(3122)

Letter from Auditors of City Treasurer's Accounts

McCOY, HOLLAND & GOODSSELL

Chicago, February 8, 1945.

The Board of Trustees of the Public School
Teachers' Pension and Retirement Fund, Chicago,
Chicago, Illinois:

Ladies and Gentlemen:

Examination of the records of the office of the Treasurer of the City of Chicago, as at December 31, 1944, discloses that the Treasurer had in his custody and was accountable for cash and securities of

THE BOARD OF TRUSTEES OF THE PUBLIC SCHOOL TEACHERS' PENSION AND RETIREMENT FUND

in amounts as follows:

Cash	\$ 560,379.50
Securities—Principal	9,530,650.00

Statement of the First National Bank of Chicago, opened by us, certifies that the above-stated balance of cash was on deposit, in a separate account, to the credit of the Fund and we reconciled it satisfactorily with the cash records of the Board of Trustees.

Securities, in the principal amount set out above, and coupons in default to the amount of \$37,977.00, were inspected and counted in the office of the Treasurer and subsequently were found to be in agreement with the detail and aggregate shown by the Board's security records. Coupons next maturing and all subsequent were attached to the said securities.

Our examination of the records of the Board of Trustees of the Public School Teachers' Pension and Retirement Fund was limited to the reconciliation of the amounts of cash and securities held by the Treasurer of the City of Chicago, as ex-officio custodian of the Fund, with the records of the Board as at December 31, 1944.

Yours very truly,
(Signed) McCOY, HOLLAND & GOODSSELL.

On motion of Miss Scully, seconded by Miss Sholund, this communication was received and ordered printed.

FOREWORD

The Board of Trustees of the Public School Teachers' Pension and Retirement Fund submits herewith its Thirty-Ninth Annual Report in accordance with the established policy of the Board and in recognition of its responsibility to the participants of the Fund.

BOARD OF TRUSTEES:

There was one change in the membership of the Board of Trustees during the year. Mrs. Florence B. Oliver retired on July 4, 1944. In accordance with the law the Board of Trustees elected Miss Agnes E. Richards of the Harrison High School to fill the vacancy until the next regular election, which took place in October when Miss Richards was elected by the contributors to fill Mrs. Oliver's unexpired term of two years. At the same Primary Election on October 6, 1944, Miss Evelyn Sholund and Miss Susan Scully were re-elected, each for a three year term.

The members elected from the Board of Education are Mr. Wilson Frankland, Mr. Joseph W. Cremin and Mr. Walter True.

INVESTED FUND:

The invested fund increased (face value) \$48,450 during the year, making the total on December 31, 1944, \$9,530,650.00. A report on the invested fund is printed elsewhere in this pamphlet.

CONTRIBUTORS AND ANNUITANTS:

The number of contributors decreased 463 during 1944 and net deductions from payrolls were \$56,916.75 less than in 1943.

325 new annuitants were placed on the pension roll during 1944, including 9 disabilities. Deaths made the net increase 184.

FEDERAL INCOME TAX:

Under the federal income tax law pensions or annuities received by public employees from a fund to which they contributed are subject to income taxes and must be included in the tax return filed by an

annuitant. However, only an amount equal to three per cent of the total contribution must be reported each year until the total cost has been recovered tax-free. Thereafter the full amount received each year must be reported as income.

If the entire cost of a pension is borne by a former employer, the full amount received must be reported. This applies to the \$500.00 paid by the Board of Education under the compulsory retirement law. It is paid, as teachers' salaries are, from the Educational Fund.

The increasing federal income tax rates in recent years, the lowering of personal exemptions and the rising cost of living have focused attention on the plight of those taxpayers who are receiving small fixed incomes. Recognizing this condition, a number of public officials have undertaken a movement to bring about some form of relief to these individuals. Petitions have been prepared and sent to Congress requesting that public employe pensions be exempted from federal income taxes up to a certain fixed maximum amount. One of the reasons given in support of such an exemption is that Social Security pensions, as well as Railroad Retirement Pensions, have been and are now fully exempt from federal income taxes. The Municipal Finance Officers Association, in which the Teachers' Pension Board holds a membership, has taken similar action through its appropriate Committee on Retirement Administration.

There seems to be considerable sentiment toward a change in the federal income tax law in favor of those taxpayers who are dependent on their pensions as their sole and only means of support, and who cannot supplement their income by other employment because of their advanced age or because of disablement. It is hoped that Congress will give its approval to such an amendment.

HENRY G. GEILEN,

President, Board of Trustees.

February 16, 1945.

On motion of Miss Scully, seconded by Miss Sholund, these reports were adopted by unanimous vote.

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE.

Under the Law as amended and in effect July 7, 1931, payments into the pension fund are required for all outside service approved by the Pension Board if the service is to be allowed for pension purposes. Each teacher assigned to the Chicago service must pay into the fund an amount equal to the amount that would have been deducted from his salary if his outside service (not to exceed ten years) had been in Chicago.

Payment must be completed within five years of teaching service after date of first assignment in Chicago.

The law also provides that military service within the pension period shall be counted as Chicago service by paying into the Fund the amount that would have been deducted if the teacher had been in active service.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

TEACHERS' PAYMENTS FOR SABBATICAL LEAVE AND SICK LEAVE.

Miss Komarek, chairman of the Committee on Annuities, presented the following reports of the Committee:

(3138)

Annuities

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

Disability Annuities

The Committee on Annuities reports that since the adoption of the last report on Disability Annuities, the Committee has received from the Recording Secretary and submits herewith certificates from the physicians appointed by the Pension Board to examine the persons hereinafter listed; that it has considered these certificates and the applications for Disability Annuity submitted by these persons together with other evidence and finds that each such person has completed twelve or more years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; and that each has been declared by three competent physicians who have made a physical examination of said person to be suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching. The committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted a Disability Annuity in the amount set forth below opposite his or her name; said Disability Annuity to date from the day on which the application was received, and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Disability Annuities granted herein; and to file this report and the applications and physicians' certificates herewith submitted in the Pension Office.

The Annuitants of January, 1945

The following table shows the number of annuitants classified by years of service and arranged in three groups according to the dates on which their names were placed on the pension roll:

Group I includes all those who retired before July 1, 1923.

Group II includes those who retired between July 1, 1923, and July 11, 1935.

Group III includes those who retired after July 11, 1935.

The Disability Annuitants constitute a fourth group.

Annuitants in Group One (all who retired before July 1, 1923) receive the rates authorized by the Law in effect previous to 1923.

Annuitants in Group Two receive the rates authorized by the law of 1923—that is, from \$800 to \$1,000 depending on length of service. In May, 1925, the compulsory retirement law became effective, and until July, 1935, the compulsory retirement age was 70.

Annuitants in Group Three receive the rates authorized by the legislature of 1935, which raised the maximum to \$1,200 for 35 years of service. At the same session the legislature fixed the compulsory retirement age at 65.

The Pension Law as amended by the Legislature of 1931, provides that any person retired by the Board of Education under the Compulsory Retirement Law with less than 25 years of service shall receive as pension such proportion of \$800 as his time of service bears to 25 years.

LIST B.

The Annuitants in the following list were placed on the pension roll since July 1, 1923.

A teacher retiring with more than 25 years of service adds to the deductions from salary an amount sufficient to bring the total to the sum required for 25 years of service; he then receives \$800, the annuity paid for 25 years of service; and the additional annuity allowed for additional service accumulates until the required payment for the additional annuity is completed.

* The first of these amounts is the sum due the fund for either the basic pension or the additional pension, and the second amount is the sum due the annuitant to the end of January. For the basic pension (that is, the pension paid for not more than 25 years of service) the pension is withheld until payment is completed; for the additional pension, (that is, the pension paid for service in excess of 25 years) the amount of pension in excess of \$80 per month is withheld until payment is completed. Then to complete the record a check for this amount due the fund is issued and deposited, and a receipt is issued to the annuitant. See note at beginning of this List.

† Includes pension for more than one month.

‡ This annuitant died in January and the first of these amounts is "unearned pension" deposited back into the fund; the second amount is the sum due the estate for the fractional part of the month up to the date of death.

REPORT OF COMMITTEE ON PENSION LAW AND RULES

Miss Richards, Chairman of the Committee on Pension Law and Rules, presented the following report of the Committee:

The Committee on Pension Law and Rules reports that in accordance with the direction of the Pension Board at its meeting on March 9, 1945, the attorney for the Pension Board, Mr. Henry W. Olschner, has drafted a Pension Bill (presented herewith) for introduction into the Legislature now in session at Springfield, which Bill contains the provisions as set forth in the Proceedings of March 9, 1945, Doc. No. 3144, page 170.

The Committee recommends that these amendments be approved by the Pension Board; that steps be taken to have the Bill as drafted introduced in the Legislature; that the Superintendent of Schools be requested to grant leave of absence to the members of the Board of Trustees in order that they may attend sessions of the Legislature and its Committees to further the passage of the Bill; and that the Bill as drafted be printed in the proceedings.

The Committee further recommends that the Recording Secretary be instructed to notify the teachers when the Bill is introduced and to keep them informed as to its progress through the Legislature.

A BILL

For an Act to amend Sections 34-91, 34-92, 34-98, 34-100, 34-102, 34-104, 34-106, 34-109 of "An Act providing for a system of free schools", enacted by the Sixty-Fourth General Assembly.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

SECTION 1. Sections 34-91, 34-92, 34-98, 34-100, 34-102, 34-104, 34-106, 34-109 of "An Act providing for a system of free schools", are amended to read as follows:

SEC. 34-91. There shall be elected a board of trustees to administer and control the public school teachers' pension and retirement fund, hereafter in this Article called the "fund", created by this Article. The board of trustees shall consist of nine members, three of whom shall be members of the board of education, and six of whom shall be members of the teaching force who are contributors to the fund elected by the members of such force. The chairman of the finance committee of the board of education shall be ex-officio a member of the board of trustees. There shall also be elected at the first meeting of the board of education in November of each year one of its members to serve, while a member of the board of education, on the board of trustees, for a term of two years; and on the *last school day of the second week of November* of each year there shall be elected two members of the board of trustees from the members of the teaching force who are contributors to the fund, who shall hold office for a term of three years, while remaining contributors thereto. The election of the members of the board of education to the board of trustees shall be by a majority of the board of education in such manner as the board of education shall provide. The election of the members to the board of trustees by the members of the teaching force shall be by secret ballot at an election held in such manner as the board of trustees by by-laws provide.

SEC. 34-92. Nominations for trustees provided for in Section 34-91 shall be made by a secret primary election held in such manner as the board of trustees shall by by-laws provide, at least thirty days before the final election. Every member of the teaching force of the city who is a contributor to the fund may vote at the primary election for as many persons to be nominees as there are trustees to be elected. The name of no candidate for nomination shall be printed upon the primary ballot unless upon a petition signed by not less than twenty-five members of the teaching force employed in such city who are contributors to the pension fund. Petitions shall be filed with the recording secretary not less than ten days before the primary election. Not more than one candidate may be nominated by any one petition. The names of the persons receiving the highest number of votes in the primary less than a majority of *the number of ballots* cast thereat shall appear as nominees for trustees upon the election ballot. The number of names appearing on the election ballot shall be not more than double the number of trustees to be

elected. *Those candidates* for trustee who receive a majority of all the votes cast for their respective terms at the primary election shall thereby be finally elected. Where candidates equal in number to the full number of candidates to be finally elected each receives a majority of all the votes cast for their respective terms at the primary election no final election shall be held. Each member of the teaching force of the city who is a contributor to the fund shall be entitled to vote at the election for the number of persons to be elected trustees. The location and number of polling places shall be designated by the board of trustees. The judges and clerks of the primary and the final election shall be selected from the members of the teaching force of the city who are contributors to the fund in such manner as the board of trustees by by-laws provide. Elections to fill vacancies in the board of trustees shall be held at the next annual election: provided, that the board of education may fill vacancies occurring in the membership of the board of trustees elected from the board of education at any regular meeting of the board of education. All trustees, while members of the board of education or while contributors to the fund shall hold their offices until their successors shall have been elected and qualified.

SEC. 34-98. All teachers who have taught in public schools of the United States outside of the city, or rendered service therein, upon entering the service of the board of education for the first time shall submit to the board of trustees of the fund evidence of such service. Such evidence, when approved by the board of trustees, shall be the basis for placing such teachers in the proper group provided in Section 34-96.

SEC. 34-100. *Teachers now, heretofore, or hereafter in the service of the board of education who desire to have outside service credited for pension purposes shall for each year of service outside the city approved by the board of trustees pay into the fund an amount equal to what would have been deducted from the salary of such person for a like period at the rates then in force and effect as if such service had been in the public schools of the city, plus interest at the rate of four per cent (4%) per annum from one year after date of assignment to date of payment.* Payment shall not, however, be required for more than ten years of service outside of the city, and the payment may be made in installments in such manner as the board of trustees shall by by-laws provide.

SEC. 34-102. The board of trustees shall pass a resolution declaring the maturity of active service and right to the benefits of the fund in favor of persons entitled to the benefits thereof, in the following cases:

1. When any contributor to the fund has taught in the public schools of the United States, or rendered service therein, for a period of twenty-five years, within the meaning of Sections 34-86 to 34-113, inclusive, and is entitled to receive a pension, and has contributed to the pension fund the aggregate sum, to be ascertained and determined as provided in Section 34-103.

2. When any contributor to the fund has taught in the public schools of the United States, or rendered service therein, for a period of from twenty-six to thirty-five years, within the meaning of those sections, and is entitled to receive a pension, and has contributed to the pension fund the aggregate sum, to be ascertained and determined as provided in Section 34-103.

3. When any contributor to the fund has taught twelve years or more in the public schools of the United States, within the meaning of those sections, and has been declared by three competent physicians, who have made a physical examination of the teacher at the request of a majority of the board of trustees, to be suffering from a disability which wholly and presumably permanently incapacitates him for teaching; and when the teacher has contributed to the pension fund the aggregate sum to be ascertained and determined as provided in Section 34-103.

4. When any contributor to the fund is retired from active service by the board of education because of having attained an age requiring such retirement pursuant to any law of this State, and has at the date of such compulsory retirement less than twenty-five years of active service within the meaning of those sections; and has contributed to the pension fund the aggregate sum to be ascertained and determined as provided in Section 34-103.

SEC. 34-104. The board of trustees shall not declare any person entitled to the benefits of the fund until he has taught in the public schools of the city three-fifths of the term of service for which annuity is granted, which three-fifths of service must be the last service rendered prior to his retirement on a pension. In computing the years of service for which annuity is granted not more than ten years of service outside the city may be allowed to any applicant. No person is entitled to the benefits of the fund until his employment as a teacher in the active service of the board of education has been terminated *nor shall such benefits accrue or begin to run until he has made written application therefor to the board of trustees.*

SEC. 34-106. Persons entitled to *the benefits* and becoming beneficiaries of the pension fund under Sections 34-102 to 34-105, inclusive, shall receive a pension as follows:

1. *Teachers retiring prior to July 1, 1946* after twenty-five years of service within the meaning of Sections 34-86 to 34-113, inclusive, shall receive the full service annuity as fixed and paid by the board of trustees for 25 years of service, not to exceed \$800, *but such teachers retiring after June 30, 1946 shall not receive such annuity until they shall have attained the age of 55 years.*

2. *Teachers retiring prior to July 1, 1946* after 26 or more years of service, within the meaning of those sections, shall receive the full service annuity paid for 25 years of service as herein provided, and in addition thereto for each full year of service in excess of 25 years an additional annuity or pension of forty dollars (\$40), provided, that no annuity or pension shall exceed one thousand two hundred dollars (\$1,200.00), *but such teachers retiring after June 30, 1946 shall not receive such annuity or pension until they shall have attained the age of 55 years.* In computing the time of service in excess of 25 years no additional annuity or pension shall be paid for any fractional part of a year nor for a longer period than 10 years in excess of 25 years.

3. *Teachers retiring because of permanent disability after twelve years of service shall receive as an annuity or pension three hundred dollars (\$300.00), and for each year of service in excess of twelve years an additional annuity of thirty-eight dollars (\$38.00).*

4. *Teachers* with less than twenty-five years of service within the meaning of those sections retiring because of having attained an age requiring such retirement shall receive as a pension such proportion of the full pension paid for twenty-five years of active service as the time of such service of such contributor bears to twenty-five years.

Pensions and annuities shall be paid monthly during the school year by the board of trustees out of the fund in the manner provided by *the board of trustees*.

If any person receiving a pension or annuity from the fund is re-employed as a teacher by the board of education, pension payments to him shall cease when the re-employment begins. If he again retires on pension the time of service and the money contributed by him after his re-employment shall be added to the time and money previously credited.

If any pensioner dies before he has received pension payments equal to four-fifths of all the money he has contributed to the fund, on written application to the board of trustees, his executor or administrator shall be paid the difference between four-fifths of all the money contributed by the pensioner to the fund and the total pension payments made to the pensioner; but if there shall be filed with the board of trustees, prior to the death of the pensioner, a written direction signed and acknowledged by the pensioner before an officer authorized to take acknowledgments, that such refund, if any, be paid to a named beneficiary, such refund shall be paid to such beneficiary on written application therefor to the board of trustees.

Sec. 34-109. If any member of the active teaching force who is willing to continue in the service of the board of education is removed from the service as provided in Section 34-88, or if any member of the active teaching force retires voluntarily from the service, he shall, upon application to the board of trustees within five years from the date of *such removal or retirement* be paid as a refund four-fifths of all the money he has contributed to the fund not including any former refund, *unless at the time of such removal or retirement such member shall be entitled to receive a pension under the provisions of Sec. 34-86 to 34-113 inclusive.*

If any person who has received such a refund is re-employed by the board of education he shall repay to the pension fund the amount of money he received as refund together with interest thereon at four per cent per annum from the time the refund was received by him *to the date of repayment.*

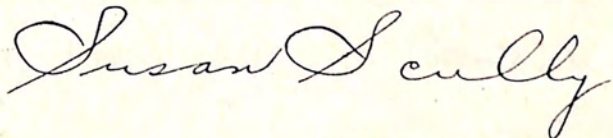

If any contributor to the fund dies while in the active service of the board of education as a teacher, or within five years after his last such service, and had not thereafter received a pension or annuity from the fund, the executor or administrator of the estate of the contributor shall, upon *written* application to the board of trustees, *within said five years* be paid four-fifths of all the money the contributor contributed to the fund, not including any former refund; *but if there shall be filed with the board of trustees prior to the death of said contributor, a written direction signed and acknowledged by the contributor before an officer authorized to take acknowledgments, that the refund be paid to a named beneficiary, on written application made to the*

board of trustees within said five years such refund shall be paid to such beneficiary.

On motion of Miss Richards, seconded by Miss Scully, the report of the Committee on Pension Law and Rules was approved and the recommendations concurred in.

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE

Under the Law as amended and in effect July 7, 1931, payments into the pension fund are required for all outside service approved by the Pension Board if the service is to be allowed for pension purposes. Each teacher assigned to the Chicago service must pay into the fund an amount equal to the amount that would have been deducted from his salary if his outside service (not to exceed ten years) had been in Chicago.

Payment must be completed within five years of teaching service after date of first assignment in Chicago.

The law also provides that military service within the pension period shall be counted as Chicago service by paying into the Fund the amount that would have been deducted if the teacher had been in active service.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

Audit for 1944

The Committee on Finance and Judiciary reports that in accordance with authority granted by the Board of Trustees an audit of the Pension Fund has been completed by Mr. Kendrick Cassidy and certified by Arndt, Mann & Sweeney, and the report is submitted herewith.

The Committee recommends that this report be accepted and printed in the proceedings.

LETTER TRANSMITTING REPORT

CERTIFIED PUBLIC ACCOUNTANTS
134 North La Salle Street
Chicago 2, Illinois

May 28, 1945.

Board of Trustees of the Public
School Teachers' Pension and
Retirement Fund, City of Chicago,
Chicago, Illinois.

We have completed an audit of the accounts and records of the Public School Teachers' Pension and Retirement Fund, City of Chicago, for the year ended December 31, 1944. In connection therewith, we reviewed the system of internal control and the accounting procedures of the Fund, and examined accounting records and supporting data by methods and to the extent we deemed appropriate in accordance with generally accepted auditing standards applicable in the circumstances.

Cash balances were satisfactorily reconciled with the amounts reported by the depositories. We traced City Treasurer's receipts into the records of the Fund and determined that expense disbursements were supported by adequate vouchers and Board approval. We made adequate tests of additions and postings of the cash books and traced all pre-numbered duplicate receipts for cash received from teachers into the cash account of the Fund.

Receipts from salary deductions were verified by reference to the payroll records of the Board of Education and comprehensive tests were made of the postings of credits for service and contributions to the accounts of individual teachers.

We verified receipts from tax collections, and the uncollected balances of tax levies by inspection of the general books of the Chicago Board of Education.

We found all credits to teachers for service outside the City of Chicago to be duly approved by the Board of Trustees. We examined affidavits and other supporting data concerning credits approved in 1944 and traced all cash credits of individual teachers into the cash account of the Fund.

We inspected and counted the investments of the Fund, and accounted for all interest accruing thereon.

We verified the propriety of the amount of individual pensions granted during the year by reference to the service record of each pensioner. We also tested the computations of pensioners' indebtedness on account of insufficient contributions and verified all credits thereagainst.

We checked termination dates of pension payments by inspection of letters testamentary, affidavits of death, and other data in file. We compared the pension roll at the end of the preceding year with payments throughout the year 1944 and checked pensioners' receipts for the month of December, 1944 in detail with the roll. We compared endorsements on pension checks with

signatures on original pension applications to the extent we considered necessary to assure ourselves of their genuineness.

All refunds of teachers' contributions were checked as to amount and propriety by reference to individual service and contribution records.

