Retirement Fund of the City of Chicago:

Ladies and Gentlemen:

Re:—Norman A. Hedenberg Outside Service Credit Claim

In Mr. Hedenberg's letter to you of November 10, 1941, he lists the teaching service for which he seeks outside service credit. The listed services regarding which you desire my opinion are those rendered for a number of years under various Federal Projects, such as Civil Works Educational Service, Adult Education Project, Works Progress Administration, etc., in Chicago, Illinois.

The section of the Illinois Pension Laws governing credit for outside services provides, "All teachers, who have taught in public schools of the United States, outside of said city, or rendered service therein, upon entering the service of the said board of education for the first time shall within one year after assignment submit to the board of trustees of said pension fund evidence attesting and proving such service, and when approved by said board of trustees, such evidence shall be the basis for placing such teachers in the proper group of the groups provided in this section."

Therefore, credit can be given only for outside services rendered in public schools of the United States.

In the broadest and most liberal construction and interpretation of that term, public schools of the United States are those regularly established and maintained as systems of free education in the various states and territories of the United States, supported by and out of public funds or taxes and under the control of the public authorities or the voters of the locality. This power to establish and maintain public schools in the states of the United States is one not delegated to the Federal Government by the Constitution of the United States, but is one reserved to the states or the people. Accordingly, the Federal Government never did nor does it now maintain public school systems in the various states.

What the public school situation may be now or may become in the possessions of the United States is a matter for future consideration and does not enter into the instant inquiry.

It is therefore my opinion that no credit can be given Mr. Hedenberg for services rendered in the various Federal Projects above named.

Respectfully submitted,

(signed) HENRY W. OLSCHNER.

On motion of Miss Sholund, seconded by Mr. Gregg, these reports were received, approved and ordered printed.

ADJOURNMENT

On motion of Miss Scully, seconded by Mrs. Oliver, the meeting adjourned to meet at the call of the Secretary.

Susan Scully

Recording Secretary.

Report of Examination of Pension Fund

The Committee on Finance and Judiciary reports that an examination of the Public School Teachers' Pension and Retirement Fund has been made by the Department of Insurance, of the State of Illinois, in pursuance of the provisions of An Act entitled "An Act empowering the Director of Trade and Commerce to examine and report upon certain benefit funds," approved July 6, 1927.

Attached hereto is a copy of the report of this examination.

DEPARTMENT OF INSURANCE

Springfield

Honorable Paul F. Jones
Director of Insurance
Springfield, Illinois

Dear Sir:

An examination and investigation have been made, under my supervision, of Pension and Annuity and Benefit Funds in the State of Illinois, supported in whole or in part by taxation, the results of which, with legislative recommendations, are embodied in this Report, a copy of which has been sent to the governing body of each Fund operating in the State of Illinois, as provided by law.

Examinations of the various Funds and the compilation of material for this Report were under the direction of Examiner W. A. Hurlbut. Examiners who assisted in the audits of such Funds were Charles H. Monroe, R. C. Tomlinson, and also A. J. Berry (now deceased).

Actuarial comments are by Lyle Barnhart, Assistant Actuary of the Department of Insurance.

In closing, I wish to express my appreciation of the cooperation and assistance given by the various Retirement Boards and their employees.

Respectfully submitted,

GORDON A. RAMSAY.

Springfield, Illinois
May 24, 1943.

STIPULATED ANNUITY PLAN

Under this Plan, pensions of a stipulated amount or a stated percentage of the employee's salary are paid after a minimum number of years of service has been rendered and a specified age (in most instances) has been attained. These payments are made without regard to the total accumulations from the Fund's various sources of revenue; or, in other words, there is a total lack of relationship between the revenue received by the Fund and the pensions or benefits paid.

MEMBERSHIP

The persons constituting the membership of such Funds are specifically set out in the provisions of the various Acts, which, in some cases, limit the membership by minimum or maximum age requirements, and in the greater number of cases make membership therein voluntary on the part of the employees involved.

ADMINISTRATION

The administration of each Fund is vested in a Board of Trustees, which has full supervision and management of each Fund.

In most instances, the Boards have representation from both the political subdivisions concerned and their respective employees.

SOURCES OF REVENUE

The sources of income are stated in terms of "employee's" salary deductions, "employer's" contributions, and, in some cases, miscellaneous income from various sources designated by each Act.

Salary deductions are usually specified either as a percentage of salary or in dollars and cents with possibly minimum or maximum limitations as to amount. In some of these systems, other income from employees' payments is derived. The individual Fund reports will indicate the particular sources for each Fund.

Employer's contributions come from either one or both of two sources, namely, tax levies on the assessable property in the political subdivision involved, and other revenues of the municipality which are designated to be set aside for the Fund involved.

Miscellaneous income may come from gifts, rewards, emoluments, and other extraordinary sources. Only a small part of any system's revenue is derived from these sources, however.

A more detailed outline of the various types of income constituting the sources of revenue will be found in the reports of the individual Funds.

ANNUITIES AND BENEFITS

The various systems operating on the Stipulated Annuity Basis do not follow a uniform plan in the computation and determination of pensions; instead, retirement benefits under the Plan fall into three groups as follows:

1. Annuities equal to a percentage of salary after a given number of years of service
2. Annuities of a flat amount
3. Annuities of graded amounts according to number of years of service

In the first case, an employee may retire after having completed a minimum number of years of service and having attained the minimum age for retirement on a pension which is a fixed percentage of his salary.

Under the second type of annuity, the employee retiring receives an annuity of a flat amount (\$600, \$800, etc.) regardless of his salary. A minimum number of years of service must be completed and a certain age requirement must be fulfilled, the years of service over and above the required minimum being immaterial.

In the third group, a basic flat annuity is specified for a definite term of years of service. Additional amounts are provided for each year over the required basic number until a stated maximum amount of annuity is reached. Thus, a pension on a graduated scale is provided according to years of service without taking into consideration salary or the age of the employee concerned.