Except that actuarial computations of the required reserves for future payment of pensions and refunds have not been made, and subject to the adequacy of reserves for loss and cost in collection of taxes for the years 1932 to 1941, in our opinion, the accompanying balance sheet, statement of income and expenditures and statement of cash receipts and disbursements present, in conformity with generally accepted accounting principles, the financial position of the Fund at December 31, 1944 and the results of its operations for the year then ended.

Respectfully submitted,

ARNDT, MANN & SWEENEY,
WM. J. SWEENEY,
Certified Public Accountant.

BALANCE SHEET EXPLANATORY NOTES

December 31, 1944

Note 1:

Unclaimed pension checks held in the office of the Fund, which have been deducted from the cash balance, amount to \$12,772.11.

Note 2:

Under Section 165 of the Illinois School Act, the Chicago Board of Education is required to pay to the Fund deficiencies in tax collections determined by reference to the amount of deductions from teachers' salaries. Prior to amendment of the statute in 1931, the minimum revenue from taxes was prescribed at twice the amount of deductions from teachers' salaries. Under this provision the Chicago Board of Education is indebted to the Fund in the following amounts. These amounts are admitted by the Board and are reflected in their books as a general liability.

Year 1928	\$267,906.00
Year 1929	381,214.21
Year 1930	381,464.00

Under the 1931 amendment, the minimum revenue from taxes is prescribed at an amount equal to deductions from teachers' salaries. Under this provision the Fund claims \$68,437.92 as due from the Chicago Board of Education with respect to the year 1940. This liability has not been denied by the Board but is not reflected on its books.

Section 165 also provides that the Chicago Board of Education shall reimburse the Fund for the excess of current disbursements over current income in any year. Under this provision, the Fund claims \$122,263.94 as due from the Board with respect to the year 1942. This liability has not been denied by the Board but is not reflected on its books.

For the year 1944 cash disbursements exceeded receipts by \$34,019.39 as shown in Exhibit "C". It appears that this condition resulted from delayed tax distributions by the County Treasurer and, for that reason, no claim has been asserted against the Board for this amount.

Note 3:

No provision is made in the balance sheet for the present discounted value of pensions and refunds payable in the future. The last actuarial valuation was prepared as at June 30, 1940, which indicated liabilities of \$66,038,253.84 with respect to pensions, and \$1,660,504.00 with respect to salary deduction refunds. The net assets of the Fund on December 31 available for future pension and refund requirements was \$13,956,293.92.

Note 4:

On March 21, 1945 the Supreme Court of Illinois affirmed the judgment of the Circuit Court of Cook County, holding invalid certain bonds of the Chicago Board of Education. The unamortized cost and accrued interest at January 1, 1944 have been written off and accruals for 1944 interest have been eliminated from income.

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE

Under the Law as amended and in effect July 7, 1931, payments into the pension fund are required for all outside service approved by the Pension Board if the service is to be allowed for pension purposes. Each teacher assigned to the Chicago service must pay into the fund an amount equal to the amount that would have been deducted from his salary if his outside service (not to exceed ten years) had been in Chicago.

Payment must be completed within five years of teaching service after date of first assignment in Chicago.

The law also provides that military service within the pension period shall be counted as Chicago service by paying into the Fund the amount that would have been deducted if the teacher had been in active service.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

TEACHERS' PAYMENTS FOR SABBATICAL LEAVE AND SICK LEAVE.

A teacher who has been granted Sabbatical Leave by the Chicago Board of Education may count the time so spent as payment of the service necessary to qualify him or her to receive a pension by paying into the Fund the amount that would have been deducted if the teacher had been in active service plus simple interest at four per cent (4%) per annum if payment is deferred.

Annuities

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

Sec. II:

An annuitant receiving a pension through payment to his Attorney in Fact acting under a Power of Attorney, shall notify the Board of Trustees in writing each year that such Power of Attorney is in full force and effect, and in default of such notice, pension payments to the Attorney in Fact shall cease until such notice is received. On receipt of such notice thereafter, pension payments to the Attorney in Fact will be resumed from the date of the last payment for one year from the receipt of such notice, unless the annuitant within said year notifies the Board of Trustees in writing to the contrary, or unless the Board of Trustees shall receive information of the death of the Attorney in Fact or the annuitant.

Sec. III:

Whenever any annuitant has been so out of communication with the Board of Trustees that the fact of his being alive or dead cannot be ascertained, he will be presumed to be dead, and the Board of Trustees by appropriate action shall so declare and shall order the annuitant's name stricken from the list of those receiving pensions. The Committee on Annuities reports that since the adoption of the last report on Disability Annuities, the Committee has received from the Recording Secretary and submits herewith certificates from the physicians appointed by the Pension Board to examine the persons hereinafter listed; that it has considered these certificates and the applications for Disability Annuity submitted by these persons together with other evidence and finds that each such person has completed twelve or more years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; and that each has been declared by three competent physicians who have made a physical examination of said person to be suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching. The committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted a Disability Annuity in the amount set forth below opposite his or her name; said Disability Annuity to date from the day on which the application was received, and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Disability Annuities granted herein; and to file this report and the applications and physicians' certificates herewith submitted in the Pension Office.

REPORT OF COMMITTEE ON PENSION LAW AND RULES

Miss Lynch, Chairman of the Committee on Pension Law and Rules, presented the following report of the Committee:

(3235)

The Committee on Pension Law and Rules reports that Mr. Henry W. Olschner, attorney for the Board of Trustees, has rendered an opinion on the question as to whether graduates of the Chicago Teachers' College, while awaiting assignments, may have Military service time counted for pension purposes; and recommends that this opinion be accepted and printed in the proceedings, and that credit be allowed for such service.

OPINION OF THE ATTORNEY.

January 16, 1946.

Board of Trustees of the
Public School Teachers' Pension
and Retirement Fund of the
City of Chicago:

This opinion is submitted on the question as to whether graduates of the Chicago Teachers' College on substitute teaching service in Chicago schools while awaiting assignments as regular teachers, may have the time spent by them in Military Service counted for pension purposes on making proper payment to the Pension Fund for such time.

As to Military Service, the Teachers' Pension Law provides:

Sec. 34-99. In computing any term of service required by teachers under the pension provisions of Sections 34-86 to 34-113, inclusive, time spent in the military service of the United States during the pension period shall stand in lieu of a like number of years of teaching service in the public schools of the city, if the person desiring such credit for his military service pays into the treasury such amount of money as would have been due from him had he actually been in such teaching service during such time.

As to Military Service, the By-laws of this Board provide:

By-Law 3, Sec. 1. In computing the time necessary for an annuity, only time served in public schools of the United States shall be considered, provided that time spent in the military service of the United States during the pension period shall be counted as service in Chicago if payment therefor is made as provided in Section 155 of the School Act.

(Sec. 34-99 above cited now takes the place of said Section 155 so far as it concerns Military Leave.)

As to Substitute Teaching Service, the By-laws of this Board provide:

By-Law 3, Sec. III. In estimating the required time necessary for an annuity, substitute service or service in Chicago under a temporary teachers'

of one month's credit for each 20 days

certificate shall be credited at the rate of one month's credit for each 20 days of such service.

It is therefore evident—

1. That, according to law, time spent in military service during the pension period may be counted for pension purposes.

2. That, according to your By-laws, the time spent in military service during the pension period is expressly considered and recognized.

3. That, according to your By-laws, the pension period includes the time spent in substitute service, because such service may be counted for pension purposes.

It therefore follows that the time spent in military service during this pension period of substitute service, may be counted for pension purposes as a matter of law, and further it should be so counted as a matter of justice to those concerned.

Respectfully submitted,

(Signed) HENRY W. OLSCHNER.

On motion of Miss Lynch, seconded by Miss Scully, these reports were received, approved and ordered printed.

FOREWORD

The Board of Trustees of the Public School Teachers' Pension and Retirement Fund submits herewith its Fortieth Annual Report in accordance with the established policy of the Board and in recognition of its responsibility to the participants of the Fund.

BOARD OF TRUSTEES:

At the Primary Election on October 5th Mr. Henry G. Geilen received a majority of all votes cast and was re-elected for a three-year term. The three remaining candidates, Mr. Robert D. Gregg, Miss Helen D. Best, and Miss Margaret C. Lynch, each received less than a majority of all votes cast; therefore a Final Election was held, according to law, on November 9, 1945, when the two receiving the highest number of votes less than a majority in the Primary Election, Miss Best and Miss Lynch, were entitled to have their names printed on the ballot. Miss Lynch received a plurality of all votes cast and was elected for the term of three years. Miss Lynch is the Principal of the Monroe School.

The members appointed from the Board of Education are: Mr. Joseph Cremin, Mr. Walter Truec, and Mrs. L. Robert Mellin.

INVESTMENTS:

The invested fund decreased \$550,000 during the year, making the total on December 31, 1945, \$8,980,650. Board of Education Refunding Bonds, in the amount of \$508,000 par value, held by the Fund, were written off after being declared invalid on March 21, 1945, by the Supreme Court of the State of Illinois. A report on the invested fund is printed elsewhere in this pamphlet.

ANNUITANTS:

398 new Annuityants were placed on the pension roll during 1945 including 22 disabilities. Deaths made the net increase 244.

The net payment to Annuityants for 1945 was \$3,662,079.77, an increase over 1944 of \$231,038.06.

TAX MONEY:

The tax money paid into the pension fund increased \$240,241.82 over the amount paid in 1944, and included back taxes for every year from 1927 to 1944.

TAXATION OF PUBLIC EMPLOYEE PENSIONS:

In response to the demands from various organizations of public employees and pensioners, several bills have been introduced in the present Congress, aiming to bring about the exemption from federal income taxes of pension payments received by retired public employees.

One of these measures, namely H.R. 456 by Representative Eugene J. Keogh of New York, provides for the exclusion "from gross income the first \$1,440.00, in the aggregate for each year, of all retirement pension and annuity payments, including but not limited to, payments under the old age and survivors insurance law—Social Security Act—received during the taxable year by any retired employee".

* "The teaching profession, all of whom are covered by retirement or pension plans except teachers in Idaho, is unable to understand why Congress should favor certain citizens and discriminate against others. If no groups of retired workers were exempted, the point might be made that 'under the income tax law each citizen should pay in accordance with his ability no matter what the source of his income'. That standard, however, no longer holds. The Social Security Act and the Railroad Retirement Act have broken down the ideal. Other groups are attempting to do likewise, notably federal civil service employees who have secured the House approval of the Rees bill (H.R. 2948) and Panama Canal Zone employees under H.R. 1288 and H.R. 4321. The maximum benefit payable under the Social Security Act is \$1,020; under the Railroad Retirement Act it is \$1,440. The National Education Association trusts that Congress will move to incorporate the exemption of the first \$1,440 of retirement income from the gross income of all retired public employees."

HENRY G. GEILEN,
President, Board of Trustees.

February 15, 1946.

On motion of Miss Scully, seconded by Miss Sholund, these reports were adopted by unanimous vote.

* Taken from N. E. A. Report dated November, 1945.

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE

Under the Law as amended and in effect July 7, 1931, payments into the pension fund are required for all outside service approved by the Pension Board if the service is to be allowed for pension purposes. Each teacher assigned to the Chicago service must pay into the fund an amount equal to the amount that would have been deducted from his salary if his outside service (not to exceed ten years) had been in Chicago.

Payment must be completed within five years of teaching service after date of first assignment in Chicago.

The law also provides that military service within the pension period shall be counted as Chicago service by paying into the Fund the amount that would have been deducted if the teacher had been in active service.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

(3251)

Annuities

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributors retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

Disability Annuities

The Committee on Annuities reports that since the adoption of the last report on Disability Annuities, the Committee has received from the Recording Secretary and submits herewith certificates from the physicians appointed by the Pension Board to examine the persons hereinafter listed; that it has considered these certificates and the applications for Disability Annuity submitted by these persons together with other evidence and finds that each such person has completed twelve or more years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; and that each has been declared by three competent physicians who have made a physical examination of said person to be suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching. The committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted a Disability Annuity in the amount set forth below opposite his or her name; said Disability Annuity to date from the day on which the application was received, and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Disability Annuities granted herein; and to file this report and the applications and physicians' certificates herewith submitted in the Pension Office.

The Annuitants of January, 1946

The following table shows the number of annuitants classified by years of service and arranged in three groups according to the dates on which their names were placed on the pension roll:

Group I includes all those who retired before July 1, 1923.

Group II includes those who retired between July 1, 1923, and July 11, 1935.

Group III includes those who retired after July 11, 1935.

The Disability Annuitants constitute a fourth group.

Annuitants in Group One (all who retired before July 1, 1923) receive the rates authorized by the Law in effect previous to 1923.

Annuitants in Group Two receive the rates authorized by the law of 1923—that is, from \$800 to \$1,000 depending on length of service. In May, 1925, the compulsory retirement law became effective, and until July, 1935, the compulsory retirement age was 70.

Annuitants in Group Three receive the rates authorized by the legislature of 1935, which raised the maximum to \$1,200 for 35 years of service. At the same session the legislature fixed the compulsory retirement age at 65.

The Pension Law as amended by the Legislature of 1931, provides that any person retired by the Board of Education under the Compulsory Retirement Law with less than 25 years of service shall receive as pension such proportion of \$800 as his time of service bears to 25 years.

LIST B.

The Annuitants in the following list were placed on the pension roll since July 1, 1923.

A teacher retiring with more than 25 years of service adds to the deductions from salary an amount sufficient to bring the total to the sum required for 25 years of service; he then receives \$800, the annuity paid for 25 years of service, and the additional annuity allowed for additional service accumulates until the required payment for the additional annuity is completed.

* The first of these amounts is the sum due the fund for either the basic pension or the additional pension, and the second amount is the sum due the annuitant to the end of January. For the basic pension (that is, the pension paid for not more than 25 years of service) the pension is withheld until payment is completed; for the additional pension, (that is, the pension paid for service in excess of 25 years) the amount of pension in excess of \$80 per month is withheld until payment is completed. Then to complete the record a check for this amount due the fund is issued and deposited, and a receipt is issued to the annuitant. See note at beginning of this List.

† Includes pension for more than one month.

‡ This annuitant died in January and the first of these amounts is "unearned pension" deposited back into the fund; the second amount is the sum due the estate for the fractional part of the month up to the date of death.

§ This annuitant died before January, but the pension office was not notified until after the January checks had been written. This amount was therefore deposited back into the fund as "unearned pension".

(3255)

Letter from Auditors of City Treasurer's Accounts

McCOY, HOLLAND & GOODSSELL

Chicago, February 27, 1946.

The Board of Trustees of the Public School
Teachers' Pension and Retirement Fund, Chicago,
Chicago, Illinois:

Ladies and Gentlemen:

Examination of the records of the office of the Treasurer of the City of Chicago, as at December 31, 1945, discloses that the Treasurer had in his custody and was accountable for cash and securities of

THE BOARD OF TRUSTEES OF THE PUBLIC SCHOOL TEACHERS' PENSION AND RETIREMENT FUND

in amounts as follows:

Cash	\$ 586,170.48
Securities—Principal	8,980,650.00

Statement of the First National Bank of Chicago, opened by us, certifies that the above-stated balance of cash was on deposit, in a separate account, to the credit of the Fund and we reconciled it satisfactorily with the cash records of the Board of Trustees.

Securities, in the principal amount set out above were inspected and counted in the office of the Treasurer and subsequently were found to be in agreement with the detail and aggregate shown by the Board's security records. Coupons next maturing and all subsequent were attached to the said securities.

Our examination of the records of the Board of Trustees of the Public School Teachers' Pension and Retirement Fund was limited to the reconciliation of the amounts of cash and securities held by the Treasurer of the City of Chicago, as ex-officio custodian of the Fund, with the records of the Board as at December 31, 1945.

Yours very truly,
(Signed) McCOY, HOLLAND & GOODSSELL.

Pension and Retirement Fund,

Chicago, Ill.

Gentlemen:

The Act creating this Commission provides, in part, as follows:

"The Commission shall investigate and study the pension and annuity and benefit laws of Illinois applicable to employees and officers of the State of Illinois, any public agency or political subdivision thereof and municipal corporations therein." And investigate and study "the proposals for the amendment and extension of such laws which have been submitted to the legislature."

"It shall submit a report to the 65th General Assembly of the results of its research together with such recommendations for remedial, corrective or additional legislation to improve administrative methods and the financing of pension and annuity funds and the elimination of inequitable standards of eligibility for participants as it may deem desirable."

Pursuant to this authority, the Commission is hereby extending to your organization an invitation to submit before the Commission at a hearing scheduled for April 17, 1946, at 3:15 P. M., through your appropriate officers, such proposals for remedial, corrective or additional legislation relative to the operation of your Fund, which, in the opinion of your Board, is essential to the maintenance of a sound retirement policy.

These proposals should be embodied in a written memorandum to be submitted to the Commission at the time of the hearing, in duplicate, and should contain among other matters that you may wish to bring to the attention of the Commission, the information called for in the enclosed form. The representatives of the Fund may supplement by verbal presentation at the said hearing the data contained in the said memorandum.

The Commission may find it necessary for a complete study of your problem to have additional data after an examination has been made of your proposals. This data will be requested if required. It should be noted that this Commission in its research and report is not, by reason of the specific proposals submitted by the representatives of the Fund in the said memorandum, to be deemed limited to the precise matters contained in such proposals.

It is suggested that this communication be acknowledged by your Board

at once, by a letter addressed to the Secretary of the Commission, in order that the schedule herein may be duly confirmed.

Very truly yours,

(Signed) HOMER B. HARRIS,
Secretary.

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributions retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 157 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

1. PLAN OF OPERATION

The Chicago Teachers' Pension and Retirement Fund operates on a Stipulated Annuity Plan. A basic flat annuity is specified for a definite term of years of service. Additional amounts are provided for each year over the required basic number until a stated maximum amount of annuity is reached. Thus a pension on a graduated scale is provided according to years of service without taking into consideration salary or the age of the employee concerned. Three other Chicago Funds operate on a Stipulated Annuity Plan:—House of Correction Employees', Public Library Employees', and the Fire Insurance Patrolmen's Pension Funds.

The control of the Fund is vested in a Board of Trustees of nine members,—six elected by the contributors; and three, members of the Board of Education. One of these is the Chairman of the Finance Committee of the Board of Education who is, ex-officio, a member of the Pension Board. In addition, the Board of Education elects each November, one of its members as a member of the Pension Board for a term of two years. The teacher members hold office for a term of three years, two being elected by and from the contributors each year.

The Board has charge of and administration of the Fund, with power to invest in the same manner that Township Trustees may invest school funds. The Fund is invested in bonds of the United States, of the State of Illinois, and of counties, townships, cities, and school districts of Illinois, and also bonds of districts within the State having authority to levy taxes (not including special assessments).

(a) Membership in the Fund is compulsory on all teachers who are in the service of the Board of Education, with the exception of certain persons, now ten in number, who failed to exercise an option to become members before September 1, 1940. Teachers are required, within a specified time, to make proof of service rendered in public schools outside of Chicago and to make payment to cover such periods up to ten years if they desire that service counted for pension purposes.

Membership terminates either by withdrawal or dismissal. However, no teacher who has been in service three years or more may be dismissed unless given proper notice, and a hearing as prescribed by the Tenure Provisions of the School Act.

(b) Any teacher retiring with 25 years of service, of which at least the last 15 years have been in Chicago, will, upon application, receive an annuity of \$800.00; and for each additional year of service up to 35 years an extra \$40.00, subject to a maximum of \$1200.00 per annum.

SCHEDULE OF ANNUITIES

Yrs. of Service	Amount of Annuity	Yrs. of Service	Amount of Annuity
25	\$ 800.00	31	\$1,040.00
26	840.00	32	1,080.00
27	880.00	33	1,120.00
28	920.00	34	1,160.00
29	960.00	35 or more	1,200.00
30	1,000.00		

Any teacher who has taught 12 years or more, but less than 25 years, at least the last three-fifths of the service having been in Chicago, may, if permanently disabled for teaching, retire on a Disability Annuity and receive as an annual pension, \$300.00 for 12 years of service, and an additional \$38.00 for each additional year of service up to 25 years. An applicant for disability annuity is examined by three physicians appointed by the Pension Board, of which the applicant's own physician may be one.

(c) The revenue of the Fund is derived from three major sources; namely, salary deductions, public money and interest earnings on investments.

Deductions from salary for pension are made on a graduated scale based upon years of service, not upon position or salary, as set forth below:

Period of Service	Annual Rate		
	Before July 7, 1931	July 7, 1931 to July 11, 1935	After July 11, 1935
1st 4 yrs.	\$10.00	\$ 45.00	\$ 50.00
2nd 4 yrs.	15.00	60.00	70.00
3rd 4 yrs.	25.00	75.00	90.00
After 12 yrs.	50.00	100.00	120.00

In computing the payment into the Fund required from a teacher at retirement, service before July 7, 1931 is computed at the rates of deduction in force immediately preceding that date; and for service rendered after July 7, 1931, at the rates of deduction in force when the service was rendered.

The law provides a tax "of .06% of the full fair cash value, as equalized or assessed by the Department of Revenue on all taxable property". In case the money received from taxes in any current fiscal year should not equal the contributions of teachers, or in case current income should be less than current disbursements of the Fund for such year, the Board of Education is required the following year to appropriate from the Educational Fund and promptly pay into the Pension Fund an amount sufficient to make up the deficiency. The Board of Education has not complied with this provision of the law. The Board of Education's indebtedness to the Fund is set forth in Exhibit A in the Audit Report for 1944.

The cash and securities are held in the office of the City Treasurer, who is ex-officio custodian of the Fund. A schedule of investments will be found in the Audit. A serious loss has been sustained on Board of Education Refunding Bonds of 1935 declared invalid by the Supreme Court of Illinois on March 21, 1945. The Teachers' Pension Fund held \$533,000.00 par value of those bonds.

INTEREST ON INVESTMENTS—1941-1945

	Average Investment including Unamortized Premium and Discount	Interest Earned on Accrual Basis	Rate of Yield
1941	\$9,609,070	\$330,938	3.44%

1943	9,168,631*	291,817	3.18%
1944	9,267,147	286,333	3.09%
1945	9,228,399	279,232	3.03%

* The sharp drop in 1943 in the Fund's investments is due to the invalidating of the Refunding Bonds of 1935—2nd Series, of the Chicago Board of Education. The last interest paid on this issue was that due February 1, 1943. The fund holds \$508,000 par value of these bonds, on which there was premium unamortized up to Feb. 1, 1943, amounting to \$49,070.

Because the annuities paid from this Fund are based on years of service and not on salary, the pension law makes no reference to interest rates or computations, except in connection with payments due for certain periods during which the customary contributions were not made.

(f) The Annual Administrative cost for 1945 was \$43,780.18. The total cash income from all sources was \$3,784,838.94. The administrative expense was, therefore, 1.156% of income.

2. THREE PROPOSED CHANGES

In 1945 the Pension Board, through its attorney, drafted a bill embodying five amendments to the Pension law. It was introduced in the Senate by Mr. Libonati on May 1, 1945 as S.B. 430. The bill passed the Senate on June 12, 1945 and was introduced in the House on June 13th. A hearing in the Committee on Insurance of the House resulted in the Bill being reported out with the recommendation that it do not pass. On June 20th, the House concurred in the Committee recommendation and the bill was tabled. The Pension Board is now presenting for your consideration three changes that seem desirable in the Act governing the operation of the Fund.

The first concerns the payment for teaching experience in public schools outside of Chicago for those now in the Chicago system, and a reduction from ten years to five in the amount of such service that may be credited for pension purposes for new entrants. Credit for outside teaching experience would be allowed provided that the outside service may not exceed one-fifth, instead of two-fifths as now allowed, of the total time for which annuity is granted, and that not more than five years may be counted in any case. Payment for outside service, which is now required within five years from date of assignment, would be permitted at any time the teacher might choose, with a charge of four per cent interest from one year after date of assignment if she finds it necessary to defer payment.

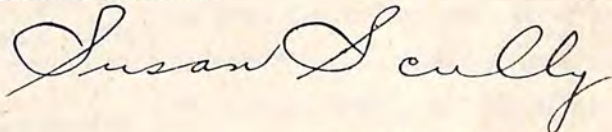

The second would permit the filing of an affidavit in the Pension office naming the person to whom the refund of pension contributions allowed to estates of deceased teachers shall be paid. This will expedite payment and save probate court costs for heirs. Teachers desire this easier method of dealing with the refund provision in case of death while in active service. No cost is involved.

The third extends the refund to estate privilege to make it apply to teachers after retirement, as it now applies to them while in active service, and it could be done at very small additional cost. The past six years, as a test period, show an annual cost of \$5,300.00 with an average of seven annuitants in any one year who had not at the time of death received in pension 80% of their contribution to the Fund. The unused balance, under this provision, would be refunded to their heirs or to a named beneficiary, if the beneficiary provision above mentioned makes that method possible.

On motion of Miss Lynch, seconded by Miss Scully, this report was approved and ordered printed.

ADJOURNMENT

On motion of Miss Scully, seconded by Miss Sholund, the meeting adjourned to meet at the call of the Secretary.

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE

Under the Law as amended and in effect July 7, 1931, payments into the pension fund are required for all outside service approved by the Pension Board if the service is to be allowed for pension purposes. Each teacher assigned to the Chicago service must pay into the fund an amount equal to the amount that would have been deducted from his salary if his outside service (not to exceed ten years) had been in Chicago.

Payment must be completed within five years of teaching service after date of first assignment in Chicago.

The law also provides that military service within the pension period shall be counted as Chicago service by paying into the Fund the amount that would have been deducted if the teacher had been in active service.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

TEACHERS' PAYMENTS FOR SABBATICAL LEAVE AND SICK LEAVE.

A teacher who has been granted Sabbatical Leave by the Chicago Board of Education may count the time so spent as payment of the service necessary to qualify him or her to receive a pension by paying into the Fund the amount that would have been deducted if the teacher had been in active service plus simple interest at four per cent (4%) per annum if payment is deferred.

Audit for 1945

The Committee on Finance and Judiciary reports that in accordance with authority granted by the Board of Trustees an audit of the Pension Fund has been completed by Arndt, Mann & Sweeney, Certified Public Accountants, and the report is submitted herewith.

The Committee recommends that this report be accepted and printed in the proceedings.

LETTER TRANSMITTING REPORT
ARNDT, MANN & SWEENEY
CERTIFIED PUBLIC ACCOUNTANTS
134 North La Salle Street
Chicago 2, Illinois

June 5, 1946

To the Board of Trustees Public School
Teachers' Pension and Retirement Fund,
City of Chicago, Chicago, Illinois.

We have completed an audit of the accounts and records of the Public School Teachers' Pension and Retirement Fund, City of Chicago, for the year ended December 31, 1945. In connection therewith, we reviewed the system of internal control and the accounting procedures of the Fund, and examined accounting records and supporting data by methods and to the extent we deemed appropriate in accordance with generally accepted auditing standards applicable in the circumstances.

Cash balances were satisfactorily reconciled with the amounts reported by the depositaries. We traced City Treasurer's receipts into the records of the Fund and determined that expense disbursements were supported by adequate vouchers and Board approval. We made adequate tests of additions and postings of the cash books and traced all pre-numbered duplicate receipts for cash received from teachers into the cash account of the Fund. All credits to teachers' accounts for cash payments were traced into the cash account.

Receipts from salary deductions and tax collections were verified by examination of the books of the Chicago Board of Education.

We inspected and counted the investments of the Fund, and accounted for all interest accruing thereon.

We determined the propriety of the amount of individual pensions granted during the year by reference to pensioners' service records. We also tested the computations of pensioners' indebtedness on account of insufficient contributions and verified all credits there against.

We reconciled the pension roll for the months of December, 1944 with that for the month of December, 1945, taking into account pensions approved, reported deaths and other changes during the year. Aggregate pension payments for the year were verified in a similar manner. Tests were made by inspection of pensioners' receipts, and by comparison of endorsements on pension checks with signatures on original pension applications to the extent considered necessary to assure ourselves of their genuineness.

All refunds of teachers' contributions were checked as to amount and propriety by reference to individual service and contribution records.

Except that actuarial computations of the required reserves for future payment of pensions and refunds have not been made, and subject to the adequacy of reserves for loss and cost in collection of taxes, in our opinion, the accompanying balance sheet, statement of income and expenditures and statement of cash receipts and disbursements present, in conformity with generally accepted accounting principles, the financial position of the Fund at December 31, 1945 and the results of its operations for the year then ended.

Respectfully submitted,

ARNDT, MANN & SWEENEY,

WM. J. SWEENEY,

Certified Public Accountant.

BALANCE SHEET EXPLANATORY NOTES

December 31, 1945

Note 1:

Unclaimed pension checks held in the office of the Fund, which have been deducted from the cash balance, amounted to \$2,792.30.

Also, unclaimed pension checks held in the office; on which notifications of payees' deaths were subsequently received, and which have been deducted from the cash balance, amount to \$1,612.60. Redeposit of this amount was made subsequent to December 31, 1945.

Note 2:

Amount receivable for outside service credits, does not include special amounts for unapproved military service.

Note 3:

Reserves for loss and costs in collection of tax levies are stated at the amounts incorporated in the books of the Chicago Board of Education.

Note 4:

Under Section 34-113 of the Illinois School Act, the Chicago Board of Education is required to pay to the Fund, deficiencies in tax collections determined by reference to the amount of deductions from teachers' salaries.

Prior to amendment of the statute in 1931, the minimum revenue from taxes was prescribed at twice the amount of deductions from teachers' salaries. Under this provision the Chicago Board of Education is indebted to the Fund in the amounts stated in the balance sheet, for the years 1928, 1929 and 1930. These amounts are admitted by the Board and are reflected in its books as a general liability.

Under the 1931 amendment, the minimum revenue from taxes is prescribed at an amount equal to deductions from teachers' salaries. Under this provision the Fund has claimed \$68,437.92 as due it with respect to the year 1940. This has not been entered by the Board as a liability. Pending clarification of the statute, the amount stated as due to the Fund is subject to revision.

Section 34-113 also provides that the Chicago Board of Education shall reimburse the Fund for the excess of current disbursements over current income in any year. Under this provision the Fund had previously claimed \$122,263.94 as due from the Board with respect to the year 1942. This amount has been reduced herein to \$115,265.09. The Board has computed its liability as \$24,948.69. The amount of the claim stated herein is subject to revision pending receipt of counsel's interpretation of the statute.

The claims of \$34,019.39 for the year 1944 and \$13,469.01 for the year 1945 have not been formally presented to the Board.

Note 5:

No provision is made in the balance sheet for the present discounted value of pensions and refunds payable in the future. The last actuarial valuation was prepared as at June 30, 1940 and indicated liabilities of \$66,038,253.84 with respect to pensions, and \$1,660,504.00 with respect to salary deduction refunds. The net assets of the Fund on December 31, 1945 available for such future pension and refund requirements were \$13,846,569.63.

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributions retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 34-102 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

Letter from Auditors of City Treasurer's Accounts

McCOY, HOLLAND & GOODSSELL

Chicago, February 5, 1947.

The Board of Trustees of the Public School Teachers' Pension and Retirement Fund, Chicago, Chicago, Illinois:

Ladies and Gentlemen:

Examination of the records of the office of the Treasurer of the City of Chicago, as at December 31, 1946, discloses that the Treasurer had in his custody and was accountable for cash and securities of

**THE BOARD OF TRUSTEES OF THE PUBLIC SCHOOL
TEACHERS' PENSION AND RETIREMENT FUND**

in amounts as follows:

Cash	\$ 592,137.03
Securities—Principal	8,698,750.00

Certificate of the First National Bank of Chicago, furnished us, verifies that the above-stated balance of cash was on deposit, in a separate account, to the credit of the Fund and we reconciled it satisfactorily with the cash records of the Board of Trustees.

Securities, in the principal amount set out above were inspected and counted in the office of the Treasurer and subsequently were found to be in agreement with the detail and aggregate shown by the Board's security records. Coupons next maturing and all subsequent were attached to the said securities.

Our examination of the records of the Board of Trustees of the Public School Teachers' Pension and Retirement Fund was limited to the reconciliation of the amounts of cash and securities held by the Treasurer of the City of Chicago, as ex-officio custodian of the Fund, with the records of the Board as at December 31, 1946.

Yours very truly,

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE

Under the Law as amended and in effect July 7, 1931, payments into the pension fund are required for all outside service approved by the Pension Board if the service is to be allowed for pension purposes. Each teacher assigned to the Chicago service must pay into the fund an amount equal to the amount that would have been deducted from his salary if his outside service (not to exceed ten years) had been in Chicago.

Payment must be completed within five years of teaching service after date of first assignment in Chicago.

The law also provides that military service within the pension period shall be counted as Chicago service by paying into the Fund the amount that would have been deducted if the teacher had been in active service.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

TEACHERS' PAYMENTS FOR SABBATICAL LEAVE AND SICK LEAVE.

A teacher who has been granted Sabbatical Leave by the Chicago Board of Education may count the time so spent as payment of the service necessary to qualify him or her to receive a pension by paying into the Fund the amount that would have been deducted if the teacher had been in active service plus simple interest at four per cent (4%) per annum if payment is deferred.

The following teachers have made payments for time spent on Sabbatical Leave on the dates and in the amounts shown after each name:

Annuities

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributions retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 34-102 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

Disability Annuities

The Committee on Annuities reports that since the adoption of the last report on Disability Annuities, the Committee has received from the Recording Secretary and submits herewith certificates from the physicians appointed by the Pension Board to examine the persons hereinafter listed; that it has considered these certificates and the applications for Disability Annuity submitted by these persons together with other evidence and finds that each such person has completed twelve or more years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; and that each has been declared by three competent physicians who have made a physical examination of said person to be suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching. The committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted a Disability Annuity in the amount set forth below opposite his or her name; said Disability Annuity to date from the day on which the application was received, and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Disability Annuities granted herein; and to file this report and the applications and physicians' certificates herewith submitted in the Pension Office.

The Annuitants of December, 1946

The following table shows the number of annuitants classified by years of service and arranged in three groups according to the dates on which their names were placed on the pension roll:

Group I includes all those who retired before July 1, 1923.

Group II includes those who retired between July 1, 1923, and July 11, 1935.

Group III includes those who retired after July 11, 1935.

The Disability Annuitants constitute a fourth group.

Annuitants in Group One (all who retired before July 1, 1923) receive the rates authorized by the Law in effect previous to 1923.

Annuitants in Group Two receive the rates authorized by the law of 1923—that is, from \$800 to \$1,000 depending on length of service. In May, 1925, the compulsory retirement law became effective, and until July, 1935, the compulsory retirement age was 70.

Annuitants in Group Three receive the rates authorized by the legislature of 1935, which raised the maximum to \$1,200 for 35 years of service. At the same session the legislature fixed the compulsory retirement age at 65.

The Pension Law as amended by the Legislature of 1931, provides that any person retired by the Board of Education under the Compulsory Retirement Law with less than 25 years of service shall receive as pension such proportion of \$800 as his time of service bears to 25 years.

FOREWORD

The Board of Trustees of the Public School Teachers' Pension and Retirement Fund submits herewith its Forty-first Annual Report in accordance with the established policy of the Board and in recognition of its responsibility to the participants of the Fund.

BOARD OF TRUSTEES:

At the Primary Election on October 4th Miss Helen Best received a majority of all votes cast and was elected for a three-year term. The two remaining candidates, Miss Anne Komarek and Miss Agnes E. Richards, each received less than a majority of all votes cast; therefore a Final Election was held, according to law, on November 8, 1946, when the two receiving the highest number of votes less than a majority in the Primary Election, Miss Komarek and Miss Richards, were entitled to have their names printed on the ballot. Miss Komarek received a plurality of all votes cast and was elected for the term of three years. Miss Komarek is a teacher in the Bryant School.

The members appointed from the Board of Education are: Mr. Walter Truc, Mr. Sydney Brown and Mr. John Doherty.

INVESTMENTS:

The invested fund decreased \$281,900 during the year, making the total on December 31, 1946, \$8,698,750. A report on the invested fund is printed elsewhere in this pamphlet.

ANNUITANTS:

342 new Annuitants were placed on the pension roll during 1946 including 27 disabilities. Deaths made the net increase 168.

The net payment to Annuitants for 1946 was \$3,889,698.83, an increase over 1945 of \$227,619.08.

TAX MONEY:

The tax money paid into the pension fund decreased \$16,271.99 over the amount paid in 1945.

HENRY G. GEILEN,
President, Board of Trustees.

On motion of Miss Sholund, seconded by Miss Komarek, these reports were adopted by unanimous vote.

* The first of these amounts is the sum due the fund for either the basic pension or the additional pension, and the second amount is the sum due the annuitant to the end of December. For the basic pension (that is, the pension paid for not more than 25 years of service) the pension is withheld until payment is completed; for the additional pension, (that is, the pension paid for service in excess of 25 years) the amount of pension in excess of \$80 per month is withheld until payment is completed. Then to complete the record a check for this amount due the fund is issued and deposited, and a receipt is issued to the annuitant. See note at beginning of this List.

† Includes pension for more than one month.

‡ This annuitant died in December and the first of these amounts is "unearned pension" deposited back into the fund; the second amount is the sum due the estate for the fractional part of the month up to the date of death.

REPORT OF COMMITTEE ON PENSION LAW AND RULES

Miss Best, Chairman of the Committee on Pension Law and Rules, presented the following report of the Committee:

(3368)

Amendments to Pension Law Recommended

The Committee on Pension Law and Rules reports that it has carefully considered the question of amending the pension law and recommends that the attorney for the Pension Board, Mr. Henry W. Olschner and Mr. A. A. Weinberg, actuary, be requested to draft a bill in accordance with the following provisions:

1. Increased revenue from public money:

Present invested reserve fund less than 9 million.

Recent survey places needed reserve at 30 million.

(a) Change in rate if it proves to be necessary under full value assessment.

(b) Direct contribution from Common School Fund.

2. Increased revenue from contributors:

Rate of salary deductions

1st 3 yrs.....	\$100
2nd 3 yrs.....	120
3rd 3 yrs.....	140
After 9 yrs.....	160

3. Increased benefits:

(a) Proposed schedule of higher pensions:

Maximum extended from 35 years to 40 years.

Yrs. of Service	Amount of Annuity	Yrs. of Service	Amount of Annuity
25.....	\$ 800.00	33.....	\$1,280.00
26.....	860.00	34.....	1,340.00
27.....	920.00	35.....	1,400.00
28.....	980.00	36.....	1,460.00
29.....	1,040.00	37.....	1,520.00
30.....	1,100.00	38.....	1,580.00
31.....	1,160.00	39.....	1,640.00
32.....	1,220.00	40 or more.....	1,700.00

(b) 100% refund in case of resignation or to estate in case of death. Five year limitation on application removed.

(c) Refund to Estate of Deceased Annuitants.

Annuitants who die before having received in pension the amount of their contribution will have the unused balance refunded to their estate or to a named beneficiary.

(d) Permit payment for outside teaching service at any time, but require interest at 4% if payment is deferred beyond one year after date of assignment.

No change in the 10 years that may be allowed for outside service.

4. Contributors permitted to file an affidavit naming a beneficiary for the refund due estate in case of death.
5. Provide for one election for trustees instead of primary and final. Changed conditions also make necessary a rewording of the law—The Board of Trustees conducts the election—not the Board of Education.
6. Strike from the law the clause which allows the trustees to reduce the pension benefits. Responsibility for any such reduction should rest with the legislature.
7. Include pension office force in pension plan.

On motion of Miss Best seconded by Miss Sholund, this report was accepted and the recommendations concurred in by the following roll-call vote:

Ayes—Mr. Geilen, Miss Sholund, Miss Komarek, Miss Lynch, Miss Best, Miss Scully—6.

Nays—None.

REPORT ON AN ACTURIAL SURVEY of the PUBLIC SCHOOL TEACHERS' PENSION AND RETIREMENT FUND of the City of Chicago As of June 30, 1946

A. A. Weinberg
Actuary

February 1, 1947.

To the Board of Trustees,
Public School Teachers' Pension
and Retirement Fund,
Chicago, Illinois.

In accordance with your request, I have completed an actuarial survey and analysis of the operations of the Public School Teachers' Pension and Retirement Fund, and am submitting herewith my report.

Briefly stated, the results of this survey show that the current income of the Fund is totally inadequate to meet its obligations. It is not only insufficient to provide for the liquidation of accrued liabilities, but also falls short of meeting the requirements for current expenditures. The Fund has been experiencing an excess of expenditures over income, and the indications are that this trend will become more marked in future years.

Total accrued liabilities as of June 30, 1946, amount to \$82,180,559.00. The present assets available to meet these liabilities are equal to \$11,392,156.00. The probabilities are that within a relatively short period of

years, if no additional revenues are provided, all assets of the Fund will be depleted and no further reserves will be available.

The steady and persistent increase in pension payments is a concomitant of normal pension fund operations. This upward trend in payments will probably continue for another twenty years, assuming basic conditions as to membership, age and service characteristics remain substantially the same as they are at the present time. At the end of such time the pension fund will have attained its ultimate normal load of some 5,000 pensioners receiving annual payments, at the existing rates, exceeding \$5,000,000.00. This compares with 3806 pensioners at the present time, receiving payments totalling \$3,833,001.00 per year.

The Fund is being properly administered under the law in force in accordance with effective policies and procedures. Its records are complete and its affairs are in good order, reflecting efficient management. Investments have been made with care, and are of good quality.

I trust you will find the report satisfactory, and that the information submitted will prove helpful in the formulation of a policy aiming at the financial rehabilitation of the Fund.

Respectfully submitted,

A. A. WEINBERG,
Actuary.

Actuarial Concepts.

The operations of a pension fund are governed by the same principles that are found in life insurance practice. Long term obligations are involved in which the principal factors underlying their determination are mortality and interest. An appraisal of the financial condition of a pension fund, therefore, must be made according to the same methods that apply in the computation of liabilities under life insurance risks. In addition, other factors peculiar to pension fund operations must be taken into account. Among the most important of these additional factors are turnover in employment, rate of retirement, age at retirement and rate of salary.

It is the function of the actuary to determine the effect of these factors on the cost of the benefit provisions and on the financial condition of the pension fund. With the use of certain techniques rates reflecting these factors are established as a forecast of the probable number of employees who will survive and ultimately qualify for retirement. The cost of the various benefits to these employees is then computed. This is done by a process of summation of the various liabilities, or a valuation as it is generally referred to.

A forecast of the future, therefore, is a fundamental factor in ascertaining the financial condition of a pension fund. In making this forecast, the actuary uses and relies upon certain well-defined analytical processes, with the help of data pertaining to the experience of the service for prior years. These processes include a complete census of all participants of the plan and the compilation of the withdrawal and mortality experience for past years. From these processes a large volume of statistical data is obtained which data are tabulated and classified. These tabulations provide the actuary with information as to the effect which certain factors or forces, directly related to the operation of a retirement system, have produced in former years.

On the assumption that such factors will continue to operate in the future on substantially the same basis as in the past, the rates established for future valuation are predicated upon the rates reflecting operations for prior years. Necessary adjustments are made in these rates for special conditions and special characteristics affecting the group of employees forming the basis of our calculations, and to provide for all foreseeable changes in the assumed rates reflecting the valuation factors.

Principal Valuation Factors.

A tabulation was made of the deaths among pensioners occurring during the ten-year period prior to the date of this survey. The rates of death developed in this tabulation were compared with the rates of two recognized mortality tables, namely, the Combined Annuity Mortality Table and the 1937 Standard Annuity Mortality Table. This comparison disclosed that the rates of mortality among pensioners of the fund were approximately equal to those contemplated by the latter table. Accordingly, this table was used to reflect rates of mortality in the valuation of all pension liabilities. Mortality among disability pensioners was measured according to another tabular standard reflecting the rates of death among groups of disability retirants.