The following Funds operate on the Stipulated Annuity Plan:

Chicago Funds:

Public School Teachers' Pension and Retirement Fund
 House of Correction Employees' Pension Fund
 Public Library Employees' Pension Fund
 Fire Insurance Patrolmen's Pension Fund

Funds Outside of Chicago:

Police Pension Funds (Except Peoria)
 Firemen's Pension Funds

State-Wide Funds:

Judges' Retirement System

Since all of the above Funds operating on the Stipulated Annuity Plan are set out in detail in Section VIII of this report, they will not be identified here according to the classes of annuities and benefits payable by them.

NON-CONTRIBUTORY PLAN

The fourth and final plan under which pensions may be paid is the Non-Contributory Plan.

Under this Plan, no actual fund is set aside, managed, or controlled by a Board of Trustees or by persons who might be entitled to such benefits. Pensions and annuities are payable from the same payroll from which the person retiring was receiving his salary during his active service. Thus, no part of the pensions payable is based on such employee's salary or any other deductions, but consists entirely of employer's corporate funds, and hence the title "Non-Contributory."

Only two groups of public employees at the present time are entitled to benefits under this Plan. The following Acts are those under which such persons receive pensions:

School Teachers' Compulsory Retirement Act Elected Officers' Pension Act

Requirements for the amounts payable under these systems are different in each of the classes as shown in the following table:

Groups and Acts	Age Required	Years of Service Required	Amount of Pension
School Teachers' (Compulsory Retirement Act)	65	None	\$500.00
Elected Officers (Elected Officers' Pension Act)	65	30	60% final year's salary with \$1,800 maximum

SECTION IV

ACTUARIAL COMMENTS

In 1916, when the first Pension Laws Commission was created, it appears that the State made its first attempt to determine, based on actuarial principles, the solvency of Pension Funds. Then, in 1918 and 1919, a new Commission designed what was known as the "Standard Plan." Six of the great objectives in such move were outlined in the following recommendations:

"(1) to reorganize all existing Pension Funds so as to put them on a sound and secure financial basis; (2) to provide both a standard for future pension legislation and a consolidated system to which any new Fund could be joined at outset; (3) to extend the opportunity of participating in the system to members of small groups of employees; (4) to reduce to a minimum the tendency to change the pension laws and benefits at the sessions of each succeeding General Assembly; (5) to provide efficient administration in which the public and its employees will cooperate and also state supervision of the affairs of all the Funds in the system so as to insure proper care of moneys and property, safe investments and correct disbursements; and (6) to protect individual equities and to make certain the realization of promised benefits."

The plan was never enacted into law, as it was impossible to get all taxing bodies to agree to this plan at one time. However, in the next few years

various taxing bodies adopted a Pension Plan based on somewhat similar lines to the Standard Plan, but termed the Allocation Reserve Basis Plan. At the present time, thirteen Funds are operating on this basis.

The value of any Pension Fund depends entirely upon its ability to make actual payment of the benefits promised when they become due, and it is essential that the income provided for the Fund be adequate for this purpose. In order to determine whether this is the case, it becomes necessary to calculate the present value of future pension payments, which is contingent upon a large number of factors. These may include:

1. The rate of mortality of active employees
2. The rate of their withdrawal from service
3. Their rate of retirement by age and period of service
4. Their rate of disability
5. The rate of mortality of disabled employees
6. The rate of mortality of retired employees
7. The probability of an employee leaving a widow and her probable age on his death
8. The rate of mortality of widows and employees
9. The rate of marriage of widows
10. The average number and age of children of employees
11. The rate of mortality of children of employees
12. The probable rate of salary increase of employees

In order to determine these factors, the records of the Fund in question, or of a similar one, must be maintained to furnish accurate data as to the experience of the Fund.

Records are not available from which to obtain the necessary statistics in certain of the Illinois Pension Funds. In some, their size and experience are inadequate to warrant the assumption that the experience of the past will probably continue in the future without material change.

PUBLIC SCHOOL TEACHERS' PENSION AND RETIREMENT FUND ACT

(Cities over 500,000 Population)

Administration:

The present Act governing this Fund provides that the Chairman of the Finance Committee of the Board of Education shall be ex-officio a member of the Board of Trustees of this Fund. In view of the fact that no Finance Committee operates under the Board of Education, it is suggested that the Act be amended to provide that some other person of the Board of Education shall be ex-officio a member of the Board of Trustees of this Fund.

Investments:

It is recommended that the Act governing this Fund be amended to provide that investments be limited to the same types of investments to which the Allocation Reserve Basis Funds are restricted, i. e., bonds of the United States or any instrumentality thereof, State of Illinois or any County in Illinois or the direct obligations of any municipal group in the State of Illinois.

Pensions and Benefits:

Recommendation is made that a provision be incorporated into this Act providing for the adjustment of benefits received thereunder in reference to compensation received under provisions of the Workmen's Compensation Act and the Workmen's Occupational Diseases Act.

Annual Statement:

It is recommended that a provision be incorporated into this Act requiring the Retirement Board to file with the Department of Insurance an annual statement upon a form to be prescribed and furnished by the Department so as to permit a more consistent study of the Fund.

**PUBLIC SCHOOL TEACHERS' PENSION AND
RETIREMENT FUND OF CHICAGO**

This Fund operates under and by virtue of Section 152 of the following entitled Act:

AN ACT to establish and
maintain a system of free
schools. L. 1909, p. 342.

Section 152 of the above Act, which applies to the City of Chicago only, provides:

In every city in this State having a population exceeding 500,000 inhabitants there shall be elected a board of trustees to have the administration and control of the public school teachers' pension and retirement fund, to be created and maintained in the manner provided by this Act.

MEMBERSHIP

The Act provides that: "All persons who shall be employed as teachers by the Board of Education of any such City (Chicago) shall, by such employment, accept the provisions of this Act, and thereupon become contributors to said pension fund in accordance with the terms thereof. And the provisions of this Act shall become a part of and enter into any such contract."