The adoption of an interest rate to be used in the valuation of the assets and liabilities of a pension fund is more a matter of business judgment than one involving actuarial considerations. The fund earned in recent years an average of about 3% per annum. It is impossible to forecast the future trend of interest earnings. It may be assumed, however, that while earnings at exactly 3% may be difficult to maintain for any considerable period of time, the fund may continue to earn a rate approximating that figure. We have used for our valuation a rate of 3% which we feel is reasonable for valuation purposes.

An analysis was also made of the rates of separation from active service before retirement, with the view of determining the discount factors to be used in this valuation. Upon the basis of our analysis covering the experience of the fund during its last ten years of operations, a table was adopted

showing the approximate rates of separation from service, without pension, to be experienced in future years among active teachers.

The tables of mortality, disability and withdrawal that are used in this valuation are all reproduced in Appendix C.

Valuation Balance Sheet.

The financial condition of the fund at June 30, 1946 is presented in the appended statement designated as a Valuation Balance Sheet. This statement was prepared in accordance with the processes herein described, and sets forth the financial condition of the fund from the actuarial standpoint.

Comments on Financial Condition

The Valuation Balance Sheet shows that the accrued liabilities of the fund at June 30, 1946, amounted to \$82,180,559.00. To meet these liabilities the fund has available assets in the sum of \$11,392,156.00, indicating an actuarial reserve deficiency of \$70,788,403.00.

From a strict technical standpoint, a pension fund is considered to be actuarially and financially sound when it has actual assets on hand equal to all accrued liabilities. The fund falls short in meeting these requirements to the extent of the above amount.

The last actuarial valuation of the fund was made on June 30, 1940, at which time the deficiency in actuarial reserves amounted to \$54,325,297.00. The increase in the deficiency of \$16,463,106.00 during the last six years may be attributed in part to the use of more conservative mortality and service tables in our valuation, and a lower rate of interest. However, the major part of the increase in the deficiency is due to the lack of adequate revenues for the fund.

Cost Requirements.

The annual cost of maintaining the pension fund covering pensions earned during current service only is \$2,857,150.00. This is the amount which should be contributed to the fund each year to provide for the proportionate amount of the pensions earned by all active teachers during each completed year of service. This represents the current liability for pensions to teachers now in service, covering one year of service.

In addition to this current liability, the fund has an actuarial reserve deficiency as of June 30, 1946, amounting to \$70,788,403.00. To liquidate this deficiency over a 35-year period in the future, assuming 3% interest, would require an annual amortization payment of \$3,294,442.00.

The amount necessary, therefore, to meet the current obligations, as well as to provide for the liquidation of the actuarial reserve deficiency, is \$6,151,592.00. By comparison, the income of the fund is now approximately \$3,800,000.00 per year.

Emeritus Pay.

Teachers retired at age 65 under the compulsory retirement law of 1935, receive from the Board of Education emeritus pay in the sum of \$500.00 annually for life, which is in addition to the pension paid by the pension fund.

Since this payment is outside of the scope of the pension plan, it was excluded from the balance sheet of the fund and from any determination of liabilities of the pension fund. However, it is noted that the annual payments now being made to pensioners on the roll aggregate \$1,120,000.00. The annual cost requirements of this payment, on account of active teachers, as actuarially determined on the same basis as the cost requirements of pensions provided by the fund, is approximately \$700,000.00 per year.

Insufficiency of Income.

The lack of adequate revenues for the fund is further illustrated by comparing its cash expenditures for the last calendar year with the amount of cash received during such year. The results of operations for the calendar year 1946 shows that the cash payments by the fund amounted to \$4,084,524.00, as against cash receipts of only \$3,797,233.00, indicating an excess of payments over receipts of \$287,291.00. These results are subject to audit verification, but can be reliably accepted as indicative of the revenue deficiencies.

It is evident from a study of operations for prior years that revenues for the fund have been far too low to provide for its normal needs. Disregarding for the moment the actuarial requirements of the fund, the fact that the fund has been experiencing deficiencies in revenues for current expenditures is a clear indication that it has reached a precarious state and that its financial condition is such as to make it not only necessary, but imperative to seek financial aid if more serious consequences are to be avoided in future years.

Board of Education Subsidy.

Sec. 34-113 of the law governing the operations of the fund provides as follows:

"If the moneys collected and paid into the public school teachers' pension and retirement fund from taxes levied for the purpose of providing revenue for the fund in any current fiscal year do not equal the amount of the moneys deducted or contributed from teachers' salaries for the fund for such year, or if the current income of the fund in any fiscal year ever is less than the current disbursements of the fund for such year, the board of education shall the next year, in addition to demanding and directing the annual tax levy hereinbefore provided for set apart and appropriate from moneys derived or to be derived from the general tax levy for educational purposes an amount of money sufficient to supply such deficiency or deficiencies and promptly pay such sum of money into the fund for such purpose and restore any of the reserve of the fund that may have been so temporarily used."

According to this provision, the Board of Education is required to make contributions to the fund whenever certain deficiencies in income occur, as indicated. As of June 30, 1946, deficiencies in the amount of \$1,261,775.62 * have resulted during operations of the fund, but the contributions necessary to meet these deficiencies have not been made by the Board of Education. The indebtedness on the part of the said Board has increased since the date of our valuation. The Board of Trustees of the fund have made every effort to bring about the collection of these moneys, but have been unsuccessful.

It is our opinion that this or any other type of subsidy should not be included as a part of the pension law. Pension fund obligations represent definite and accruing obligations for which direct revenues should be provided.

* Increase in claim for 1940.....	\$	90,348.28
Claim for 1946.....		289,786.47
Total Claim, Dec. 31, 1946.....		1,641,910.37

Too much reliance should not be placed upon indirect, indefinite and unreliable sources of revenue.

Increasing Trend in Payments.

Based upon the tabulations reflecting the age and service characteristics of the present retirants and the active teachers, a projection has been made of the pension roll with the view of determining the probable increase in the number of pensioners and in the amount of annual payments. Only the results of this projection are presented below. Details dealing with the computations made to arrive at these results are not presented.

1951	4395	4,426,178.00
1952	4482	4,513,795.00
1953	4560	4,592,349.00
1954	4629	4,661,838.00
1955	4688	4,721,257.00
1956	4740	4,773,626.00
1957	4786	4,819,952.00

The Question of Actuarial Reserves.

As has been mentioned, pensions are governed by the same operational principles as life insurance. Actuarial considerations control both types of risk. In the case of a pension fund the risk begins when the employee enters service, and extends until his death after retirement. In life insurance, the risk extends from the time a contract is issued until its maturity by death or its termination by other cause, depending upon the conditions of the contract.

In life insurance, the practice is to anticipate the amount of claims that will mature under the various types of contracts by setting up reserves. The computation of this liability is done actuarially and takes into account the factors of mortality and interest. This plan of providing reserves in advance of the maturity of the claims is generally accepted without question. The insured expects the Company to make payment on the contract upon occurrence of the conditions calling for a claim settlement. Having the required reserves on hand assures the fulfillment of the contract.

Likewise, in pension fund operations the practice has developed whereby provision is made in advance for all pension claims that will mature. The maturity of a number of these claims is a certainty, just as in the case of life insurance. This advance provision is made under the so-called reserve basis of financing. Simply stated, such a plan provides for the accumulation of reserves during the active service of the employees so that at the age fixed for retirement there will be funds on hand sufficient to pay the annuities that have matured. Instead of a lump sum payment being made as generally occurs in the case of a life insurance contract, the beneficiary, who is the retired employee, receives monthly payments for the remainder of his lifetime.

In this process of accumulating reserves, it is assumed that each year of service rendered by the employees contributes to the pension liability for which an appropriate reserve must be established. By combining the reserves covering all retirants, the law of mortality averages is applied. If the mortality standard used to measure the risks among the retirants is accurate, then the combined reserves will be sufficient to pay annuities to all retirants during their expected future lifetime.

This is the orthodox method of financing pensions. It has been challenged in many jurisdictions in recent years. The criticisms directed at this method are: (1) That it involves too expensive a plan; (2) it is a technique that has no place in pension fund operations; and (3) since governmental units are perpetual entities and will always stand behind the established pension fund, such a plan is unnecessary.

The argument that the plan is too costly is without foundation. Actually, the reserve plan results in a saving of cost of between 20% to 50%, depending upon the length of service of retirants and the rate of interest earned on the reserves. The criticism made that it is a technique having no place in a pension fund is also a fallacy. The basic character of pension fund operations dictates the recognition of the principle of reserves. The third criticism, that a governmental agency, having a perpetual existence, need not conform to this plan of financing, has some merit. However, even here we must proceed with caution. Pensions involve definite and accruing liabilities which must be covered by a systematic plan of financing. The present methods of financing pensions are not satisfactory, as has been demonstrated by experience. The fixed mill tax rate used in the financing of most pension funds is unrealistic and undependable for adequate revenues under varying economic conditions. Until such time as the true concept of cost has been recognized and established as an integral part of the payroll budget of the employer, the requirement of adequate reserves must be observed. Under the plan of considering costs as a part of the current payroll of the employer, whereby contributions by the employer would be made concurrently with those of the employees, a modified or partial form of reserve plan may be adopted, since the current rates of contribution by the employer can be easily adjusted to meet additional requirements of the fund as may be found necessary, which is not possible under the methods of financing now in force.

Recommendations.

Certain changes in the plan of operation of the fund are required and should be made. The following recommendations for these changes are submitted:

1. Of first importance is the matter of providing larger revenues for the fund. The tax income is not adequate to meet its needs. A tax income of not less than \$4,500,000.00 is required to provide for the current obligations of the fund, and to amortize accrued liabilities.
2. If an increase in taxes is requested, it should be accompanied by an increase in the level of contributions on the part of the teachers to the equivalent of 5% of salary. In its recommendations to the General Assembly, the Illinois Public Employees Pension Laws Commission has conditioned the approval of any increase in the employer's obligations under any pension Act to a revision in the employees' contributions to a minimum of 5% of salary. Such a change would effect an increase of 50% in total contributions by the teachers to the fund.
3. The amount of refund to be paid an employee withdrawing from service, or in the case of an employee who dies while in service, should be 100% of his contributions, without interest. The cost of this change would be relatively small, amounting to approximately \$30,000.00 per year. The five-year limitation on the filing of an application for a refund should be removed, and this privilege should be available at any time.
4. A cash refund provision should be made in the case of pensioners who die before having received on their pensions the amount of their accumulated contributions at the date of retirement, this refund to consist of the unused amount of such contributions. Such refund would be paid to a designated beneficiary or the estate of the teacher. This type of provision is found in most other pension funds in Cook County.
5. Credit for outside teaching service should be continued as at present, but the requirement that payment for such service should be made within a certain designated period of time should be stricken from the law. Interest

should be charged for any period of deferment beyond one year after date of assignment.

6. Provision should be made in the law for the naming of a beneficiary to receive a refund upon death of a teacher, retired or otherwise.

7. Coverage should be provided in the pension fund for employees of the office of the Board of Trustees who are active in the administration of the fund, on an equitable basis.

8. The provisions relating to the election of trustees should be changed to vest the authority for holding elections in the board of trustees of the fund. The rules relating to elections should be simplified to the extent of providing for only one annual election, and such rules should be embodied in the rules and regulations of the board of trustees.

9. This fund is the only one in the State of Illinois that provides no minimum age of retirement. Some consideration should be given to the inclusion of a minimum age in the plan. To assure that the equities of the employees rendering long service, who withdraw prior to the attainment of a minimum age, are protected and preserved, a provision for vesting might be included, whereby rights in a retirement benefit would vest after 25 years of service, payment thereof to become operative upon attainment of the minimum age. To meet the conditions of employees who are under the prescribed minimum age, and have completed or are close to the completion of 25 years of service, the operative date of the minimum age of retirement might be deferred several years.

10. Proposals have been made for an increase in the schedule of pensions for the employees. Such proposals are merited, and an increase to a more reasonable level is justified. However, it is recommended that only a moderate increase be considered at this time. Instead of a step-up of \$40.00 per year for each year of service above 25 years, now in the law, an increase of \$60.00 per year of service might be considered, this increase to be continued until 40 years of service is reached, at which time the maximum amount of \$1,700.00 per year would be payable. The average increase in the benefits which such a change would bring about is about 20%.

Conclusion.

A factual report on the operations of the fund, and on its financial condition, has been submitted herewith. It is hoped that this report will be given serious consideration. If an adequate plan of financing is not established and rigidly followed, the system will encounter difficulties which will result in serious disappointment and embarrassment. The obligation of rehabilitating an unsound pension fund becomes unduly oppressive the longer it continues to operate on that basis. Proper corrective measures should therefore be undertaken without undue delay.

The considerate cooperation and courtesies extended to me by Miss Arline Mayhew and the able staff of the board of trustees, during the course of this study, are hereby acknowledged with appreciation.

Respectfully submitted,

A. A. WEINBERG,
Actuary.

APPENDIX A

Summary of Benefit and Contribution Provisions

PUBLIC SCHOOL TEACHERS' PENSION AND RETIREMENT FUND

APPENDIX A

SUMMARY OF BENEFIT AND CONTRIBUTION PROVISIONS

The following is a summary of the main benefit and contribution provisions of the Public School Teachers' Pension and Retirement Fund, as interpreted for the purposes of the survey.

BENEFITS

Service Retirement. Any teacher completing at least 25 years of service (of which not more than 10 years may be service outside of Chicago), regardless of age, may retire optionally, upon application. To be entitled to retirement a person must have taught in the public schools of the City of Chicago at least 15 years of the term of service upon which the pension is based, which 15-year period of service must have been rendered just prior to retirement.

The pension for 25 years of service is equal to \$800.00 per year. For each additional year of service rendered above 25 years, a teacher is entitled to an additional sum of \$40.00, but the total pension cannot exceed, in any case, \$1,200.00 per year. No additional pension is payable for any fractional part of a year nor for a longer period than ten years in excess of 25 years.

Disability Retirement. Any teacher having at least 12 years of service may receive a pension on account of permanent disability. The pension for disability is \$300.00 per year for those having 12 years of service, which is increased by the sum of \$38.00 for each year of service in excess of 12 years, up to and including 24 years.

Compulsory Retirement. By authority vested in the Board of Education, retirement is compulsory upon attainment of the age of 65 years, but any person may continue in service until the end of the school term during which he attains such age. Each person compulsorily retired is entitled to emeritus pay from the Board of Education, amounting to \$500.00 per year for life, being additional to the pension prescribed under the provisions governing the pension fund.

A teacher having less than 25 years of service, upon being compulsorily retired because of age, is entitled to receive as a pension from the pension fund such proportion of the pension of \$800.00 as the actual service of the teacher bears to 25 years.

Return of Contributions. Upon withdrawal from service before the completion of 25 years of service, any teacher is entitled, upon application, to a refund of 80% of all moneys contributed by him, standing to his credit at the date of separation. No interest is considered in this payment. Application for the refund must be made within five years of withdrawal from service, otherwise the privilege of refund is forfeited.

Death Benefit. Upon death of a teacher while in active service, or within five years after withdrawal from service without pension, the estate of the deceased teacher is entitled to a payment equal to 80% of the amount standing to the credit of the teacher at the time of death or previous withdrawal.

CONTRIBUTIONS

By Teachers. Contributions by the teachers are made according to a graduated scale of "flat" rates, based upon length of service, as follows:

Annual Rates

(Reflecting a ten-month year)

Length of Service	Prior to July 7 1931	Date when service was rendered	
		July 7, 1931 to July 11, 1935	July 12, 1935 to date (present rates)
1 to 4 years incl.....	\$10.00	\$ 45.00	\$ 50.00
5 to 8 " "	15.00	60.00	70.00
9 to 12 " "	25.00	75.00	90.00
13 yrs. and over.....	50.00	100.00	120.00

Teachers are required to contribute for all service for which credit is allowed, at the rates indicated above, covering the periods as stated.

By the City. A tax of six-tenths of a mill on each dollar of the full fair cash value of all taxable property in the City of Chicago.

If the above tax rate does not produce in any year revenue at least equal to the contributions made by the teachers, or in the event the expenditures by the pension fund in any year exceed its income, the Board of Education of the City of Chicago is obligated by law to make up the deficiency during the following year, by a special appropriation.

REPORT OF COMMITTEE ON ANNUITIES

Miss Komarek, chairman of the Committee on Annuities, presented the following reports of the Committee:

(3379)

Annuities

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributions retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 34-102 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

FULL ANNUITIES RECOMMENDED.

REPORT OF COMMITTEE ON PENSION LAW AND RULES

Miss Best, Chairman of the Committee on Pension Law and Rules, presented the following reports of the Committee:

(3383)

Case No. 30019, in the Supreme Court of Illinois, entitled People of the State of Illinois ex rel. etc. vs. H. H. Slingerland et al. This case is presented in the Supreme Court as an appeal from the order of the County Court of Cook County, Illinois, dismissing certain taxpayers' objections to the 1943 Board of Education tax rate.

Among the objections noted are the following:

1. The Board of Education illegally included in its estimated current liabilities as of January 1, 1943, the sum of \$1,030,584.21 due from it to the Pension Fund.

2. The Board of Education cannot legally include this item as a current liability in its estimates of current liabilities for any year or years subsequent to the year in which the liability accrued.

3. The provisions of the pension law making this deficiency sum a liability of the Board of Education are unconstitutional.

4. The placing of any liability on the Board of Education for deficiencies in the Pension Fund amounts to a tax against the Board of Education and violates the provisions of the Constitution of the State of Illinois.

Because vital interests of the Pension Fund are involved, the attorneys for the Board of Education suggested that the Fund attempt to intervene in this appeal as Amicus Curiae to protect its interests, and that while it is very doubtful whether the Court would allow this intervention as Amicus Curiae, the attempt itself might be worthwhile.

Accordingly, the motion and petition of Henry G. Geilen as President of the Board of Trustees for leave to intervene as Amicus Curiae was filed in this appeal in the Supreme Court. The motion was denied. The appeal is now pending in the Supreme Court.

IN THE SUPREME COURT OF ILLINOIS

MARCH TERM, A. D. 1947

PEOPLE OF THE STATE OF ILLINOIS, ex rel. LOUIS E. NELSON, County Treasurer and ex-officio County Collector of Cook County, Illinois, <div style="text-align: center;">vs.</div> H. H. SLINGERLAND, et al., <div style="text-align: center;">Objectors-Appellants.</div>	}	Appeal from County Court, Cook County. Honorable Edmund K. Jarecki, Judge Presiding.

MOTION AND PETITION OF HENRY G. GEILEN FOR LEAVE TO INTERVENE AS AMICUS CURIAE

To the Honorable Judges of the Supreme Court:

MOTION FOR LEAVE TO INTERVENE AS AMICUS CURIAE

Now comes Henry G. Geilen as President of the Board of Trustees of the Public School Teachers' Pension and Retirement Fund of Chicago, by

Henry W. Olschner, his attorney, and herewith presents this his motion for leave to intervene herein as amicus curiae and to file his brief in that behalf within such time as the Court may direct; and in support of this motion, he presents and files his petition herewith setting forth the reasons for his motion.

HENRY G. GEILEN,
as President as aforesaid,
By Henry W. OLSCHNER,
His Attorney

To the Honorable Judges of the Supreme Court:

PETITION FOR LEAVE TO INTERVENE AS AMICUS CURIAE

Henry G. Geilen respectfully represents and gives the court to be informed as follows:

That petitioner is the President of the Board of Trustees of the Public School Teachers' Pension and Retirement Fund of Chicago created by Legislative Act, and as such President it is his duty to protect the interests of his Pension and Retirement Fund and the interests of the public school teachers of Chicago who contribute to the Fund and rely on its protection.

That in this appeal the Objectors-Appellants are attacking the constitutionality of certain provisions of the Public School Teachers' Pension Law whereby certain duties are imposed on the Board of Education, and which are recognized by it, to protect the solvency of our Pension and Retirement Fund, and also seek to have this court declare void certain obligations already incurred by the Board of Education to our Fund and which the Board of Education recognizes as obligations.

That, although counsel for Appellee have fully presented and argued the legal points raised by Appellants' counsel, this appeal presents to this court for decision matters of vital importance to our Pension and Retirement Fund and the public school teachers of Chicago which counsel for Appellee have not covered and cannot adequately cover, so that your petitioner should be given leave to intervene herein as amicus curiae and to present to the court the position of our Pension and Retirement Fund on the issues raised in this litigation, to the end that this court may have before it all the interests involved and be enabled to give due consideration thereto.

Your petitioner as President of the Board of Trustees of the Public School Teachers' Pension and Retirement Fund of Chicago, therefore respectfully prays that he be given leave by this Honorable Court to intervene in this appeal as amicus curiae and to file his brief in that behalf within such time as the court may direct.

Respectfully submitted,

HENRY G. GEILEN,
as President as aforesaid.

HENRY W. OLSCHNER,
Attorney for Petitioner.

STATE OF ILLINOIS, }
COOK COUNTY, } ss.

Henry G. Geilen being first duly sworn, on oath states that he is the petitioner in the above entitled petition, that he subscribed the same and knows the contents thereof; and that said petition and the matters and things therein contained are true.

HENRY G. GEILEN.

Subscribed and sworn to before me
this 11th day of March, 1947.

The Committee on Pension Law and Rules reports that in accordance with the direction of the Pension Board at its meeting on March 21, 1947, the attorney for the Pension Board, Mr. Henry W. Olschner and Mr. A. A. Weinberg, have drafted a Pension Bill (presented herewith) for introduction into the Legislature now in session at Springfield, which Bill contains the provisions as set forth in the Proceedings of March 21, 1947, Doc. No. 3368 page 175.

The Committee recommends that these amendments be approved by the Pension Board; that steps be taken to have the Bill as drafted introduced in the Legislature; that the Superintendent of Schools be requested to grant leave of absence to the members of the Board of Trustees in order that they may attend sessions of the Legislature and its Committees to further the passage of the Bill; and that the Bill as drafted be printed in the proceedings.

The Committee further recommends that the Recording Secretary be instructed to notify the teachers when the Bill is introduced and to keep them informed as to its progress through the Legislature.

A BILL

For an Act to amend Sections 34-91, 34-92, 34-95, 34-96, 34-97, 34-98, 34-100, 34-102, 34-104, 34-106, 34-109, 34-110, of "The School Code", approved May 1, 1945, as amended.

The election of the members to the board of trustees by the members of the teaching force shall be by secret ballot at an election held in such manner as the board of trustees by by-laws provide.

SEC. 34-92. Every member of the teaching force of the city who is a

contributor to the fund may vote at the election for as many persons as there are trustees to be elected. The name of no candidate shall be printed upon the ballot unless upon a petition signed by not less than twenty-five members of the teaching force employed in such city who are contributors to the pension fund. Petitions shall be filed with the recording secretary not less than ten days before the election. Not more than one candidate may be nominated by any one petition. Those candidates for trustees who *receive a plurality* of all the votes cast for their respective terms shall thereby be elected. Each member of the teaching force of the city who is a contributor to the fund shall be entitled to vote at the election for the number of persons to be elected trustees. The location and number of polling places shall be designated by the board of trustees. The judges and clerks of the election shall be selected from the members of the teaching force of the city who are contributors to the fund in such manner as the board of trustees by by-laws provide. Elections to fill vacancies in the board of trustees shall be held at the next annual election. The board of education may fill vacancies occurring in the membership of the board of trustees elected from the board of education at any regular meeting of the board of education. All trustees, while members of the board of education or while contributors to the fund shall hold their offices until their successors shall have been elected and qualified.

SEC. 34-95. The fund shall consist of:

1. moneys paid into the fund by persons desiring the benefit thereof under the provisions of this Article;
2. donations, gifts, legacies, bequests and devises to the fund;
3. moneys paid into the fund in pursuance of any law now in force or hereafter to be enacted;
4. all taxes collected for the fund; and
5. moneys from any legal source or increment.

To provide revenue for the fund the board of education shall annually demand and direct, and the city council shall upon such demand and under such direction annually levy, a tax of .06 per cent of the full, fair cash value, as equalized or assessed by the Department of Revenue, of all taxable property on all taxable property in the city, *provided, however, that such tax shall be at a rate on a dollar of the assessed valuation of all taxable property in such city, which when extended, will produce a sum not to exceed three million, five hundred thousand dollars (\$3,500,000.00), for the year 1948, four million dollars (\$4,000,000.00), for the year 1949, and four million, five hundred thousand dollars (\$4,500,000.00) for the year 1950 and for each year thereafter.* The tax shall be known as public school teachers' pension and retirement fund tax. The tax, when collected, shall be paid into the public school teachers' pension and retirement fund.

SEC. 34-96. Any person who on July 11, 1935, was a contributor to the fund, any person thereafter employed to teach in the public schools of any such city and any other person who becomes a contributor pursuant to the provisions of Sections 34-86 to 34-113, inclusive, shall be entitled to the benefits of the fund upon complying with the provisions of those sections.

For the purposes of those sections such persons shall be divided into the following groups:

1. Those who have taught *three* years or less.
2. Those who have taught more than *three* years and not more than *six* years.
3. Those who have taught more than *six* years and not more than *nine* years.
4. Those who have taught more than *nine* years.

After *the taking effect of this Act*, there shall be set apart from the salary of each such person for each month of service *ten* dollars while he remains in group 1; *twelve* dollars while he remains in group 2; *fourteen* dollars while he remains in group 3; and *sixteen* dollars while he remains in group 4, which amount shall be deducted by the board of education in equal installments from their salaries at the times for the payment thereof and be paid into and constitute a part of the public school teachers' pension and retirement fund of the city.

After the taking effect of this amendatory Act, persons employed by the board of trustees in the administration of this fund shall become contributors and shall participate in the benefits provided by the fund. The provisions of this article governing contributions, the payment of pensions, benefits and refunds, shall apply to these persons to the same extent and under the same conditions that apply to teachers. Contributions shall be made by such employees in the same manner and at the same rates as other contributors, and the aggregate sum required to be contributed by, or deducted from the salary of, any such person for the pensions and benefits hereunder, shall be as provided in Section 34-103. The board of trustees is hereby authorized to make the necessary deductions from the salaries of such persons and to receive any other required contributions to be made by such persons, and certify to the city treasurer the amounts so deducted and contributed by them in the manner prescribed in Section 34-107. Such amounts shall be included as a part of the special fund maintained by the treasurer for the various purposes of this article. The board of trustees shall formulate such rules and regulations as may be necessary to give effect to the provisions of this paragraph.

SEC. 34-97. The board of trustees of the fund shall succeed to the administration of any like fund established under any law, and may use both the principal and income of all funds for the payment of the pensions or annuities provided for in Sections 34-86 to 34-113, inclusive.

SEC. 34-98. All teachers who have taught in public schools of the United States outside of the city, or rendered service therein, upon entering the service of the board of education for the first time shall submit to the board of trustees of the fund evidence of such service. Such evidence, when approved by the board of trustees, shall be the basis for placing such teachers in the proper group provided in Section 34-96.

SEC. 34-100.

Teachers now, heretofore, or hereafter in the service of the board of education who desire to have outside service credited for pension purposes

shall for each year of service outside the city approved by the board of trustees pay into the fund an amount equal to what would have been deducted from the salary of such person for a like period at the rates provided in Section 34-103, plus interest at the rate of four per cent (4%) per annum from one year after date of assignment to date of payment. Payment shall not, however, be required for more than ten years of service outside the city, and the payment may be made in installments in such manner as the board of trustees shall by by-laws provide.

SEC. 34-102. The board of trustees shall pass a resolution declaring the maturity of active service and right to the immediate benefits of the fund in favor of persons entitled to the benefits thereof, in the following cases:

1. When any contributor to the fund has taught in the public schools of the United States, or rendered service therein, or rendered service as an employee of the board of trustees, for a period of twenty-five years, within the meaning of Sections 34-86 to 34-113, inclusive, and has contributed to the pension fund the aggregate sum, to be ascertained and determined as provided in Section 34-103.

2. When any contributor to the fund has taught in the public schools of the United States, or rendered service therein, or rendered service as an employee of the board of trustees, for a period of from twenty-six to forty years, within the meaning of those sections and has contributed to the pension fund the aggregate sum, to be ascertained and determined as provided in Section 34-103.

3. When any contributor to the fund has taught twelve years or more but less than twenty-five (25) years in the public schools of the United States, within the meaning of those sections, or rendered service as an employee of the board of trustees, and has been declared by three competent physicians, who have made a physical examination of the teacher or employee at the request of a majority of the board of trustees, to be suffering from a disability which wholly and presumably permanently incapacitates him for teaching or for service as an employee of the board of trustees as the case may be; and when the teacher or employee has contributed to the pension fund the aggregate sum to be ascertained and determined as provided in Section 34-103.

4. When any contributor to the fund is retired from active service by the board of education because of having attained an age requiring such retirement pursuant to any law of this State, and has at the date of such compulsory retirement less than twenty-five years of active service within the meaning of those sections; and has contributed to the pension fund the aggregate sum to be ascertained and determined as provided in Section 34-103.

SEC. 34-104. The board of trustees shall not declare any person entitled to the immediate benefits of the fund until he has taught in the public schools of the city three-fifths of the term of service for which annuity is granted, which three-fifths of service must be in the last service rendered prior to his retirement on a pension. In computing the years of service for which annuity is granted not more than ten years of service outside the city may be entitled to any applicant. No person is entitled to the benefits of the fund until his employment as a teacher in the active service of the board of education has been terminated.

In the case of an employee of the board of trustees, eligibility for a pension or benefit hereunder shall become effective when such employee has fulfilled the conditions as to service and contributions as herein provided, and such employee shall become entitled to the payment thereof when his service as an employee has been terminated.

SEC. 34-106. Persons entitled to and becoming beneficiaries of the pension fund under Sections 34-102 to 34-105, inclusive, shall receive a pension as follows:

1. Each teacher retired or retiring after twenty-five years of service within the meaning of Sections 34-86 to 34-113, inclusive, shall receive the full service annuity for 25 years of service of \$800.

2. Each teacher retired or retiring after 26 or more years of service, within the meaning of those sections, shall receive the full service annuity paid for 25 years of service as herein provided, and in addition thereto for each full year of service in excess of 25 years an additional annuity or pension of *sixty* dollars (\$60), provided, that no annuity or pension shall exceed one thousand *seven* hundred dollars (\$1,700.00). In computing the time of service in excess of 25 years no additional annuity or pension shall be paid for any fractional part of a year nor for a longer period than 15 years in excess of 25 years.

3. Each teacher retired or retiring because of permanent disability after twelve years of service shall receive as an annuity or pension three hundred dollars (\$300.00), and for each year of service in excess of twelve years an additional annuity of thirty-eight dollars (\$38.00).

4. Each teacher with less than twenty-five years of service within the meaning of those sections so retired or retiring because of having attained an age requiring such retirement shall receive as a pension such proportion of the full pension paid for twenty-five years of active service as the time of such service of such contributor bears to twenty-five years.

Pensions and annuities shall be paid monthly during the school year.

If any person receiving a pension or annuity from the fund in re-employed as a teacher by the board of education, pension payments to him shall cease when the re-employment begins. If he again retires on pension the time of service and the money contributed by him after his re-employment shall be added to the time and money previously credited.

These provisions shall apply with equal force to employees of the board of trustees who fulfill the qualifications as to service and contributions.

If any pensioner dies before he has received pension payments equal to all the money he has contributed to the fund, on written application to the board of trustees, his executor or administrator shall be paid the difference between all the money contributed by the pensioner to the fund and the total payments made to the pensioner; but if there shall be filed with the board of trustees prior to the death of the pensioner, a written direction signed and acknowledged by the pensioner before an officer authorized to take acknowledgments, that such refund, if any, be paid to a named beneficiary, such refund shall be paid to such beneficiary on written application therefor to the board of trustees.

SEC. 34-109. If at any time prior to the completion of twenty-five years of active service within the meaning of Sections 34-86 to 34-113, inclusive, any member of the active teaching force who is willing to continue in the service of the board of education is removed from the service as provided in Section 34-88, or if at any time prior to the completion of twenty-five years of service, within the meaning of Sections 34-86 to 34-113, inclusive, any member of the active teaching force retires voluntarily from the service, he shall, upon application to the board of trustees be paid as a refund all the money he has contributed to the fund not including any former refund.

If any person who has received such a refund is re-employed by the board of education he shall repay to the pension fund the amount of money he received as refund together with interest thereon at four per cent per annum from the time the refund was received by him.

If any contributor to the fund dies while in the active service of the board of education as a teacher, *or dies after retirement but before receiving any pension payment* from the fund, the executor or administrator of the estate of the contributor shall, upon *written* application to the board of trustees, be paid all the money the contributor contributed to the fund, *not including any former refund ; but if there shall be filed with the board of trustees prior to the death of said contributor, a written direction signed and acknowledged by the contributor before an officer authorized to take acknowledgments, that the refund be paid to a named beneficiary, on written application made to the board of trustees such refund shall be paid to such beneficiary.*

These provisions shall apply with equal force in the case of an employee of the board of trustees, when such an employee becomes separated from the service of the board or is re-employed after such separation, or dies.

SEC. 34-110. All persons employed as teachers by the board of education and the employees of the board of trustees shall, by such employment, accept the provisions of Sections 34-86 to 34-113, inclusive, and thereupon become contributors to the fund in accordance with the terms thereof. The provisions of those sections shall become a part of any such contract of employment.

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE

Under the Law as amended and in effect July 7, 1931, payments into the pension fund are required for all outside service approved by the Pension Board if the service is to be allowed for pension purposes. Each teacher assigned to the Chicago service must pay into the fund an amount equal to the amount that would have been deducted from his salary if his outside service (not to exceed ten years) had been in Chicago.

Payment must be completed within five years of teaching service after date of first assignment in Chicago.

The law also provides that military service within the pension period shall be counted as Chicago service by paying into the Fund the amount that would have been deducted if the teacher had been in active service.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

TEACHERS' PAYMENTS FOR SABBATICAL LEAVE AND SICK LEAVE.

Teachers' Pension and Retirement Fund,
City of Chicago, Chicago, Illinois.

We have completed an audit of the accounts and records of the Public School Teachers' Pension and Retirement Fund, City of Chicago, for the year ended December 31, 1946. In connection therewith, we reviewed the system of internal control and the accounting procedures of the Fund, and examined accounting records and supporting data by methods and to the extent we deemed appropriate in accordance with generally accepted auditing standards applicable in the circumstances.

Cash balances were satisfactorily reconciled with the amounts reported by the depositaries. We traced City Treasurer's receipts into the records of the Fund and determined that expense disbursements were supported by adequate vouchers and Board approval. We made adequate tests of additions and postings of the cash books and traced all pre-numbered duplicate receipts for cash received from teachers into the cash account of the Fund. All credits to teachers' accounts for cash payments were traced into the cash account.

Receipts from salary deductions and tax collections were verified by examination of the books of the Chicago Board of Education.

We inspected and counted the investments of the fund, and accounted for all interest accruing thereon.

We determined the propriety of the amount of individual pensions granted during the year by reference to pensioners' service records. We also tested the computations of pensioners' indebtedness on account of insufficient contributions and verified all credits there against.

We reconciled the pension roll for the month of December, 1945 with that for the month of December, 1946, taking into account pension approved, reported deaths and other changes during the year. Aggregate pension payments for the year were verified in a similar manner. Tests were made by inspection of pensioners' receipts, and by comparison of endorsements on pension checks with signatures on original pension applications to the extent considered necessary to assure ourselves of their genuineness.

All refunds of teachers' contributions were checked as to amount and propriety by reference to individual service and contribution records.

In our opinion the accompany balance sheet, statement of income and expenditures and statement of cash receipts and disbursements present, in conformity with generally accepted accounting principles, the financial position of the Fund at December 31, 1946 and the results of its operations for the year then ended.

Respectfully submitted,
ARNDT, MANN & SWEENEY,
WM. J. SWEENEY,
Certified Public Accountant.

BALANCE SHEET EXPLANATORY NOTES

Exhibit "A"

— 3 —

December 31, 1946

Note 1:

Reserves for loss and costs in collection of tax levies of prior years, previously stated at the amounts incorporated in the books of the Chicago Board of Education, have been increased herein in the aggregate amount of \$653,200.24. Details of the estimated collectible balances of prior years' levies (as adjusted) are shown in Schedule "A-2".

Note 2:

In order to pay pensions as they become due, assets should be accumulated during the service periods of the employes. The amount of such requirements, and the estimated amount of teachers' contributions that will ultimately be refunded to them, each reduced by the expected future interest earning, are stated herein at the figures determined by A. A. Weinberg, Actuary, as at June 30, 1946.

Note 3:

Under the Illinois School Act, the Chicago Board of Education is required to pay to the Fund, deficiencies in tax collections determined by reference to the amount of deductions from teachers' salaries.

Prior to amendment of the statute in 1931, the minimum revenue from taxes was prescribed as twice the amount of deductions from teachers' salaries. Under this provision the Chicago Board of Education is indebted to the Fund in the amount of \$1,030,584.21 for the years 1928, 1929 and 1930. These amounts are reflected in the books of the Board of Education as a general liability. There is a taxpayer's suit pending before the Illinois Supreme Court, in which objection is made to the inclusion of this amount in the estimated current liabilities of the Board of Education as of January 1, 1943.

Under the 1931 amendment, the minimum revenue from taxes is prescribed as an amount equal to deductions from teachers' salaries. Under this provision the Fund claims the sum of \$158,786.20 for the year 1940. This amount has not been entered on the books of the Board of Education as a liability. We were informed that the amount of the claim is considered correct by the auditing department of the Board.

The statute also provides that the Chicago Board of Education shall reimburse the Fund for the excess of current disbursements over current income in any year. Under this provision, the Board of Education is indebted to the Fund in the amounts of \$115,265.09, \$33,733.03 and \$13,755.37 for the respective years 1942, 1944 and 1945. These amounts have not been entered on the books of the Board of Education as a liability, but we were informed that the amounts are considered correct by the auditing department of the Board.

The claim of \$289,786.47 for the year 1946, as shown in Exhibit "C" has not been formally presented to the Board of Education.

Because most of these claims are of long standing, they are excluded from operating funds in the balance sheet.

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributions retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 34-102 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

Since however, the added revenues provided by the Bill are of such vital importance to the very existence of the fund, it may become necessary to consider all other matters relating to the Bill as secondary, in order that H. B. 642 may not be denied enactment into law.

Dear Sir:

The Board of Trustees of the Chicago Public School Teachers' Pension and Retirement Fund respectfully urges your favorable consideration of House Bill 642 passed by the Legislature on June 26, 1947.

The principal purpose of this bill is to provide imperatively needed revenue, since, under the existing law, excess expenditure over current income has been depleting a reserve of less than 9 million dollars at an alarming rate. Other changes and benefits are described in the enclosed pamphlet.

The bill, in its entirety, has the support of the 12,000 contributors and every teacher organization in the city.

Yours very truly,

HENRY G. GEILEN,
President, Chicago Teachers'

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE

Under the Law as amended and in effect July 7, 1931, payments into the pension fund are required for all outside service approved by the Pension Board if the service is to be allowed for pension purposes. Each teacher assigned to the Chicago service must pay into the fund an amount equal to the amount that would have been deducted from his salary if his outside service (not to exceed ten years) had been in Chicago, plus interest at 4% per annum from one year after date of assignment to date of payment.

The law also provides that military service within the pension period shall be counted as Chicago service by paying into the Fund the amount that would have been deducted if the teacher had been in active service.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

Disability Annuities

The Committee on Annuities reports that since the adoption of the last report on Disability Annuities, the Committee has received from the Recording Secretary and submits herewith certificates from the physicians appointed by the Pension Board to examine the persons hereinafter listed; that it has considered these certificates and the applications for Disability Annuity submitted by these persons together with other evidence and finds that each such person has completed twelve or more years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; and that each has been declared by three competent physicians who have made a physical examination of said person to be suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching. The committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted a Disability Annuity in the amount set forth below opposite his or her name; said Disability Annuity to date from the day on which the application was received, and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

Amended Pension Law

The Committee on Pension Law and Rules reports that identical Pension Bills were drafted by Mr. Henry W. Olschner and Mr. A. A. Weinberg. (See proceedings of April 18, 1947 pages 224 to 229).

The House Bill (642) introduced on May 7th was sponsored by Noble Lee, Alan Best, Edward McCabe, John Gorman, Paul Randolph, Elroy Sandquist of Chicago, W. O. Edwards of Danville, and William Gibbs of Quincy.

The Senate Bill (411), introduced on May 7th, was sponsored by five Chicago Senators. They were Walker Butler, Arthur Bidwill, Arthur Larson, Edward Salties, and Norman Barry.

Because the House Bill was closer to passage during the last week of the Legislative session, the Senate sponsors transferred their efforts to the passage of House Bill 642. That bill passed the House on June 10th by a vote of 137 to 1. It was approved by the Senate on June 26th by a vote of 47 to 1. Governor Dwight H. Green signed the bill on July 23, 1947 and a certified copy of the Bill is on file with the Official Records of this meeting.

The Committee recommends that this report be adopted and that the law as amended be printed in the proceedings.

On motion of Miss Best, seconded by Miss Sholund, this report of the Committee on Pension Law and Rules was approved and ordered printed.

After the taking effect of this amendatory act, persons employed by the board of trustees in the administration of this fund shall become contributors and shall participate in the benefits provided by the fund. The provisions of this article governing contributions, the payment of pensions, benefits and refunds, shall apply to these persons to the same extent and under the same conditions that apply to teachers. Contributions shall be made by such employees in the same manner and at the same rates as other contributors,

and the aggregate sum required to be contributed by, or deducted from the salary of, any such person for the pensions and benefits hereunder, shall be as provided in Section 34-103. The board of trustees is hereby authorized to make the necessary deductions from the salaries of such persons and to receive any other required contributions to be made by such persons, and certify to the city treasurer the amounts so deducted and contributed by them in the manner prescribed in Section 34-107. Such evidence, when approved by the board of trustees, shall be the basis for placing such teachers in the proper group provided in Section 34-96.

Sec. 34-99. Computation of service—Inclusion of military service.

In computing any term of service required by teachers under the pension provisions of Section 34-86 to 34-113, inclusive, time spent in the military service of the United States during the pension period shall stand in lieu of a like number of years of teaching service in the public schools

of the city, if the person desiring such credit for his military service pays into the treasury such amount of money as would have been due from him had he actually been in such teaching service during such time.

Sec. 34-100. Payments into fund for service outside city.

Teachers now, heretofore, or hereafter in the service of the board of education who desire to have outside service credited for pension purposes shall for each year of service outside the city approved by the board of trustees pay into the fund an amount equal to what would have been deducted from the salary of such person for a like period at the rates provided in Section 34-103, plus interest at the rate of four per cent (4%) per annum from one year after date of assignment to date of payment. Payment shall not, however, be required for more than ten years of service outside of the city, and the payment may be made in installments in such manner as the board of trustees shall by by-laws provide.

Sec. 34-101. Payments on account of past service.