In accordance with the above provision, membership in this Fund is compulsory on all teachers who are in the service of the Board of Education with the exception of certain persons who failed to exercise an option to become members of the Fund before September 1, 1940.

The Act further prescribes the conditions under which the teachers who were entitled to the above mentioned option may have become members.

Within a specified time, teachers are required to make proof of service rendered outside of Chicago and also to make payments to cover said periods. Other service is counted for classification purposes, upon proof and payments similar to those required above.

Membership terminates either by withdrawal or dismissal. However, no teacher who has been in service three years or more may be dismissed unless given proper notice and a hearing as prescribed by the Act, before the Board of Education, on written charges presented by the Superintendent of Schools. The decision of the Board of Education is final. However, if acquitted, the teacher suffers no loss of salary.

ADMINISTRATION

The administration of the Fund is vested in a Board of Trustees consisting of nine (9) members, three (3) of whom are members of the Board of Education of the City of Chicago. The remaining members are elected from and by the contributors to the Fund.

The method of holding elections for Trustees is prescribed by the Act in detail.

The officers of the Fund are elected from and by the Trustees themselves.

With the exception of those powers which are vested in the Board of Education, the Board of Trustees has the exclusive control and management of the Fund, including the power to make investments subject to the same limitations which are placed on school fund investments by township trustees.

All disbursements for benefits and administration expenses are authorized by the Trustees, and are made only on warrants signed by the president and secretary of the Board of Education and countersigned by the president of the Board of Trustees of this Fund.

SOURCES OF REVENUE

The revenue of this Fund is derived from three major sources, namely, salary deductions, city contributions, and the interest earnings on its investments.

Contributions of Teachers:

For the purpose of setting forth the contributions that shall be made by the participants, the membership of the Fund is divided into four classes as follows:

Class One: Teachers who have taught four years or less

Class Two: Teachers who have taught more than four and not more than eight years

Class Three: Teachers who have taught more than eight and not more than twelve years

Class Four: Teachers who have taught more than twelve years

Salary deductions are made on a graduated scale depending upon number of years of service. From the salary of each teacher in Class One, \$5 is deducted for each month of service; from the salary of each teacher in Class Two, \$7 is deducted for each month of service; from the salary of each teacher in Class Three, \$9 is deducted for each month of service; and from the salary of each teacher in Class Four, \$12 is deducted for each month of service.

All salary deductions are certified monthly to the City Treasurer by the president and secretary of the Board of Education.

Contributions of City:

The City contributions are derived from taxes levied at the rate of 8/10 of a mill on all taxable property within the corporate limits of the City of Chicago. This tax referred to as the "Public School Teachers' Pension and Retirement Fund Tax," is additional to the taxes levied for other school purposes and is not subject to statutory limitations placed upon such other general taxes. When tax collections for Fund purposes are less than the salary deductions made during any fiscal year, or when the Fund's current income is less than the current disbursements, an appropriation may be made from the next fiscal general levy to make up such deficiency. Such appropriation is in addition to the specific levy for the Fund's purposes.

The Trustees may receive donations, legacies, gifts or bequests, and the like for the benefit of the Fund.

ANNUITIES AND BENEFITS

On Retirement for Service:

Any teacher who has taught 25 years or more, 15 years of which must have been in the schools of Chicago and the last service of which must have been immediately prior to retirement, and who has accumulated the required amount of salary deductions, may retire and receive a pension consisting of \$800 per annum for the first 25 years of service and \$40 additional annuity for each year over 25, not to exceed 10 additional years, and not to exceed a maximum of \$1,200 per annum.

On Compulsory Retirement:

Any teacher who has taught less than 25 years and who is retired by the Board of Education pursuant to the Compulsory Retirement Act and who has accumulated the required amount of salary deductions, receives a pension which is proportionate to the full pension paid for 25 years of service and is based upon the ratio which the actual service bears to the full service period of 25 years.

Prior Law Beneficiaries:

Any teacher who was entitled to, or was already receiving, a pension under any prior existing law receives a graduated pension consisting of from $\frac{4}{5}$ to $\frac{5}{5}$ of the full amount paid for 25 years of service under the Act, depending upon the actual length of service. If any such teacher had 25 years or more of service to his credit on the date he retired, he is paid the full pension allowed for 25 years of service plus an additional amount for each year of service over 25 years, subject to the same limitations described above (On Retirement for Service).

On Retirement for Disability:

Any teacher who has served 12 years or more but less than 25 years, $\frac{3}{5}$ of which time must have been in Chicago, who becomes permanently disabled and who has been a contributor to the Fund in accordance with the Act, may retire and receive disability benefits consisting of \$300 per year for the full 12 year period, and \$38 per year for each year over 12.

General Provisions Concerning Pensions:

All pensions under this Act are paid monthly during the school year.

Whenever a teacher is re-employed by the Board of Education, his pension is terminated and he is again required to contribute to the Fund. However, when he again retires from service, his pension recommences and is increased by the amounts contributed by him during such additional service.

No pension is paid to any teacher who is receiving a pension from any other public fund on the basis of service rendered in the public schools. However, this provision does not include benefits which are payable only on death of a teacher and which are not considered pensions within the meaning of the Act, or the amount which such teacher receives under the Compulsory Retirement Act.

Any pension, benefit, or part thereof granted under this Act is exempt from legal process; and may not be transferred by any beneficiary by mortgage or otherwise.

REFUNDS

Any teacher who leaves the service before having completed 25 years of service, upon application within 5 years after his last teaching service, receives a refund consisting of 80% of all the monies which he has contributed.

Upon the death of any teacher who dies in service, or within 5 years after leaving the service without having received a refund, upon application to the Board of Trustees his estate receives 80% of the total contributions made by him.

Any teacher who has previously received or accepted a refund must return the same improved at 4% interest per annum, upon re-employment and re-entry into the service.

Investments

The bond securities owned by the Fund as of December 31, 1940, consist of a selection of securities issued by the United States Government and various political subdivisions of the State of Illinois. These securities have a par value of \$9,065,450, and are reflected on the books of the Fund as \$9,394,857.54.

With the exception of \$2,500, par value, all of the above bonds were in good standing as of the above date.

In addition to the bonds owned on December 31, 1940, the Fund also owned Tax Anticipation Warrants in the amount of \$100. These warrants were issued by the Board of Education of the City of Chicago, and bear interest at the rate of 6%. Both principal and interest are payable from tax collections of the following years:

Par Value	Rate of Interest	Year Due
\$50.00	6%	1931
25.00	6%	1933
25.00	6%	1933

Pension Liability

The Act governing this Fund, while providing for the payment of certain pensions or annuities, does not require that reserves be maintained from which to pay such accruing benefits. It, in fact, recognizes the possible inability of the Fund to continue the payment of benefits in full by granting to the Board of Trustees the power to reduce proportionately all pensions or annuities if, in the opinion of the board, such action becomes necessary by reason of the financial condition of the Fund.

Regardless of the above stated facts, this Fund, like any other well managed Fund, causes an actuarial survey to be made every five (5) years. Adjustments in this valuation are made at the end of each accounting period between such five-year surveys; and the results thereof are recorded in the official records of the Fund.

In the foregoing statement of Assets and Liabilities, there is shown an item of \$68,297,204, representing the total liability as of December 31, 1940, as determined by the actuary of the Fund, for pensions entered upon, pensions to be paid to members not yet retired, and for the payment of refunds to teachers who will withdraw from the service prior to retirement.

In determining the above liability, certain factors have been used which reasonably represent the conditions which may be anticipated in the future, based upon the past experience of the Fund.

The table of mortality used for active members is the American Men Ultimate Table of Mortality; the table assumed for retired members is the American Annuitant's Table of Mortality.

The rate of interest assumed is 3½% per annum for the first 7 years and 4% per annum thereafter.

GENERAL COMMENTS

Attention is called to the item entitled "Deficiency Contributions Due from Board of Education," in the amount of \$1,030,584.21, appearing in the foregoing statement of assets and liabilities.

This amount represents sums owing the Fund by the Board of Education for the years 1928, 1929, and 1930, in which years there was a deficiency in the public contributions to the Fund. Prior to 1932, the law provided that the

Board of Education was required to contribute whatever amount the public contributions lacked in any year of being twice the deductions from teachers' salaries in that year. This amount represents principal only, interest from the end of the several years not having been calculated.

The Board of Trustees should make every effort to collect this money, which appears to be legally due this Fund.

During the course of examination, it was recommended that the Fund install an adequate bond record. The officers of the Fund assured the examiners that this would be done in the near future.

The examination discloses that the Fund has been managed efficiently and economically.

SECTION IX

NON-CONTRIBUTORY SYSTEMS

Pensions under this System are paid entirely from monies of the State, County, or Municipality involved. Therefore, they are referred to as "non-contributory" or "pay-as-you-go" pensions.

There is no actual fund or reserve set aside, managed, or controlled by a Board of Trustees or by the beneficiaries of such benefits.

Pensions and benefits are payable from the same payroll from which salary was paid during the period of active service, and no deductions of any kind are made from the salaries of employees during such active service.

TEACHERS' COMPULSORY RETIREMENT

AN ACT to provide for the compulsory retirement of teachers, principals, district superintendents and assistant superintendents, and for the payment of retirement annuities.

(Approved May 19, 1926, as amended by L. 1935, p. 1378)

The above Act applies only to cities having a population exceeding 250,000 inhabitants. Therefore, its provisions are applicable to the City of Chicago only.

This Act requires the Board of Education to retire all teachers, principals, district superintendents, and assistant superintendents in the public schools in such City, who are, or hereafter attain, the age of 65 years.

Prior to July 12, 1935, the amount of pension payable upon retirement ranged from \$1,000 for voluntary retirement to \$1,500 for compulsory retirement. On the above mentioned date, the Act was amended to provide for compulsory retirement only, at the present flat annual pension of \$500.

The above pension is in addition to any amounts which may be received by such persons by virtue of any other Teachers' Pension and Retirement Fund Act. The persons so retired are "subject to the call of the superintendent of schools in such city for consultation and advisory service."

The Act further provides that pensions so payable shall be made "from the money derived from the general tax levy for educational purposes."

At June 30, 1940, there were 1,678 persons receiving pensions under the above Act, requiring an expenditure by the Board of Education of the City of Chicago of an amount in excess of \$839,000.

On motion of Mrs. Oliver, seconded by Mr. Gregg, the above report was ordered printed in the proceedings.

REPORT OF COMMITTEE ON ANNUITIES

Miss Komarek, chairman of the Committee on Annuities, presented the following reports of the Committee:

(2986)

Annuitants

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

Disability Annuities

The Committee on Annuities reports that since the adoption of the last report on Disability Annuities, the Committee has received from the Recording Secretary and submits herewith certificates from the physicians appointed by the Pension Board to examine the persons hereinafter listed; that it has considered these certificates and the applications for Disability Annuity submitted by these persons together with other evidence and finds that each such person has completed twelve or more years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; and that each has been declared by three competent physicians who have made a physical examination of said person to be suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching. The committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted a Disability Annuity in the amount set forth below opposite his or her name; said Disability Annuity to date from the day on which the application was received, and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Disability Annuities granted herein; and to file this report and the applications and physicians' certificates herewith submitted in the Pension Office.

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE.

The Chicago Teachers' Pension Law as amended and in force July 7, 1931, provides that teachers then in the Chicago public school system who taught outside Chicago must make payment for their outside time within 5 years of teaching service after that date, if this outside service is to be counted for pension. Payment is to be at the rates in force before the law was passed, and may be made in installments.