Any teacher who had theretofore withdrawn as a contributor to the fund but who became a contributor to and beneficiary of the fund prior to September 2, 1936, and any teacher who theretofore had not been a contributor to the fund but who became a contributor to and beneficiary of the fund prior to September 2, 1940, may count past service as a part of the period of twenty-five years herein-after specified and become entitled to the benefit of such past service by paying into the fund:

1. a sum equal to that which he would have contributed under the provisions of this Article had he been a regular contributor to the fund during the period of past service, together with interest thereon at the rate of four per cent per annum from the time such payments would have been made;

2. an additional sum equal to the amount of appropriation by the board of education withheld from payment into the pension fund because he was

not a contributor during the period of past service, together with interest thereon at four per cent per annum as aforesaid; and

3. any other sum that may be necessary to indemnify the fund against any loss it may have sustained by reason of receiving less public contribution than it would have received if such teacher had been a regular contributor during the period of past service.

Sec. 34-102. Maturity of active service and right to benefits.

The board of trustees shall pass a resolution declaring the maturity of active service and right to the immediate benefits of the fund in favor of persons entitled to the benefits thereof, in the following cases:

1. When any contributor to the fund has taught in the public schools of the United States, or rendered service therein, or rendered service as an employee of the board of trustees for a period of twenty-five years, within the meaning of Sections 34-86 to 34-113, inclusive, and has contributed to the pension fund the aggregate sum, to be ascertained and determined as provided in Section 34-103.

2. When any contributor to the fund has taught in the public schools of the United States, or rendered service therein, or rendered service as an employee of the board of trustees for a period of from twenty-six to forty years, within the meaning of those sections and has contributed to the pension fund the aggregate sum, to be ascertained and determined as provided in Section 34-103.

3. When any contributor to the fund has taught twelve years or more but less than twenty-five (25) years in the public schools of the United States, within the meaning of those sections, or rendered service as an employee of the board of trustees and has been declared by three competent physicians, who have made a physical examination of the teacher or employee at the request of a majority of the board of trustees, to be suffering from a disability which wholly and presumably permanently incapacitates him for teaching or for service as an employee of the board

of trustees as the case may be; and when the teacher or employee has contributed to the pension fund the aggregate sum to be ascertained and determined as provided in Section 34-103.

4. When any contributor to the fund is retired from active service by the board of education because of having attained an age requiring such retirement pursuant to any law of this State, and has at the date of such compulsory retirement less than twenty-five years of active service within the meaning of those sections; and has contributed to the pension fund the aggregate sum to be ascertained and determined as provided in Section 34-103.

Sec. 34-103. Aggregate contributions.

The aggregate sum required to be contributed by, or deducted from the salary of any person otherwise entitled to a pension under Sections 34-86 to 34-113, inclusive, shall be computed as follows:

1. For service allowed and credited for pension purposes rendered prior to July 7, 1931, by computing the total of such required contributions or deductions at the rates provided by those sections as they were immediately before July 7, 1931;

2. For service allowed and credited for pension purposes rendered on or since July 7, 1931, by computing the total of the required contributions or deductions at the rates in force when the service was rendered;

3. For service rendered partly before and partly after July 7, 1931, by adding the totals computed under 1 and 2.

Sec. 34-104. Eligibility for immediate benefits of fund.

The board of trustees shall not declare any person entitled to the immediate benefits of the fund until he has taught in the public schools of the city three-fifths of the term of service for which annuity is granted, which three-fifths of service must be in the last service rendered prior to his retirement on a pension. In computing the years of service for which annuity is granted not more than ten years of service outside the city may be allowed to any applicant. No per-

son is entitled to the benefits of the fund until his employment as a teacher in the active service of the board of education has been terminated.

In the case of an employee of the board of trustees, eligibility for a pension or benefit hereunder shall become effective when such employee has fulfilled the conditions as to service and contributions as herein provided, and such employee shall become entitled to the payment thereof when his service as an employee has been terminated.

Sec. 34-105. Pension on account of service counted towards annuity or pension by some other body.

It is unlawful for the board of trustees to grant or to continue to pay an annuity or pension under Sections 34-86 to 34-113, inclusive, to any person on account of service as a teacher rendered in the public schools of the United States, within the meaning of those sections, if any portion of such service has been, or shall be, counted in the total period of service for which he is paid, or shall be paid, an annuity or pension by some other public pensioning body, in addition to the annuity or pension paid under those sections; provided, that any benefit paid or payable by any other public pensioning body only after the death of such teacher shall not be considered as a pension or annuity within the meaning of this section; and, provided further, that any teacher may receive in addition to the pension under those sections any compensation or annuity provided to be paid by the board of education after retirement from active service under any compulsory and voluntary retirement law.

Sec. 34-106. Amount of Pension—Payment—Re-employment.

Persons entitled to and becoming beneficiaries of the pension fund under Sections 34-102 to 34-105, inclusive, shall receive a pension as follows:

1. Each teacher retired or retiring after twenty-five years of service within the meaning of Sections 34-86 to 34-113, inclusive, shall receive the

full service annuity for 25 years of service, of \$800.

2. Each teacher retired or retiring after 26 or more years of service, within the meaning of those sections, shall receive the full service annuity paid for 25 years of service as herein provided, and in addition thereto for each full year of service in excess of 25 years an additional annuity or pension of *sixty dollars* (\$60), provided, that no annuity or pension shall exceed one thousand seven hundred dollars (\$1,700.00). In computing the time of service in excess of 25 years no additional annuity or pension shall be paid for any fractional part of a year nor for a longer period than 15 years in excess of 25 years.

3. Each teacher retired or retiring because of permanent disability after twelve years of service shall receive as an annuity or pension three hundred dollars (\$300.00), and for each year of service in excess of twelve years an additional annuity of thirty-eight dollars (\$38.00).

4. Each teacher with less than twenty-five years of service within the meaning of those sections so retired or retiring because of having attained an age requiring such retirement shall receive as a pension such proportion of the full pension paid for twenty-five years of active service as the time of such service of such contributor bears to twenty-five years.

Pensions and annuities shall be paid monthly during the school year.

If any person receiving a pension or annuity from the fund is re-employed as a teacher by the board of education, pension payments to him shall cease when the re-employment begins. If he again retires on pension the time of service and the money contributed by him after his re-employment shall be added to the time and money previously credited.

These provisions shall apply with equal force to employees of the board of trustees who fulfill the qualifications as to service and contributions.

If any pensioner dies before he has received pension payments equal to all the money he has contributed to the fund, on written application to the board of trustees, his executor or administrator shall be paid the dif-

ference between all the money contributed by the pensioner to the fund and the total payments made to the pensioner; but if there shall be filed with the board of trustees prior to the death of the pensioner, a written direction signed and acknowledged by the pensioner before an officer authorized to take acknowledgments, that such refund, if any, be paid to a named beneficiary, such refund shall be paid to such beneficiary on written application therefor to the board of trustees.

APPROVAL OF MINUTES

On motion of Miss Scully, seconded by Miss Komarek, the minutes of the regular meeting of November 21, 1947, were approved as printed.

COMMUNICATIONS

The following communication was presented by Miss Best.

(3448)

January 16, 1948.

President and Members,
Board of Trustees,
Public School Teachers' Pension and Retirement Fund,
228 N. LaSalle Street,
Chicago 1, Illinois.

Ladies and Gentlemen:

The printed proceedings of the Board of Trustees of the Public School Teachers' Pension and Retirement Fund for June 20, 1947, page 282, contain statements as to my vote and feeling on House Bill 642 which are grossly misleading.

1. The proceedings show as to "Nays," on the vote on sending Mr. Geilen's letter to the members of the Senate, as "None". I voted "No" on this motion.

2. The printed record shows that I was "in favor of sending the letter, but requested that it be held until after the results of the second reading of House Bill 642 were known".

I was never in favor of sending this letter. That was indicated by my vote of "No" on the motion. When it became obvious that I was outvoted on the motion, and that the letter would be sent despite my protest, I urged, even begged, the other trustees present to wait, at least, until after the second reading of the bill.

In the light of these facts, and the fact that, based on these misrepresentations, a Chicago teachers' organization was permitted to print this misinformation, injuring me in the eyes of many, I suggest that it might be a good idea to have a competent court reporter take short hand minutes of all future board meetings.

This letter is written at the request of the Pension Board, so that the correction of these errors may be placed on record and printed in the current proceedings.

Sincerely yours,

(Signed) HELEN BEST,

Member of the Board.

By majority vote the above communication was ordered printed in the proceedings, Mrs. Utley passing her vote.

The Recording Secretary then moved that all items which are to be printed in the record be given to the Recording Secretary in writing before the end of the meeting.

This recommendation was concurred in by unanimous vote.

(3449)

Unfinished Business

The Recording Secretary reports that the amendments to By-Laws 5 and 7 adopted at the Regular Meeting of September 19, 1947 became effective on December 2, 1947 in compliance with the motion passed at the Adjourned Regular Meeting of October 10, 1947. (See page 352 of printed proceedings.)

..(3450)

On motion of Miss Scully, seconded by Miss Sholund the Pension Board ordered the issuing of Aggregate Penalty and Broad Form coverage Bonds by the Hartford Accident & Insurance Company for the purpose of bonding the office employees, the policies to date from December 24, 1947. The attorney for the Pension Fund has investigated the propositions presented by the Company and advises the Board that in his opinion they are satisfactory.

The above motion was passed by unanimous vote.

Miss Komarek, chairman of the Committee on Annuities, presented the following reports of the Committee:

(3461)

Annuities

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributions retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 34-102 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

Appointment of Physicians

The Committee on Annuities reports that the Committee has received from the Recording Secretary applications for Disability Annuity submitted by the person hereinafter listed who have completed at least twelve years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; also that each such application is accompanied by a certificate from a competent physician declaring that the applicant is suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching.

The Committee therefore

RECOMMENDED that in addition to the physician whose certificate accompanies the application, there be appointed for each applicant the two physicians whose names are set forth below after the name of each such applicant for Disability Annuity. The Committee further recommends that the Recording Secretary be, and hereby is, authorized and directed to notify the applicant and the physicians so appointed of this action of the Pension Board, and to file this report in the Pension Office.

Income Tax Payment—Marie Wohlleben

The Committee on Annuities reports that the Pension Fund has on deposit to the account of Marie Wohlleben non-resident alien annuitant, now deceased, the sum of \$2,322.00. The Commissioner of Internal Revenue has made demand upon the Fund for payment of income tax in the amount of \$645.00 on pension checks issued to Miss Wohlleben but not delivered prior to her death. There will then be a balance of \$1,677.00 left in the Pension Fund to the account of Miss Wohlleben.

The Committee recommends that a warrant for \$645.00 be issued payable to the Collector of Internal Revenue. (See pages 329 and 372, Vol. XVI.)

On motion of Miss Komarek, seconded by Miss Best, the report of the Committee on Annuities was approved and the warrant ordered drawn by the following roll-call vote:

Ayes—Mr. Geilen, Miss Sholund, Miss Komarek, Miss Lynch, Miss Best, Miss Scully, Mrs. Utley—7

Nays—None.

(3465)

Retirement Date—Frances Zurawski

The Committee on Annuities reports that the Pension Board has carefully considered the case of Frances Zurawski who appeared before the Board on November 21, 1947. An application for pension was mailed to her after the date of her retirement had been set by the Board of Education as July 11, 1947. As she was absent from the United States at that time, the application was delayed four days after September 1, 1947 in reaching the Pension Office.

The Committee therefore recommends that the records be changed to show that her pension became effective September 1, 1947.

The recommendation of the Committee was concurred in by unanimous vote.

ADJOURNMENT

On motion of Miss Scully, seconded by Miss Komarek, the meeting adjourned to meet at the call of the Recording Secretary.

Susan Scully

Recording Secretary.

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE

Under the Law as amended and in effect July 7, 1931, payments into the pension fund are required for all outside service approved by the Pension Board if the service is to be allowed for pension purposes. Each teacher assigned to the Chicago service must pay into the fund an amount equal to the amount that would have been deducted from his salary if his outside service (not to exceed ten years) had been in Chicago, plus interest at 4% per annum from one year after date of assignment to date of payment.

The law also provides that military service within the pension period shall be counted as Chicago service by paying into the Fund the amount that would have been deducted if the teacher had been in active service.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

TEACHERS' PAYMENTS FOR SABBATICAL LEAVE AND SICK LEAVE.

A teacher who has been granted Sabbatical Leave by the Chicago Board of Education may count the time so spent as payment of the service necessary to qualify him or her to receive a pension by paying into the Fund the amount that would have been deducted if the teacher had been in active service plus simple interest at four per cent (4%) per annum if payment is deferred.

The following teachers have made payments for time spent on Sabbatical Leave on the dates and in the amounts shown after each name:

Disability Annuities

The Committee on Annuities reports that since the adoption of the last report on Disability Annuities, the Committee has received from the Recording Secretary and submits herewith certificates from the physicians appointed by the Pension Board to examine the persons hereinafter listed; that it has considered these certificates and the applications for Disability Annuity submitted by these persons together with other evidence and finds that each such person has completed twelve or more years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; and that each has been declared by three competent physicians who have made a physical examination of said person to be suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching. The committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted a Disability Annuity in the amount set forth below opposite his or her name; said Disability Annuity to date from the day on which the application was received, and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Disability Annuities granted herein; and to file this report and the applications and physicians' certificates herewith submitted in the Pension Office.

Disability Annuity Not Granted

The Committee on Annuities reports that at the meeting of January 16, 1948, physicians were appointed to examine Paul Boyd of the Hawthorne School. (See proceedings of that date, page 402, Doc. 3463.)

The Committee reports that it has carefully examined the reports of the physicians appointed to examine Mr. Boyd and find that he is not permanently incapacitated for teaching and therefore recommends that his application for disability annuity be not granted.

On motion of Miss Komarek, seconded by Miss Sholund, this report was adopted and the recommendation concurred in.

Additional Time for Annuitants

The Committee on Annuities reports that examination of the records in the Payroll Bureau of the Board of Education shows additional time for the annuitant named below. The Committee recommends that the corrected record read as follows:

ADDITIONAL TIME RECOMMENDED.

The Annuitants of December, 1947

The following table shows the number of annuitants classified by years of service and arranged in three groups according to the dates on which their names were placed on the pension roll:

Group I includes all those who retired before July 1, 1923.

Group II includes those who retired between July 1, 1923, and July 11, 1935.

Group III includes those who retired after July 11, 1935.

The Disability Annuitants constitute a fourth group.

Annuitants in Group One (all who retired before July 1, 1923) receive the rates authorized by the Law in effect previous to 1923.

Annuitants in Group Two receive the rates authorized by the law of 1923—that is, from \$800 to \$1,000 depending on length of service. In May, 1925, the compulsory retirement law became effective, and until July, 1935, the compulsory retirement age was 70.

Annuitants in Group Three receive the rates authorized by the legislature of 1935, which raised the maximum to \$1,200 for 35 years of service. At the same session the legislature fixed the compulsory retirement age at 65.

The Pension Law as amended by the Legislature of 1931, provides that any person retired by the Board of Education under the Compulsory Retirement Law with less than 25 years of service shall receive as pension such proportion of \$800 as his time of service bears to 25 years.

FOREWORD

The Board of Trustees of the Public School Teachers' Pension and Retirement Fund submits herewith its Forty-second Annual Report in accordance with the established policy of the Board and in recognition of its responsibility to the participants of the Fund.

BOARD OF TRUSTEES:

At the Pension Election on October 24, 1947, Miss Susan Scully and Miss Evelyn Sholund were re-elected, each for a three-year term. Miss Scully was first elected as a Trustee in 1938 and Miss Sholund in 1941 and they have served continuously since then.

The members appointed from the Board of Education are: Mr. John Doherty, Mrs. Clifton Utley and Mr. William B. Traynor.

INVESTMENTS:

The invested fund decreased \$17,650.00 during the year, making the total invested fund on December 31, 1947, \$8,681,100.00. A report of the Investment Account is printed elsewhere in this pamphlet.

CONTRIBUTORS AND ANNUITANTS:

The deductions from salary in 1947 increased \$215,437.96 over 1946. In the same period the number of contributors increased 480. Practically 85% of the contributors are in the fourth group and therefore pay at the maximum rate.

339 new Annuitants were placed on the pension roll during 1947 including 14 disabilities. Deaths made the net increase 183.

The net payment to Annuitants in 1947 was \$4,093,595.59 an increase over 1946 of \$203,896.76.

TAX MONEY:

The tax money paid into the pension fund increased \$96,293.59 over the amount paid in 1946.

PENSION LAW:

A summary of the Acts of the Legislature affecting the Chicago Teachers' Pension is printed in this Annual Report, as the growth and progress of the Pension Fund from 1895 to 1947 are of interest to all participants.

Annuities Under the Chicago Teachers' Pension Law

THE FIRST LAW

The Chicago Teachers' Pension Law was enacted by the Legislature of 1895, was approved by Governor Altgeld on May 31st, and became effective on July 1, 1895. It applied not only to the teachers, but also to the other employees of the Board of Education, including the School Engineers, and it was known as "The Public School Teachers' and Public School Employees' Pension Law." The Legislature of 1903 authorized the separation of these two classes of employees and thereafter the teachers' fund was for teachers only. (The word "teacher" is used here to include all persons engaged in instruction or the supervision of instruction.)

The law provided a Board of Trustees for the newly established fund consisting of the twenty-one members of the Board of Education, the Superintendent of Schools, and two members to be elected by the contributors.

On October 21, 1895, the Chicago Teachers' Club presented a petition to the Board of Education requesting them to take the necessary steps to form a Board of Trustees under the new law. Thereupon the Board of Education adopted a Resolution in which a meeting of representatives—one from each school—was suggested for the purpose of selecting the two contributor members of the new Pension Board.

In accordance with this Resolution a meeting was held in the Schiller Theater on Randolph Street (now the Garrick Theater) on Saturday, November 16, 1895, where nominations were made for Trustees of the Pension Fund; and a committee was appointed to canvass the ballots which were to be returned and canvassed on November 23rd.

On November 27, 1895, the report of this committee was presented to the Board of Education, and the Board of Trustees of the new fund was organized on that date.

The two newly-elected contributor trustees were Mrs. Ella Flagg Young, Assistant Superintendent of Schools, and Mr. Thomas J. Waters, Chief Engineer. The Superintendent of School, (ex-officio a member of the Board of Trustees), was Mr. Albert G. Lane.

At this meeting deductions were fixed at one per cent of salary. Deductions were made for the first time in January, 1896, and were compulsory on all employees.

THE LAW OF 1895

The first law provided for pensions of one-half salary, not to exceed \$600.00. (Elementary teachers' salaries ranged from \$500.00 to \$825.00; the high school Teachers' schedule was somewhat higher; and the elementary principals had a maximum of \$2,500.00.) The first pensions were paid in September, 1896. From the first, teachers were permitted to count service outside Chicago up to two-fifths of their total time. There was no provision for a minimum required payment into the fund before retirement and teachers who had contributed less than thirty dollars were placed on pension. Women were permitted to retire after twenty years of service; men after twenty-five years. There were 145 persons placed on the roll before January 1, 1901.

From the beginning, the Board of Trustees had power to reduce pensions when the condition of the fund required it. In September, 1900, pensions were reduced 25%.

THE "OPTIONAL" PERIOD

Effective July 1, 1901, the Legislature made membership in the pension **optional**, that is, teachers might cease to contribute if they so chose. Hundreds withdrew and pensions fell until in March, 1905, pensions were reduced to 30% of the normal amounts, and from that time until September, 1907, pensions varied from \$12.00 to \$18.00 a month (\$120.00 to \$180.00 a year). Between January 1, 1901 and January 1, 1908 there were 205 names added to the roll; 46 of these in 1907, mostly of persons with less than 25 years of service retiring before the 25-year provision became effective.

CONTROL TRANSFERRED TO CONTRIBUTORS

Effective July 1, 1907, a change in the law gave the control of the fund to the contributors; the pension for 20 years of service was abolished and thereafter 25 years of service was required; teachers who had already retired with less than 25 years of service were granted pro-rata pensions; the pension for 25 or more years of service was fixed at a maximum of \$400.00, at which point it remained until July 1, 1921; and provision was made for disability pension after 15 years of service. A minimum payment into the Fund of \$450.00 was required before a new applicant could receive pension. If the new annuitant did not make a cash payment of the amount required to bring her contributions up to \$450.00, her pension was withheld until the accumulations plus her contributions reached \$450.00.

Those annuitants who had contributed less than \$450.00 were required to bring their contributions up to that amount (a) by a cash payment; or (b) the Board of Trustees withheld \$30.00 per year until the total contributions reached \$450.00.

The new Board of Trustees paid pensions of \$225.00 for 25 years of service, and raised the rate from time to time until the maximum of \$400.00 was reached in 1913. The annuitants with less than 25 years of service were permitted to count months as well as years in fixing their pro-rata pensions.

Between January 1, 1908 and January 1, 1921, there were 519 persons placed on pension, an average of 40 per year; the largest number in any one year being 54 in 1917.

PENSION RAISED TO \$600.00

In July, 1921, the pension was raised from \$400.00 to \$600.00 and disability pensions were authorized after twelve years of service instead of after fifteen years. The required payment into the fund was fixed at \$850.00. (This was the sum that would be contributed in 25 years under the new schedule of deductions.) The increased pension was paid to annuitants already on the list but they were required to bring their contributions up to \$850.00, either by a cash payment or by withholding \$200.00 per year (which was the amount of the increase) until the sum of \$850.00 was reached.

ADDITIONAL PENSION FOR ADDITIONAL SERVICE

In 1923, the Board of Trustees was given authority to increase the pension for 25 years of service to \$800.00. At the same time an additional pension for additional service beyond 25 years was established.

The "additional" pension was fixed by law at \$20.00 for each year of service beyond 25 years, up to a maximum of 35 years, with a maximum pension of \$1,000.00. The required payment was fixed at \$50.00 per year for each additional year, (the amount that would be deducted in a year under the existing schedule), making the required payment for 35 years \$1,350.00.

Beginning in March, 1925, the annuitant was permitted to draw the "basic" annuity (paid for 25 years of service) as soon as her contributions plus the accumulated pension reached \$850.00 (the amount required for 25 years of service). The "additional" pension was then withheld to complete payment for the total pension allowed for her years of service. This method of payment is still in force.