Teachers entering the service after July 7, 1931, make payment at the rates established in that law, and payment must be completed within five years of teaching service after date of assignment.

The law also provides that military service within the pension period shall be counted as Chicago service by paying into the Fund the amount that would have been deducted if the teacher had been in active service.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

At the regular meeting on January 15, 1943, a Committee consisting of Miss Scully, Miss Sholund, Miss Mayhew, and Mrs. Gustin, was appointed to consider the question of setting up a Tenure Plan with a salary schedule for the Clerical Office Staff of the Pension Fund. Miss Scully now reports for that special committee and recommends that the Tenure Plan with salary schedule given below be adopted by this Board.

TENURE PLAN

1. **Name**—This Tenure Plan shall be known as **The Clerical Office Staff Tenure Plan of the Public School Teachers' Pension and Retirement Fund of the City of Chicago** and may be referred to as the **Tenure Plan**.

2. **Scope**—This Tenure Plan shall govern and cover all employees on such Staff.

3. **Effective Date**—This Tenure Plan shall be effective beginning January 1, 1944.

4. **Temporary Employees**—All employees engaged for special services shall be known as **Temporary Employees** and shall not be governed or covered by this Tenure Plan, except as specifically indicated therein.

5. **Probationary Employees**—All employees on such Staff, two years or less in service shall be known as **Probationary Employees**.

6. **Permanent Employees**—All employees on such Staff, more than two years in service shall be known as **Permanent Employees**.

7. **Automatic Termination of Service**—Services of both probationary and permanent employees shall automatically terminate on the 30th day of June following the 65th birthday of such employees, unless such birthday shall be on June 30th, in which event the services shall terminate on that date.

8. **Tenure of Probationary Employees**—Probationary Employees may be discharged by the Board of Trustees at any time and without regard to any other provisions of this Tenure Plan.

9. **Tenure of Permanent Employees**—The services of Permanent Employees may be terminated by the Board of Trustees for any of the following: Immorality, Incompetency, Dishonesty, Neglect of Duty, Lack of Co-operation, Physical or Mental Incompetency, Mutual Agreement, or Elimination of Position. When the termination of such service is to be considered by the Board of Trustees, for reasons other than mutual agreement, written reasons for such termination shall be given to the employee and a copy shall be given to each member of the Board of Trustees, and the employee shall be entitled to a hearing with counsel and witnesses, if desired, before the Board of Trustees. The copies to be given to the members of the Board may be handed to them personally or may be mailed to them.

13. **Salary Schedule**—The Salary Schedule hereto attached and made a part hereof shall apply to all probationary and permanent employees.

14. **Purpose of the Tenure Plan**—The purpose of this Tenure Plan is to establish and fix an orderly and satisfactory employment system for the benefit of the employees, the Board of Trustees and the Fund, and to that end the Board of Trustees reserves to itself the right to amend this Tenure Plan whenever in its judgment such amendment may be necessary, but such amendment or amendments shall not apply to employees in service prior to the effective dates of such amendment or amendments.

Miss Scully further reports that the Committee is of the opinion that the title of Assistant Secretary should be changed to Executive Secretary and if agreeable to the Board an Amendment to effect this change should be made to Rule VIII.

Miss Scully further reports that the establishment of a Tenure Plan for the Clerical Office Staff also necessitates a change in Rule VIII.

The Committee therefore recommends the adoption of the following amendment to Rule VIII:

The Assistant Secretary provided for in the preceding paragraph of this Rule shall henceforth be known and designated as Executive Secretary.

All positions on the Clerical Office Staff now filled and all positions on such Staff hereafter filled shall be governed and covered by the TENURE PLAN adopted by the Board of Trustees.

On motion of Miss Scully, seconded by Mrs. Oliver, the amendment to Rule VIII as set forth above was approved by unanimous vote and ordered printed.

For her Committee Miss Scully further recommends that the present employees who on January 1, 1944 have had five years or more of service be placed as of January 1, 1944 on the highest salary rating of their respective groups in the salary schedule of the Tenure Plan.

Miss Scully further moved, seconded by Mr. Gregg, that the Tenure Plan with Salary Schedule as set forth above be adopted and ordered printed in the proceedings, and that the Salary Schedule be made effective as of January 1, 1944. Disability Annuities

The Committee on Annuities reports that since the adoption of the last report on Disability Annuities, the Committee has received from the Recording Secretary and submits herewith certificates from the physicians appointed by the Pension Board to examine the persons hereinafter listed; that it has considered these certificates and the applications for Disability Annuity submitted by these persons together with other evidence and finds that each such person has completed twelve or more years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; and that each has been declared by three competent physicians who have made a physical examination of said person to be suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching. The committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted a Disability Annuity in the amount set forth below opposite his or her name; said Disability Annuity to date from the day on which the application was received, and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

The Annuitants of January, 1944

The following table shows the number of annuitants classified by years of service and arranged in three groups according to the dates on which their names were placed on the pension roll:

Group I includes all those who retired before July 1, 1923.

Group II includes those who retired between July 1, 1923, and July 11, 1935.

Group III includes those who retired after July 11, 1935.

The Disability Annuitants constitute a fourth group.

Annuitants in Group One (all who retired before July 1, 1923) receive the rates authorized by the Law in effect previous to 1923.

Annuitants in Group Two receive the rates authorized by the law of 1923—that is, from \$800 to \$1,000 depending on length of service. In May, 1925, the compulsory retirement law became effective, and until July, 1935, the compulsory retirement age was 70.

Annuitants in Group Three receive the rates authorized by the legislature of 1935, which raised the maximum to \$1,200 for 35 years of service. At the same session the legislature fixed the compulsory retirement age at 65.

The Pension Law as amended by the Legislature of 1931, provides that any person retired by the Board of Education under the Compulsory Retirement Law with less than 25 years of service shall receive as pension such proportion of \$800 as his time of service bears to 25 years.

FOREWORD

MEMBERSHIP:

The membership of the Board of Trustees remained unchanged during 1943. At the Primary Election held by the contributors on October 8, 1943, Mrs. Florence B. Oliver and Miss Anne Komarek were re-elected, each for a three-year term.

The members appointed by the Board of Education were Mr. Nels Olson, Mr. Wilson Frankland, and Mr. Joseph Cremin. The vacancy caused by the death of Mr. Olson on November 21, 1943, has been filled by the appointment of Mr. Walter Truec on January 26, 1944.

BEQUESTS:

During the year the Pension Fund received a bequest from Eda D. Flagg, formerly a teacher at Tuley High School, who retired on pension September 1, 1936. She died April 30, 1943, and in her will the Pension Fund was made legatee of four lots—two of them in Calumet City and two in Lake County, one of which has been taken by the Government for the Great Lakes Naval Training Station, for which we received \$125.00 as payment in full from the United States Government.

The Fund received in 1943 a payment of \$16.46 from the estate of Matilda Niehaus bringing the total received from this bequest to \$27,311.12.

INVESTMENTS:

The method of investment record keeping in the Pension office has been revised. The new system will meet the requirements of the State Insurance Department and will facilitate the operations of the Pension office and simplify the work of the Annual Audit. The new system gives in compact form all the data required with respect to acquisition, description, maturity and call dates, par value, purchase prices, premium or discount, exact interest, defaults, gain or loss on sale or exchange, and other details easily summarized at any month-end.

The invested fund increased (face value) \$302,750 during the year, making the total on December 31, 1943, \$9,482,200.00. A report on the invested fund is printed elsewhere in this pamphlet.

TAX MONEY:

The tax money paid into the pension fund increased \$642,598.72 from the amount paid in 1942, showing the effect of the increased tax rate secured in 1941.

OTHER FINANCIAL ITEMS:

The number of contributors decreased 429 during 1943 and due to that fact deductions from payrolls were \$29,776.25 less than in 1942.

263 new annuitants were placed on the pension roll during 1943, including 17 disability annuitants. Deaths made the net increase 110. The net payment to annuitants was \$3,232,869.35.

COMPULSORY RETIREMENT LAW:

House Bill 543 amending the Compulsory Retirement Law was approved by the Governor on July 23, 1943. This Act provides that any teacher, principal, district superintendent or assistant superintendent may, if he so desires, continue in active service until the end of the school term during which he attains the age of sixty-five years.

HENRY G. GEILEN,

President, Board of Trustees.

February 18, 1944.

On motion of Misse Scully, seconded by Mr. Gregg, these reports were adopted by unanimous vote.

PENSION PAYROLL FOR THE MONTH OF JANUARY 1944

NOTE: If an annuitant does not return the receipt for her pension warrant, the warrant for the following month is issued, but it is not mailed until the receipt for the preceding month is returned. If the death of an annuitant is not reported until after one or more warrants have been issued, these warrants are deposited back into the Fund as Unearned Pension and another warrant for the fractional part of the month up to the date of death is issued to the estate.

LIST B.

The Annuitants in the following list were placed on the pension roll since July 1, 1923.

A teacher retiring with more than 25 years of service adds to the deductions from salary an amount sufficient to bring the total to the sum required for 25 years of service; he then receives \$800, the annuity paid for 25 years of service, and the additional annuity allowed for additional service accumulates until the required payment for the additional annuity is completed.

* The first of these amounts is the sum due the fund for either the basic pension or the additional pension, and the second amount is the sum due the annuitant to the end of January. For the basic pension (that is, the pension paid for not more than 25 years of service) the pension is withheld until payment is completed; for the additional pension, (that is, the pension paid for service in excess of 25 years) the amount of pension in excess of \$80 per month is withheld until payment is completed. Then to complete the record a check for this amount due the fund is issued and deposited, and a receipt is issued to the annuitant. See note at beginning of this List.

† Includes pension for more than one month.

‡ This annuitant died in January and the first of these amounts is "unearned pension" deposited back into the fund; the second amount is the sum due the estate for the fractional part of the month up to the date of death.

COMMUNICATIONS

The Recording Secretary, Miss Scully, presented the following communication:

(3031)

Letter from Auditors of City Treasurer's Accounts

McCOY, HOLLAND & GOODSSELL.

Chicago, March 29, 1944.

The Board of Trustees of the Public School
Teachers' Pension and Retirement Fund, Chicago,
Chicago, Illinois.

Ladies and Gentlemen:

Examination of the records of the office of the Treasurer of the City of Chicago, as at December 31, 1943, discloses that the Treasurer had in his custody and was accountable for cash and securities of

THE BOARD OF TRUSTEES OF THE PUBLIC SCHOOL TEACHERS PENSION AND RETIREMENT FUND

in amounts as follows:

Cash	\$ 576,538.43
Securities—Principal	9,482,200.00

The First National Bank of Chicago has certified to us that the above-stated balance of cash was on deposit, in a separate account, to the credit of the Fund and we reconciled it satisfactorily with the cash records of the Board of Trustees.

Securities, in the principal amount set out above, including bonds past due to the face value of \$1,500.00 and coupons in default to the amount of \$12,764.00, were inspected and counted in the office of the Treasurer and subsequently were found to be in agreement with the detail and aggregate shown by the Board's security records. Coupons next maturing and all subsequent were attached to the said securities.

Our examination of the records of the Board of Trustees of the Public School Teachers Pension and Retirement Fund was limited to the reconciliation of the amounts of cash and securities held by the Treasurer of the City of Chicago, as ex-officio custodian of the Fund, with the records of the Board as at December 31, 1943.

Yours very truly,
(Signed) McCOY, HOLLAND & GOODSSELL.

On motion of Miss Scully, seconded by Miss Sholund, this communication was received and ordered printed.

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE

Under the Law as amended and in effect July 7, 1931, payments into the pension fund are required for all outside service approved by the Pension Board if the service is to be allowed for pension purposes. Each teacher assigned to the Chicago service must pay into the fund an amount equal to the amount that would have been deducted from his salary if his outside service (not to exceed ten years) had been in Chicago.