Under the 1923 law, the annuitants already retired were permitted to submit evidence of additional service either within or outside Chicago, and were required to make the same payments as were required of the new annuitants. They were permitted to complete their payments by having the "additional" pension withheld until the required payment was completed.

When the pension was increased to \$800.00 in May, 1926, the maximum pension automatically went to \$1,000.00 for 35 years of service.

THE INJUNCTION SUIT OF 1927

In August, 1927, an injunction suit was filed which has prevented the Board of Trustees from paying the increases granted by the legislature of 1923 to the annuitants who were placed on the pension roll before July 1, 1923. There were 655 annuitants whose pensions were lowered by this suit, the cuts varying from \$200.00 to \$400.00 per year. This results in a maximum pension of \$600.00 for teachers who were placed on the pension roll before July 1, 1923, even if they had 35 or more years of service. There are now less than 185 of these annuitants.

PENSION BEGINS WHEN APPLICATION IS RECEIVED

The Board of Trustees, at its meeting of December 9, 1903, received from Mr. James Maher, attorney of the Board of Education acting as attorney for the Board of Trustees, an opinion that pensions should begin on the day on which the application was received in the Pension Office, even if the applicant had been retired involuntarily by the Board of Education. Since that time this ruling has been followed by the Board of Trustees, and has been upheld more than once in written opinions from Mr. I. T. Greenacre, attorney for the Pension Board for many years.

This ruling is now affirmed in By-Law 2, Sec. I of the Rules and Regulations of the Board of Trustees.

On motion of Miss Scully, seconded by Miss Sholund, these reports were approved and ordered printed.

ADJOURNMENT

On motion of Miss Scully, seconded by Miss Komarek, the meeting adjourned to meet at the call of the Recording Secretary.

Jusan Scully

LIST B.

The Annuitants in the following list have been placed on the pension roll since July 1, 1923.

A teacher retiring with more than 25 years of service adds to the deductions from salary an amount sufficient to bring the total to the sum required for 25 years of service; he then receives \$800, the annuity paid for 25 years of service, and the additional annuity allowed for additional service accumulates until the required payment for the additional annuity is completed.

* The first of these amounts is the sum due the fund for either the basic pension or the additional pension, and the second amount is the sum due the annuitant to the end of December. For the basic pension (that is, the pension paid for not more than 25 years of service) the pension is withheld until payment is completed; for the additional pension, (that is, the pension paid for service in excess of 25 years) the amount of pension in excess of \$80 per month is withheld until payment is completed. Then to complete the record a check for this amount due the fund is issued and deposited, and a receipt is issued to the annuitant. See note at beginning of this List.

† Includes pension for more than one month.

‡ This annuitant died in December and the first of these amounts is "unearned pension" deposited back into the fund; the second amount is the sum due the estate for the fractional part of the month up to the date of death.

REPORT OF COMMITTEE ON PENSION LAW AND RULES

Miss Best, Chairman of the Committee on Pension Law and Rules, presented the following reports of the Committee:

(3502)

CIVIL SERVICE TIME MAY NOT BE ALLOWED FOR PENSION.

The Committee on Pension Law and Rules reports that Mr. Henry W. Olschner, attorney for the Board of Trustees, has rendered an opinion on the question as to whether services rendered by Helen J. Evans and Antoinette Mohar may be counted for pension purposes; and recommends that this opinion be accepted and printed in the proceedings, and that no credit be allowed for such service.

RE:—Request of Helen J. Evans to have her employment in the business department of the Board of Education counted for pension purposes.

April 15, 1948

BOARD OF TRUSTEES of the
Public School Teachers' Pension and
Retirement Fund of the City of Chicago.

Ladies and Gentlemen:

In her written request to your Board dated February 13, 1948, Miss Evans states that she desires pension time credit for the years of her employment in the business department of the Board of Education.

The facts are:

September, 1934, Miss Evans received a temporary civil service appointment as lunch room manager from the Board of Education and accordingly received her salary from the civil service payroll. This employment continued till 1936. (No pension time allowed for these services.)

From 1936 to 1942 under a temporary civil service appointment she was employed by the Board of Education as supervisor of lunch rooms, receiving her salary from the civil service payroll. (No pension time allowed for these services.)

February 2, 1942, Miss Evans received appointment as teacher at the Washburne Trade School on a temporary High School certificate. She thereby became a member of the teaching force and received her salary from the teachers' payroll.

November 29, 1943, she was assigned as teacher at this school and remained till June, 1944.

For her teaching services as above stated, from February 2, 1942 to June, 1944, Miss Evans has two years and five months credited to her for pension purposes.

For the school year 1944-1945, she was granted a special leave to act as Assistant Director of Lunch Rooms and again was placed on the civil service payroll.

Because this appointment severed her for the time being from the teaching force and because the only leaves creditable for pension purposes are sabbatical, sick and military, that year has not been and cannot be counted as pension time.

September, 1945, Miss Evans returned to teaching status and continues therein. She is drawing her salary from the teachers' payroll and is receiving pension time credit for her services.

It is my opinion that the request of Miss Evans should be denied for a number of reasons.

Under the provisions of the Pension Law, your Board can recognize only services rendered in the public schools of Chicago by members of the teaching force. This is a teachers' pension fund, the contributors to which receive their salaries from the Teachers' payroll and have compulsory deductions made therefrom for pension contributions.

Miss Evans was not a member of the teaching force when she rendered the services for which she requests credit. She was, as she herself says, employed by the business department of the Board of Education. She was under civil service appointments and received her salary from the civil service payroll.

The status of the other persons cited in her request is not comparable to hers. All the persons named, at the time of their services were members of the teaching force, received their salaries from the teachers' payroll and had compulsory pension deductions made from their salaries.

Your Board has had numerous requests similar to that of Miss Evans, but it has been forced to deny them all for obvious reasons.

It seems to me that in 1934 Miss Evans made a deliberate choice between becoming a member of the teaching force and accepting employment with the Board of Education under a temporary civil service.

In her request under RECORD OF EMPLOYMENT—Board of Education, she says:

1. Feb. 1934—Waived assignment as Lunchroom Manager on H. H. A. certificate, due to salaries being paid in script.

2. Sept. 1934—Accepted assignment as Lunchroom Manager at Lane Tech. H.S.

The Lane Tech assignment was a temporary civil service one.

Respectfully submitted,

HENRY W. OLSCHNER.

RE:—Request of Antoinette Mohar to have her employment as school clerk counted for pension purposes.

April 15, 1948.

BOARD OF TRUSTEES of the
Public School Teachers' Pension and
Retirement Fund of the City of Chicago.

Ladies and Gentlemen:

Miss Mohar in her request dated March 19, 1948, states that she acted as school clerk from 1927 to 1929, and desires pension credit for the time so employed.

At the time Miss Mohar rendered these services she was not a member of the teaching force, but was employed as such clerk by the Board of Education under civil service assignment. She was not paid from the teachers' payroll but from the civil service payroll. The position of teacher clerk was abolished by the Board of Education and the school clerks were placed under civil service beginning in September of the school year 1927-28.

I am of the opinion that the request of Miss Mohar should be denied by the Board of Trustees because her services were not rendered as a member of the teaching force. For a more elaborate discussion of this point I refer you to my opinion of today in the matter of the request of Helen J. Evans.

Respectfully submitted,

HENRY W. OLSCHNER.

On motion of Miss Best, seconded by Miss Sholund, the report of the Committee on Pension Law and Rules was approved and the recommendation concurred in by unanimous vote.

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE

Under the Law as amended and in effect July 7, 1931, payments into the pension fund are required for all outside service approved by the Pension Board if the service is to be allowed for pension purposes. Each teacher assigned to the Chicago service must pay into the fund an amount equal to the amount that would have been deducted from his salary if his outside service (not to exceed ten years) had been in Chicago, plus interest at 4% per annum from one year after date of assignment to date of payment.

The law also provides that military service within the pension period shall be counted as Chicago service by paying into the Fund the amount that would have been deducted if the teacher had been in active service.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

TEACHERS' PAYMENTS FOR SABBATICAL LEAVE AND SICK LEAVE.

A teacher who has been granted Sabbatical Leave by the Chicago Board of Education may count the time so spent as payment of the service necessary to qualify him or her to receive a pension by paying into the Fund the amount that would have been deducted if the teacher had been in active service plus simple interest at four per cent (4%) per annum if payment is deferred.

Audit for 1947

The Committee on Finance and Judiciary reports that in accordance with authority granted by the Board of Trustees an audit of the Pension Fund has been completed by Arndt, Mann & Sweeney, Certified Public Accountants, and the report is submitted herewith.

The Committee recommends that this report be accepted and printed in the proceedings.

LETTER TRANSMITTING REPORT

May 27, 1948

To the Board of Trustees, Public School
Teachers' Pension and Retirement Fund,
City of Chicago, Chicago, Illinois.

We have completed an audit of the accounts and records of the Public School Teachers' Pension and Retirement Fund, City of Chicago, for the year ended December 31, 1947. In connection therewith, we reviewed the system of internal control and the accounting procedures of the Fund, and examined accounting records and supporting data by methods and to the extent that we deemed appropriate in accordance with generally accepted auditing standards applicable in the circumstances.

Cash balances, as shown by the books, were satisfactorily reconciled with the balances reported by the depositaries. City Treasurer's cash receipts were traced into the records of the Pension Fund. Office cash receipts from teachers and credits to individual teachers' accounts were traced into the cash account of the Pension Fund. We made adequate tests of footings and postings of cash books, and traced all pre-numbered duplicate receipts for cash into the cash account. Disbursements for administration expenses were supported by properly approved vouchers.

Receipts from salary deductions and tax collections were verified by examination of the books of the Chicago Board of Education.

Investments of the Pension Fund were inspected and counted, and all interest income from investments was accounted for.

We verified the propriety of payment and the correctness of amount of all pensions granted during the year. We also checked the computations of annuitants' indebtedness to the Pension Fund on account of deficiencies in contributions, and verified all credits against such indebtedness.

The pension roll of December 1946 was reconciled with that of December 1947 by calculating the changes on account of new pensions approved, reported deaths and other changes during the year. Aggregate pension payments during the year were verified in a similar manner. Adequate tests were made of signatures on pension receipts and endorsements of pension checks by comparison with signatures on pension applications.

All refunds of teachers' contributions on account of resignations and deaths were verified as to amount and propriety of payment by reference to individual service and contribution records.

In our opinion, the accompanying balance sheet, statement of income and expenditures and statement of cash receipts and disbursements fairly present, in conformity with generally accepted accounting principles, the financial position of the fund at December 31, 1947 and the results of its operations for the year then ended, except that the actuarial reserve liabilities are stated at amounts required as at June 30, 1946, the date of the most recent valuation.

Respectfully submitted,

ARNDT, MANN & SWEENEY,
WM. J. SWEENEY,

Certified Public Accountant.

BALANCE SHEET EXPLANATORY NOTES

Exhibit "A"

— 3 —

December 31, 1947

Note 1:

In order to pay pensions as they become due, assets should be accumulated during the service periods of the employes. The amount of such requirements and the estimated amount of teachers' contributions that will ultimately be refunded to them, each reduced by the expected future interest earning, are stated herein at the figures determined by A. A. Weinberg, Actuary, as at June 30, 1946, the date of the latest actuarial valuation.

Note 2:

Under the Illinois School Act, the Chicago Board of Education is required to pay to the Fund, deficiencies in tax collections determined by reference to the amount of deductions from teachers' salaries.

Prior to amendment of the statute in 1931, the minimum revenue from taxes was prescribed as twice the amount of deductions from teachers' salaries. Under this provision the Chicago Board of Education is indebted to the Fund in the amount of \$1,030,584.21 for the years 1928, 1929 and 1930. These amounts are reflected in the books of the Board of Education as a general liability. There is a taxpayer's suit pending before the Illinois Supreme Court, in which objection is made to the inclusion of this amount in the estimated current liabilities of the Board of Education as of January 1, 1943.

Under the 1931 amendment, the minimum revenue from taxes is prescribed as an amount equal to deductions from teachers' salaries. Under this provision the Fund claims the sum of \$158,786.20 for the year 1940. This amount has not yet been entered on the books of the Board of Education as a liability but is included in the 1948 budget of the Board of Education.

The Statute also provides that the Chicago Board of Education shall reimburse the Fund for the excess of current disbursements over current income in any year. Under this provision, the Board of Education is indebted to the Fund in the amounts of \$115,265.09, \$33,733.03 and \$13,755.37 for the respective years 1942, 1944 and 1945. These amounts have not yet been entered on the books of the Board of Education as a liability, but are included in the 1948 budget of the Board of Education.

The claims of \$289,786.47 for the year 1946, and \$142,758.11 for the year 1947 (as shown in Exhibit "C") have not been formally presented to the Board of Education.

Because most of these claims are of long standing they are excluded from operating funds in the balance sheet.

REPORT OF COMMITTEE ON ANNUITIES

Miss Komarek, chairman of the Committee on Annuities, presented the following reports of the Committee:

(3519)

Annuities

The Committee on Annuities reports that since the adoption of the last report on Annuities the Committee has received from the Recording Secretary, and submits herewith, applications for Annuity submitted by the persons hereinafter listed; that it has considered this and other evidence and finds that these persons have each completed at least twenty-five years of service in public schools of the United States, of which service at least the last three-fifths has been in Chicago; provided that contributions retired by the Board of Education under the Compulsory Retirement Law with less than twenty-five years of service shall receive pro-rata pensions as provided in Section 34-102 of the Pension Law; and that the employment of each as a teacher in the service of the Chicago Board of Education has been terminated. In each case where the amount of annuity recommended, as hereinafter stated in this report, exceeds the sum of \$800, the applicant has in effect made application for two annuities, that is, one regular full service annuity for \$800 and an additional annuity for the amount of such excess based on additional service, together aggregating the amount stated.

The Committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted an annuity on each such application in the amount or aggregate amount set forth below opposite his or her name; said annuity on each application to date from the day on which the application was received and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Annuities granted herein; and to file this report and the applications herewith submitted in the Pension Office.

(3520)

Change Rate of Annuity

The Committee on Annuities reports that Frank L. Beals, who was retired under the Compulsory Retirement Law September 2, 1946, did not apply for his pension until January 6, 1948. At the meeting of the Board of Trustees on February 20, 1948 (see proceedings of that date, page 444) an annuity of \$920.00 a year was granted for his 28 years of service. Because Mr. Beals' pension did not become effective until after the new Law went into effect, his rate of annuity should be \$980.00 a year.

The Committee recommends that this correction be made and that Mr. Beals be paid \$31.70 additional on the June pension roll, the difference between what he received and what he should have received up to the end of the school month of May 1948.

(3521)

Disability Annuities

The Committee on Annuities reports that since the adoption of the last report on Disability Annuities, the Committee has received from the Recording Secretary and submits herewith certificates from the physicians appointed by the Pension Board to examine the persons hereinafter listed; that it has considered these certificates and the applications for Disability Annuity submitted by these persons together with other evidence and finds that each such person has completed twelve or more years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; and that each has been declared by three competent physicians who have made a physical examination of said person to be suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching. The committee therefore

RECOMMENDS that the applications presented by said persons be approved and that each such person be granted a Disability Annuity in the amount set forth below opposite his or her name; said Disability Annuity to date from the day on which the application was received, and to take effect when the applicant shall have complied with the provisions of the Pension Law.

The Committee further

RECOMMENDS that the Recording Secretary be, and hereby is, directed to enter on the Records of the Pension Board the Disability Annuities granted herein; and to file this report and the applications and physicians' certificates herewith submitted in the Pension Office.

Appointment of Physicians

The Committee on Annuities reports that the Committee has received from the Recording Secretary applications for Disability Annuity submitted by the person hereinafter listed who have completed at least twelve years of service in Public Schools of the United States, of which service at least the last three-fifths has been in Chicago; also that each such application is accompanied by a certificate from a competent physician declaring that the applicant is suffering from a disability which wholly and presumably permanently incapacitates him or her for teaching.

The Committee therefore

RECOMMENDED that in addition to the physician whose certificate accompanies the application, there be appointed for each applicant the two physicians whose names are set forth below after the name of each such applicant for Disability Annuity. The Committee further recommends that the Recording Secretary be, and hereby is, authorized and directed to notify the applicant and the physicians so appointed of this action of the Pension Board, and to file this report in the Pension Office.

Last previous report on Duplicate Pension Warrants: April 16, 1948, p. 514, Doc. 3501.

The Committee further reports that Azile B. Reynolds, an annuitant of the Fund, died September 10, 1946; that the sum of \$42.00 was due her estate; and that in December 1947, pension warrant No. 311603 was deposited back into the fund as unclaimed pension.

A claim has now been received from an heir of Miss Reynolds for this amount.

As the warrant had been deposited with the City Treasurer and cancelled by his office, the Committee recommends that a new check be issued in the amount of \$42.00 and paid to the heir of Miss Reynolds.

On motion of Miss Komarek, seconded by Miss Best, the report of the Committee on Annuities authorizing Duplicate Pension Warrants was approved and the warrants ordered drawn by the following roll-call vote:

Letter from Auditors of City Treasurer's Accounts

THOMAS W. HAVEY
 Certified Public Accountant
 105 W. Adams Street
 Chicago 3
 Central 6-2358

February 7, 1949

The Board of Trustees of the Public
 School Teachers' Pension and Retirement
 Fund of the City of Chicago.

Gentlemen:

We accounted for assets held at the close of business December 31, 1948 by Joseph T. Baran, ex-officio treasurer of the Board of Trustees of the Public School Teachers' Pension and Retirement Fund of the City of Chicago, as follows:

Cash	\$ 713,631.69
Defaulted interest coupons	\$ 286.25
Securities—at principal amount (in- cluding \$2,500. in default).....	<u>\$8,531.600.00</u>

The cash was verified by reconciliation with a certification obtained direct from the depository, defaulted interest coupons were counted, and the securities on hand were counted both as to principal amount and interest coupons and those not on hand were verified by a confirmation received direct from the custodian. In addition, we checked the balance of cash, defaulted interest coupons, and securities, as shown above, by a confirmation obtained direct from a representative of your Fund.

The following securities were counted but had been removed from the Fund Balance on the basis that their issue was stated to be illegal:

Board of Education of the City of Chicago, 4% % Refund- ing Bonds of 1935, 2nd series, due February 1, 1955....	<u>\$508,000.</u>

Yours very truly,

THOMAS W. HAVEY.

STATEMENT BY THE ACTUARY

(3589)

To the Board of Trustees,
Public School Teachers' Pension and
Retirement Fund, Chicago, Illinois.

Operations for the year 1948 were influenced largely by the several amendments to the pension law obtained at the last session of the General Assembly. This was the first full fiscal year of operations under these amendments.

One significant effect of these amendments, of a favorable character, was the reversal in the trend of the financial results of operations. An excess of income over payments, although small, occurred during the year. With the continuance of the larger amounts of contributions by the teachers under the prevailing rate schedule and a higher level of tax income for the Fund, resulting from these amendments, future years should witness further increases in income and a higher reserve.

Payments to retirants maintained their steady upward trend which has characterized the operations of the Fund in previous years. The indications are that this trend will continue for a number of years. In order to meet future obligations, and to insure a moderate increase in the reserve, increases in the pegged levy for the Fund will be required after the year 1950.

As pointed out in a previous report to the Board, the small amount of reserve maintained by the Fund, in comparison with the obligations to present pensioners and the accrued obligations to prospective retirants, was due principally to the insufficiency of the rate of contributions in former years on the part of both the teachers and the Board of Education. Pension cost represents an accruing obligation which can be met only by adequate current revenues. The 1947 amendments providing for larger rates of contribution was a first step toward bringing about a correction of this condition and effecting a gradual rehabilitation of the financial status of the Fund to the end that a reasonably adequate reserve might be established and maintained to provide greater security for the teachers.

The adjustment made in the benefit schedule by the 1947 amendments, averaging about a 20% increase in the rates of pension to future retirants, resulted in more reasonable rates of pension. This increase was more than covered by the larger revenues provided by these amendments.

Other changes in the law have created a more equitable basis of operations and have generally brought about an improvement in the underlying plan. Further amendments should be appraised critically in the light of their cost implications in order that there may be no unbalancing of the financial structure of the Fund. Any such proposals affecting the substantive provisions of the law should be accompanied by proper provisions for the additional cost burdens which they may entail. This recommended policy should be adhered to strictly to insure that the Fund will continue to operate on a sound and conservative basis.

Definite and constructive progress has been made in operations during the year. The results disclosed in your annual report evidence a conscientious and constructive approach to all problems arising in administration.

A. A. WEINBERG,

Actuary.

February 17, 1949.

On motion of Mrs. Kadlec, seconded by Miss Burns, these communications were received and ordered printed.

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE

Under the Law as amended and in effect July 7, 1931, payments into the pension fund are required for all outside service approved by the Pension Board if the service is to be allowed for pension purposes. Each teacher assigned to the Chicago service must pay into the fund an amount equal to the amount that would have been deducted from his salary if his outside service (not to exceed ten years) had been in Chicago, plus interest at 4% per annum from one year after date of assignment to date of payment.

The law also provides that military service within the pension period shall be counted as Chicago service by paying into the Fund the amount that would have been deducted if the teacher had been in active service.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

The Annuitants of December, 1948

The following table shows the number of annuitants classified by years of service and arranged in five groups according to the dates on which their names were placed on the pension roll:

Group I includes all those who retired before July 1, 1923.

Group II includes those who retired between July 1, 1923, and July 11, 1935.

Group III includes those who retired between July 11, 1935 and July 23, 1947.

Group IV includes those who retired after July 23, 1947.

The Disability Annuitants constitute a fifth group.

Annuitants in Group One (all who retired before July 1, 1923) receive the rates authorized by the Law in effect previous to 1923.