Payment must be completed within five years of teaching service after date of first assignment in Chicago.

The law also provides that military service within the pension period shall be counted as Chicago service by paying into the Fund the amount that would have been deducted if the teacher had been in active service.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

TEACHERS' PAYMENTS FOR SABBATICAL LEAVE AND SICK LEAVE.

The following teachers have made payments for time spent on Sabbatical Leave on the dates and in the amounts shown after each name:

Audit for 1943

The Committee on Finance and Judiciary reports that in accordance with authority granted by the Board of Trustees an audit of the Pension Fund has been completed by Henry R. Corbett Associates, and the report is submitted herewith.

The Committee recommends that this report be accepted and printed in the proceedings.

LETTER TRANSMITTING REPORT

To the Board of Trustees
of the Public School Teachers'
Pension and Retirement Fund,
Chicago, Illinois.

In accordance with your directions, we have audited the accounts of the Teachers' Pension and Retirement Fund of Chicago, for the year 1943, and submit the following report.

Respectfully,

HENRY R. CORBETT ASSOCIATES.

NOTE

Accounting problems of pension funds and life insurance companies, interwoven as they are with actuarial processes, have aspects seldom found in the fiscal procedures of ordinary commercial or governmental activities—a fact recognized in the special insurance sections of the income tax law. It is customary, therefore, for actuaries rather than public accountants to prepare the financial statements of pension funds and insurance companies.

FOREWORD

The Annual Audit is a detailed report on the current financial condition of the Fund. It will be appropriate, therefore, to call attention briefly to some features of the financial structure of pension funds which need to be kept in mind.

An insurance company, or a bank, or a big business cannot tolerate a large deficit continuing over many years. But when a pension fund is started, a deficit—meaning, the need of a reserve, is created and often continues for twenty-five years or more. Otherwise there would be an unfair burden on the earlier years. The normal payments yearly to “amortize” this needed reserve must be determined and paid. These with other expenses, make up the adequate annual cost.

There must of course be sound plans, frequent forecasts, and steady accumulation of reserves; and, of course, strict audit of the financial situation every year.

Cash Basis and Total “Book Value” Basis:

Financial exhibits are said to be on the “Cash Basis” when they include only the amounts actually received and disbursed in cash during the period covered. When they also show the income actually accrued although not yet received in cash, and likewise the expense or outgo actually incurred but not yet paid,—they are then said to be on the “Cash and Accrual” Basis or the “Book Value” Basis.

The Annual Statement published by the Pension Board at the close of the year is on the “Cash Basis” because its immediate purpose is to check up the account of the Treasurer and the Contingent Bank account. For this reason the bond accounts are listed at par, regardless of the premiums and discounts which do not concern the Treasurer.

The Annual Audit, however, is on the “complete Book Value” basis except where cash is clearly specified or indicated; as, for example, in the Cash Receipts and Disbursements in the Audit, and the Cash on Hand accounts. All the other important exhibits, such as “Net Ledger Resources” and the “General Reserve” account must, of course, consider not only the resources on hand in cash, but also the income actually accrued although not yet received in cash, and likewise the expense or outgo actually incurred but not yet paid.

TREND OF INTEREST RATES

In the actuarial computations related to pension fund finance an important factor is the rate of interest—the rate of income from investment of the fund's resources. Of necessity the rate has to be estimated in advance, and when the actual yield varies from the assumed rate there is a favorable or adverse effect upon the fund's liabilities and deficit. If the interest received is greater, the cash required from other sources is less, and vice-versa.

Interest rates have been falling for a number of years and the following table shows that the yields on the investments of the Teachers' Pension Fund have followed the general trend:

	Approximate Actual Investment	Interest Earned on Investment	Interest Yield
1939	\$9,227,414	\$337,378	3.66%
1940	9,377,261	344,848	3.68%
1941	9,609,070	331,081	3.45%
1942	9,684,979	319,200	3.33%
1943	9,677,547	310,212	3.21%

The rates given in the table, it is important to note, are the yields on the bonds held by the pension fund. A considerable part of the fund's resources cannot be invested,—the bank balances to meet current pension payments, etc., taxes in process of collection, and the sums due from the Board of Education. When the amount of interest actually earned on the investments is compared with the total ledger resources, the rate of yield falls well below 2.5 per cent.

COMMENT ON GENERAL RESERVE ACCOUNT:

This account is on the so-called "accrual" or "book value" basis distinguished from the cash basis used in the Annual Statement published by the Pension Board. It corresponds closely to the "General Fund" account used in state and municipal accounting, and might be compared to the combined capital and surplus account of a private corporation.

The following exhibit is not limited to statements of the condition of the General Reserve Account at the beginning and end of the year, but also shows the changes that took place during the year, and in that respect takes on the nature of the "Income" or "Profit and Loss" account of a corporation.

Operations of 1943:

It will be noted that the balance in this account at the close of the year is the amount of the net current ledger resources shown in the preceding exhibit.

There was an increase of roughly \$222,000 in the net ledger resources during the year, but a corresponding increase is not looked for in 1944 without an increase in the fund's revenues. In fact, decreases in resources may be expected, beginning in 1945 or 1946.

COMMENT ON INVESTMENT ACCOUNT:

Like the General Reserve Account, this account is on the "Book Value" basis; that is, it shows not only par values but also premiums and discounts and reflects the result of writing off premiums and discounts over the life of the bonds to which they apply.

In the office of the City Treasurer, where the bonds are in safekeeping, the records are confined to par values and the amount of coupons collected. Since these items are also recorded in the pension office, it is an easy matter to detect any discrepancies between the two offices.

A complete accounting procedure, however, calls for additional records to take care of premiums, discounts, and accrued interest, in order to show the true interest yield and the net gain or loss on bonds disposed of before maturity. The pension office records provide this information.

Operations of 1943:

There was an increase during the year of \$303,750 in the par value of bonds held by the fund. This was due chiefly to the larger receipts from taxes, the result of an increase in the fund's tax rate from 0.8 mill to 1.2 mills beginning with the levy for 1942.

COMMENT ON CASH RECEIPTS AND DISBURSEMENTS:

As its name indicates, this statement is on the cash basis. Except for differences in classification or arrangement, its items agree with those in the "Receipts and Disbursements" of the "Annual Statement" issued by the pension office.

A new sheet with the sub-title "Excess of Receipts over Disbursements" has been added to this statement in the present audit report. This was done to afford a ready comparison of the amount of receipts and the amount of disbursements, with the par value of investment transactions segregated. If the records were solely on a cash basis, all items except the par value of bond maturities, sales or purchases would constitute income or expense. Therefore, the bond transactions have been set apart from the other receipts and disbursements.

Operations of 1943:

All receipts and disbursements for the year have been checked during the course of this audit. The pension office records have been reconciled with those of the Board of Education in connection with taxes and salary deductions and with those of the City Treasurer with respect to investments, interest and cash. The Contingent Fund bank account also was reconciled, and test checks of disbursement authorizations were made. A physical count of the bonds was made in February by a committee of the Pension Board.

REPORT OF COMMITTEE ON ANNUITIES

Miss Komarek, chairman of the Committee on Annuities, presented the following reports of the Committee:

(3066)

Annuites

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Sections 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

The Committee on Annuities reports that at the meeting of May 31, 1944, physicians were appointed to examine Helen H. Elliott of the Agassiz School. (See proceedings of that date, page 494, Doc. 3050.)

The Committee reports that it has carefully examined the reports of the physicians appointed to examine Mrs. Elliott and finds that she is not permanently incapacitated for teaching and therefore recommends that her application for disability annuity be not granted.

On motion of Miss Komarek, seconded by Mrs. Oliver, this report was adopted and the recommendation concurred in.

The Committee on Annuities reports that the Committee has received from the Recording Secretary applications for Disability Annuity submitted by the person hereinafter listed who have completed at least twelve years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; also that each such application is accompanied by a certificate from a competent physician declaring that the applicant is suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching.

The Committee therefore

RECOMMENDED that in addition to the physician whose certificate accompanies the application, there be appointed for each applicant the two physicians whose names are set forth below after the name of each such applicant for Disability Annuity. The Committee further recommends that the Recording Secretary be, and hereby is, authorized and directed to notify the applicant and the physicians so appointed of this action of the Pension Board, and to file this report in the Pension Office.

REPORT OF COMMITTEE ON PENSION LAW AND RULES

Miss Sholund, Chairman of the Committee on Pension Law and Rules, presented the following report of the Committee:

(3069)

AMEND BY-LAW 2 AND BY-LAW 5

The Committee on Pension Law and Rules reports that it has carefully examined the Rules and Regulations of the Board of Trustees and has prepared Amendments to By-Law 2, Section 1, and By-Law 5.

The Committee therefore recommends the adoption of the following:

RESOLUTIONS

Resolved that By-Law 2, Section 1 of the Rules and Regulations of the Board of Trustees of the Public School Teachers' Pension and Retirement Fund, City of Chicago, which now reads as follows:

By-Law 2, Sec. 1. Any person entitled thereto under the law, having completed the required term of service and the required payments into the pension fund, desiring an annuity of any kind, shall make written application therefor on the official blank provided by the Board of Trustees.

shall be and is hereby amended to read as follows:

By-Law 2, Sec. 1. Any person entitled thereto under the law, having completed the required term of service and the required payments into the pension fund, desiring an annuity of any kind, shall make written application therefor on the official blank provided by the Board of Trustees. Annuities date from the day on which the application is received in the Pension Office, provided the teacher is separated from the service.

Resolved further that the title of By-Law 5 be changed to read "Payment for Outside Service, Refunds and Leaves" and that Section 3 be added thereto to read as follows:

Sec. 3. All teachers returning to service after time spent on Sick Leave for which the Board of Education pays part salary, or after time spent on Sabbatical Leave, may have the time so spent counted for pension purposes, provided they shall pay into the Fund for such time, the amounts that would have been deducted from their salaries had they been in active teaching service.

Such teachers may pay these amounts in full within one year after returning to service without any interest charge, but if payment is deferred, interest at the rate of four per cent per annum will be added to such required payment.

On motion of Miss Sholund, seconded by Mr. Gregg, this report was received, approved and ordered printed.

Miscellaneous Business

(3070)

Eda D. Flagg Bequest

The Recording Secretary reported that a communication regarding the sale of Lot 6, Block 38, in Shore Crest Estates, Lake County, Illinois, bequeathed to the Pension Fund by Eda D. Flagg, had been received.

On motion of Miss Scully, seconded by Miss Komarek, this communication was referred to the attorney, Mr. Henry W. Olschner.

(3071)

Leave of Absence Granted

The Recording Secretary reported that Mrs. Eva S. McClelland, an employee in the pension office, has requested a leave of absence with loss of salary from July 16 to December, 1944.

On motion of Miss Scully, seconded by Miss Sholund, this request was granted and permission given to employ a substitute clerk.

Election of Member of the Pension Board

Mr. Gregg nominated Miss Agnes E. Richards, a contributor and a teacher in the Harrison High School, to fill the vacancy which will exist on July 4, 1944, by reason of the statutory retirement of Florence B. Oliver from active service as a teacher in the employ of the Board of Education of the City of Chicago. Nomination seconded by Miss Sholund.

There being no further nominations the Recording Secretary was instructed to cast one ballot for each member present for Miss Richards as member of the Board of Trustees. The Secretary reported that she had cast the ballots as directed and the President declared Miss Richards elected to fill the vacancy until the next regular election.

ADJOURNMENT

On motion of Miss Scully, seconded by Mr. Gregg, the meeting adjourned to meet at the call of the Secretary.