Annuitants in Group Two receive the rates authorized by the law of 1923—that is, from \$800 to \$1,000 depending on length of service. In May, 1925, the compulsory retirement law became effective, and until July, 1935, the compulsory retirement age was 70.

Annuitants in Group Three receive the rates authorized by the legislature of 1935, which raised the maximum to \$1,200 for 35 years of service. At the same session the legislature fixed the compulsory retirement age at 65.

Annuitants in Group Four receive the rates authorized by the legislature of 1947 which raised the maximum to \$1,700 for 40 years of service.

The Pension Law as amended by the Legislature of 1931, provides that any person retired by the Board of Education under the Compulsory Retirement Law with less than 25 years of service shall receive as pension such proportion of \$800 as his time of service bears to 25 years.

*The first of these amounts is the sum due the fund for either the basic pension or the additional pension, and the second amount is the sum due the annuitant to the end of December. For the basic pension (that is, the pension paid for not more than 25 years of service) the pension is withheld until payment is completed; for the additional pension, (that is, the pension paid for service in excess of 25 years) the amount of pension in excess of \$80 per month is withheld until payment is completed. Then to complete the record a check for this amount due the fund is issued and deposited, and a receipt is issued to the annuitant. See note at beginning of this List.

†Includes pension for more than one month.

‡This annuitant died in December and the first of these amounts is "unearned pension" deposited back into the fund; the second amount is the sum due the estate for the fractional part of the month up to the date of death.

MISCELLANEOUS BUSINESS

A STATEMENT TO PARTICIPANTS

In accordance with the long standing policy of the Board of Trustees of the Public School Teachers' Pension and Retirement Fund of Chicago to inform the membership and the general public of the results of its administration, the 43rd annual statement for the year ending December 31, 1948, is herewith submitted.

Included in this report is an account of the financial operations of the fund as set forth in a summary of total income and expense, comparisons between the years 1947 and 1948, a summary and description of securities, and an appraisal of operations by the actuary. Data concerning the membership has been presented in tabulations showing comparisons between the last two years, and in tables classifying annuitants according to type of pension, amount of annuity, and total service rendered.

The Board of Trustees is gratified that the financial condition of the fund shows some improvement. Assets, as of December 31, 1948, consisting of investments amounting to \$8,531,600.00 and the cash balance of \$221,693.85, total \$8,753,293.85, as contrasted to a total of \$8,705,576.49 for 1947. The net increment in total assets is \$47,717.36. Although the total expense was \$272,738.56 greater than last year, an increase of \$463,214.03 in income has resulted in an excess of income over expense of \$47,717.36, as contrasted to the deficiencies of past years.

Membership statistics for the past years confirm the predictions of significant and steady expansion during this period. There were 446 more contributors at the end of this year than last, resulting in a total at the end of the year of 11,799. Payments by contributors were \$339,327.48 greater this year than last. The annuitants' roll has also increased from 4,094 to 4,190. The total amount of pension payments at the close of the year was \$4,334,830.13, an increase of \$241,234.54 over last year.

During the past year, several provisions of the recent amendments to the law have not only extended more privileges to the members, but also have resulted in improved administrative practices. Provision for the designation of a beneficiary has enabled the fund to make refunds of contributions without delay or the inconvenience of legal action. Increased pensions have been available to those who were required to retire during this period of rising living costs.

Particularly significant, however, were the extension of the maximum years of service creditable for pension purposes from thirty-five to forty years, and the provision for 100%, rather than 80%, refund of contributions, in the event of withdrawal before twenty-five years of service. An improved pension schedule of special benefit to those of long service has resulted. A more equitable refund policy is now in force. These changes made it necessary to amend the by-laws, authorizing payroll deductions during sabbatical leaves of

absence, and for that part of a sick leave for which the Board of Education pays salary.

Although the financial condition of the fund has been somewhat improved by increased member contributions, another year will be required before the benefit from increased tax monies provided by the 1947 amendments can be realized. The amended law specifies pegged levies for the fund of \$3,500,000.00 for 1948, \$4,000,000.00 for 1949, and \$4,500,000.00 for 1950. The Board of Education has approved the required amounts for 1948 and 1949 and has included the obligations for these years in its budgets. Since the 1948 tax levy is collectible in 1949, an increased income may be anticipated for next year.

During the past year, five members were elected to membership on the board. On October 29, 1948, Mr. Henry Geilen and Miss Ethel Burns were elected for three year terms, and Mrs. Anna Kadlec was elected for a two year term. Mr. Frank M. Whiston was elected Chairman of the Finance Committee of the Board of Education on June 23, 1948, and thereby became, ex-officio, a member of this board. Mr. Thomas Haggerty was elected to membership by the Board of Education on December 8, 1948, for a two year term.

Miss Arline Mayhew, who has given twenty years of service to this fund, resigned as Executive Secretary on August 31, 1948. Miss Mayhew was first elected a member of the Board of Trustees in October, 1928. Later she became President of the Board, and then, Recording Secretary. After the death of Miss Catherine Trout in 1942, Miss Mayhew was appointed her successor. The Board of Trustees hereby desires to acknowledge deep appreciation for her service to the fund and to the members. The knowledge and experience acquired by Miss Mayhew in her various capacities, and her sincere interest in the welfare of the fund have proved of inestimable value in its operation.

MISCELLANEOUS BUSINESS

On motion of Miss Scully, seconded by Miss Best, the following letters were approved and ordered printed:

March 4, 1949

William B. Traynor, President,
Board of Education,
Chicago, Illinois.

Dear Mr. Traynor:

The Pension Trustees of the Chicago Teachers' Pension and Retirement Fund gratefully acknowledge the payment of \$1,000,000.00 towards the liquidation of the indebtedness of the Chicago Board of Education to the Teachers' Pension Fund.

The Trustees also wish to express their appreciation to the Board of Education for its forthright action in resolving a problem of long standing, which was inherited from a previous Administration of the Chicago Public Schools.

The receipt of this money, in addition to the increase of revenues granted by the last State Legislature, will do much to help build up the necessary minimum of Actuarial Reserve commensurate with the financial security of the fund.

Since the continuing welfare of the Pension Fund is a matter of utmost importance to the teachers of Chicago as well as of grave concern to the Pension Trustees, we wish to thank you again for your very helpful co-operation in this situation.

Respectfully yours,

HENRY G. GEILEN,
President: Chicago Teachers'
Pension and Retirement Fund.

SUSAN SCULLY,
Recording Secretary.

March 4, 1949

Dr. Herold C. Hunt,
General Superintendent of Schools,
Chicago, Illinois.

Dear Dr. Hunt:

The Trustees of the Pension Fund have sent a letter of acknowledgement and appreciation to the Board of Education, for the payment of \$1,000,000.00 towards the liquidation of its indebtedness to the Teachers' Pension Fund. We wish also to express our appreciation of your willing and constructive interest and concern, in that which pertains to the welfare of the Pension Fund.

It is a matter of very great satisfaction to the Trustees, to realize that all those who share directly and indirectly in the responsibility of maintaining the continued security of the Fund, are well disposed towards this obligation.

Respectfully yours,

HENRY G. GEILEN,
President: Chicago Teachers'
Pension and Retirement Fund.

SUSAN SCULLY,

Payment of Accrued Pension Due Alwine Pammel

The Committee on Annuities reports that Alwine Pammel, a non-resident annuitant residing in Germany has submitted to the Board of Trustees the following evidence of her right to receive the pension installments accrued prior to January 1, 1947, in the sum of \$2100.00:

1. United States Treasury License dated March 24, 1949, reciting that the Public School Teachers' Pension and Retirement Fund of the City of Chicago is authorized to regard the property of Miss Alwine Pammel as property in which no blocked country or national thereof, has, or had, any interest.
2. Photostat of American Consulate letter dated November 22, 1948 advising Miss Alwine Pammel that the Department of State, Washington, has approved her registration as an American citizen, to be valid until November 6, 1949.

The payment of these pension installments were withheld pending the determination of her status as an American citizen. The submitted proofs cited above establish her right to receive the withheld pension installments, totalling \$2100.00.

The Committee therefore recommends that said accrued and withheld pension installments be paid to Harris Trust and Savings Bank, the Attorney in Fact of Miss Alwine Pammel.

The Committee recommends that a warrant for \$65.65 be issued payable to the Collector of Internal Revenue. (See pages 329 and 372, Vol. XVI, and page 403, Vol. XVII.)

On motion of Miss Komarek, seconded by Miss Best, the report of the Committee on Annuities was approved. The warrant was ordered drawn by the following roll-call vote:

The Committee on Pension Law and Rules recommends that rule thirteen of the Board of Trustees be amended to read —

On motion of Mrs. Kadlec, seconded by Miss Burns the amendment was adopted and ordered effective as of September 1, 1949.

(3635)

The Committee on Pension Law and Rules reports that it has received a printed copy of Senate Bill No. 369, introduced in the General Assembly on April 12, 1949, by Senators Miller, Larson and Walsh. This Bill amends the School Code by adding Section 34-106.01, in order to provide a widow's annuity for male teachers. The Committee recommends that the provisions of this Bill be printed in the proceedings as part of this report.

A BILL

For an Act to add Section 34-106.01 to “The School Code” approved May 1, 1945, as amended.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 1. Section 34-106.01 is added to “The School Code”, approved May 1, 1945, as amended, the added section to read as follows:

Sec. 34-106.01. Regardless of any other provisions of Sections 34-86 to 34-113, inclusive, the widow of any contributor to the fund who shall die while in the service after having credit for ten or more years of service for pension purposes, or, the widow—of any contributor who was the wife of such contributor before he retired on pension or annuity and which contributor retires on pension or annuity after July 1, 1949 and subsequently dies while in receipt of pension or annuity, shall, upon the death of her husband, receive an annual pension or annuity for life, while she remains unmarried, payable in equal monthly installments during the school year, of three hundred dollars (\$300.00), plus the following indicated amount for each full year of service of her deceased husband in excess of ten years, credited to him for pension purposes: Thirty dollars (\$30.00) for each such year in excess of ten years if such widow at the date of death of her husband is sixty-five (65) or more years of age; twenty-seven dollars (\$27.00), if sixty (60) or more years but less than sixty-five (65) years; twenty-two dollars (\$22.00) if fifty-five (55) or more years but less than sixty (60) years; nineteen dollars (\$19.00), if fifty (50) or more years but less than fifty-five (55) years; sixteen dollars (\$16.00), if forty-five (45) or more years but less than fifty (50) years; fourteen dollars (\$14.00), if forty (40) or more years but less than

forty-five (45) years; twelve dollars (\$12.00), if thirty-five (35) or more years but less than forty (40) years; eleven dollars (\$11.00), if thirty (30) or more years but less than thirty-five (35) years; ten dollars (\$10.00), if less than thirty (30) years of age; provided, that no pension or annuity for a widow shall exceed the sum of one thousand two hundred dollars (\$1,200.00) a year.

To help defray the cost of providing widow's pension or annuity, in addition to the amounts specified in Section 34-96 to be set apart from the salaries of persons, beginning with the first month of service after July 1, 1949, the sum of three dollars (\$3.00) for each month of service thereafter shall be set apart in the case of all male persons and paid into and constitute a part of the public school teachers' pension and retirement fund of the city.

Regardless of the provisions of Section 34-106 and Section 34-109, no refund shall be paid to the executor or administrator or named beneficiary of any male contributor if a widow eligible to receive a pension or annuity exists; excepting that if both the contributor and his widow together shall receive less in the form of pension or annuity than the amount contributed or deducted from the salary of the deceased contributor for the purposes of the fund, then an amount equal to the difference in the amount so contributed or deducted and the amount paid in the form of pension or annuity shall be refunded.

If, when a male contributor shall retire and become a pensioner or annuitant, and shall not then be married, the total amount contributed by him or set apart from his salary to provide widow's pension or annuity shall then be refunded to him.

The Committee on Pension Law and Rules reports that House Bill No. 684 is identical to Senate Bill No. 369, and was introduced on April 12, 1949, by Representative Best.

The Committee reports that it has carefully examined Senate Bill No. 369, and presents the following appraisal:

1. There are no restrictions with respect to qualifying conditions regarding length of marriage time.
2. Male teachers represent approximately 16% of the total membership of the Fund.
3. Annual accretions to the cost of the pension roll will be about \$8,000.00, involving a total obligation of \$125,000.00. This cost and obligation, therefore, will be cumulative as the provision continues in force, and will be reduced only by deaths occurring among the widows.
4. Total annual contributions by male teachers, less refunds, will be about \$50,000.00. An additional \$75,000.00 from the prescribed tax levy will be required to finance the benefits. The accrued liability covering previous service of present participants is estimated to be in excess of \$1,800,000.00.

In order to fulfill its obligation to safeguard the Fund, and to provide equitable benefits for its members, the Committee proposes that the Board of Trustees oppose Senate Bill No. 369 and House Bill No. 684.

The Committee further recommends that the Recording Secretary be instructed to notify the teachers of the above action.

On motion of Mrs. Kadlec, seconded by Miss Best, the report of the Committee on Pension Law and Rules was accepted and the recommendations approved.

(3636)

The Committee on Pension Law and Rules reports that it has considered a number of administrative and corrective amendments to the pension law, and presents the same in the following Bill:

A BILL

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

2. Those who have taught more than three years and not more than six years.
3. Those who have taught more than six years and not more than nine years.
4. Those who have taught more than nine years.

[After the taking effect of this Act] *During the period from September to June, both inclusive,* there shall be set apart from the salary of each such person for each [month] *year* of service [ten] *one hundred* dollars while he remains in group 1; [twelve] *one hundred and twenty* dollars while he remains in group 2; [fourteen] *one hundred and forty* dollars while he remains in group 3; and [sixteen] *one hundred and sixty* dollars while he remains in group 4, which amount shall be deducted *for teachers* by the board of education in [equal] *installments from their salaries during said months,* [at the time for the payment thereof] and be paid into and constitute a part of the public school teachers' pension and retirement fund of the city.

[After the taking effect of this amendatory Act, persons] *Persons* employed by the board of trustees in the administration of this fund shall become contributors and shall participate in the benefits provided by the fund. The provisions of this article governing contributions, the payment of pensions, benefits and refunds, shall apply to these persons to the same extent and under the same conditions that apply to teachers. Contributions shall be made by such

employees in the same manner and at the same rates as other contributors, and the aggregate sum required to be contributed by, or deducted from the salary of, any such person for the pensions and benefits hereunder, shall be as provided in Section 34-103. The board of trustees is hereby authorized to make the necessary deductions from the salaries of such persons and to receive any other required contributions to be made by such persons, and certify to the city treasurer the amounts so deducted and contributed by them in the manner prescribed in Section 34-107. Such amounts shall be included as a part of the special fund maintained by the treasurer for the various purposes of this article. The board of trustees shall formulate such rules and regulations as may be necessary to give effect to the provisions of this paragraph.

Sec. 34-98. All teachers who have taught in public schools of the United States outside of the city, or rendered services therein, [upon entering the service of the board of education for the first time shall] *may* submit to the board of trustees of the fund evidence of such service. Such evidence, when approved by the board of trustees, shall be the basis for placing such teachers in the proper group provided in Section 34-96.

Sec. 34-99. In computing [any term of] *service for pension purposes*, [required by teachers under the pension provisions of Sections 34-86 to 34-113, inclusive,] *time spent on sick or sabbatical leaves for which salaries are paid, and time spent in the military service of the United States during the pension period shall stand in lieu of a like number of years of teaching service in the public schools of the city, if the person desiring such credit for his military service pays into the treasury such amount of money as would have been due from him had he actually been in such teaching service during such time. During such sick or sabbatical leaves, the board of education shall make payroll deductions to cover payments due the fund.*

Sec. 34-100. Teachers now, heretofore, or hereafter in the service of the board of education who desire to have outside service credited for pension purposes shall for each year of service outside the city approved by the board of trustees pay into the fund an amount equal to what would have been [deducted from the salary of such person for a like period at the rates provided in Section 34-103, plus interest at the rate of four per cent (4%) per annum from one year after date of assignment to date of payment. Payment shall not, however, be required for more than ten years of service outside the city, and the payment may be made in installments in such manner as the board of trustees shall by by-laws provide.] *required from such persons at rates in force immediately prior to the assignment or return to service of such teachers, whichever the case may be. Payment therefor may be made in installments in such manner as the board of trustees by by-laws provide. Interest at the rate of 4% per annum shall be charged on such installments beginning one year after date of assignment or return to service. No more than 10 years of service outside of the city may be credited for pension purposes.*

Sec. 34-102. The board of trustees shall pass a resolution declaring the

maturity of active service and right to the immediate benefits of the fund in favor of persons entitled to the benefits thereof, in the following cases:

1. When any contributor to the fund has taught in the public schools of the United States, or rendered service therein, or rendered service as an employee of the board of trustees, for a period of twenty-five years *to forty years*, within the meaning of Sections 34-86 to 34-113, inclusive, and has contributed to the pension fund the aggregate sum, to be ascertained and determined as provided in Section 34-103.

[2. When any contributor to the fund has taught in the public schools of the United States, or rendered service therein, or rendered service as an employee of the board of trustees, for a period of from twenty-six to forty years, within the meaning of these sections and has contributed to the pension fund the aggregate sum, to be ascertained and determined as provided in Section 34-103.]

[3.] 2. When any contributor to the fund has taught twelve years or more but less than twenty-five (25) years in the public schools of the United States, within the meaning of those sections, or rendered service as an employee of the board of trustees, and has been declared by three competent physicians, who have made a physical examination of the teacher or employee at the request of a majority of the board of trustees, to be suffering from a disability which wholly and presumably permanently incapacitates him for teaching or for service as an employee of the board of trustees as the case may be; [and when] *provided* the teacher or employee has contributed to the pension fund the aggregate sum to be ascertained and determined as provided in Section 34-103. *Application for such pension shall be submitted within three (3) years from the date of separation from service, or within the time a teacher has a valid certificate, whichever is longer. Such applicant shall submit to examination by physicians appointed by the board of trustees, within one year from date of such appointment.*

[4.] 3. When any contributor to the fund is retired from active service [by the board of education] because of having attained an age requiring such retirement [pursuant to any law of this State,] and has at the date of such compulsory retirement less than twenty-five years of active service within the meaning of those sections; and has contributed to the pension fund the aggregate sum to be ascertained and determined as provided in Section 34-103.

Sec. 34-104. The board of trustees shall not declare any person entitled to the immediate benefits of the fund until he has taught in the public schools of the city three-fifths of the term of service for which annuity is granted, which three-fifths of service must be in the last service rendered prior to his retirement on a pension. In computing the years of service for which annuity is granted not more than ten years of service outside the city may be [entitled] *allowed* to any applicant. No person is entitled to the benefits of the fund until his employment as a teacher in the active service of the board of education has been terminated.

In the case of an employee of the board of trustees, eligibility for a pension or benefit hereunder shall become effective when such employee has fulfilled the

conditions as to service and contributions as herein provided, and such employee shall become entitled to the payment thereof when his service as an employee has been terminated.

Sec. 34-105. [It is unlawful for the board of trustees to grant or to continue to pay an annuity or pension under Sections 34-86 to 34-113, inclusive,] Pensions shall not be granted to any person on account of service as a teacher rendered in the public schools of the United States, [within the meaning of those sections,] if any portion of such service has been[, or shall be,] counted in the total period of service for which he is paid[, or shall be paid, an annuity. or] a pension by some other public [pensioning] body[, in addition to the annuity or pension paid under those sections]; provided, that any benefit [paid or] payable by any other public [pensioning] body only after the death of such teacher shall not be considered as a pension [or annuity within the meaning of this section;] and, provided further, that any teacher may receive in addition to the pension [under these sections] any compensation or annuity [provided to be paid] by the board of education after retirement from active service under any compulsory and voluntary retirement law. *Pension payments shall be suspended while persons are employed by, and receive compensation from the City of Chicago, or any other municipal corporation comprising substantially the same geographic area.*

Sec. 34-106. Persons entitled to and becoming beneficiaries of the pension fund under Sections 34-102 to 34-105, inclusive, shall receive a pension as follows:

1. Each teacher retired or retiring *upon completion of* [after] twenty-five years of service within the meaning of Sections 34-86 to 34-113, inclusive, shall receive the full service annuity for 25 years of service of \$800. *For service in excess of 25 years, an additional annuity or pension at the rate of sixty dollars (\$60) per year, shall be paid, provided that no annuity or pension shall exceed one thousand seven hundred dollars (\$1,700.00). Pensions shall be paid for fractional parts of a year, but not for any period of less than ten (10) days during such fractional year. No pension shall be granted for service exceeding fifteen (15) years in excess of twenty-five (25) years.*

[2. Each teacher retired or retiring after 26 or more years of service, within the meaning of those sections, shall receive the full service annuity paid for 25 years of service as herein provided, and in addition thereto for each full year of service in excess of 25 years an additional annuity or pension of sixty dollars (\$60), provided, that no annuity or pension shall exceed one thousand seven hundred dollars (\$1,700.00). In computing the time of service in excess of 25 years no additional annuity or pension shall be paid for any fractional part of a year nor for a longer period than 15 years in excess of 25 years.]

[3.] 2. Each teacher retired or retiring because of permanent disability after twelve years of service shall receive as an annuity or pension three hundred dollars (\$300.00), and for each year of service in excess of twelve years an additional annuity of thirty-eight dollars (\$38.00).

[4.] 3. Each teacher with less than twenty-five years of service, within the meaning of those sections, so retired or retiring because of having attained an age requiring such retirement shall receive as a pension such proportion of the full pension paid for twenty-five years of active service, as the time of such service [of such contributor] bears to twenty-five years.

Pensions and annuities shall [be paid monthly during the school year.] *date from the day of resignation or compulsory retirement, but shall be paid only after written application to and approval by the board of trustees. Pension payments shall be prorated on a monthly basis from September to June, inclusive.*

If any person receiving a pension or annuity from the fund is re-employed as a teacher by the board of education, pension payments to him shall cease when the re-employment begins. If he again retires on pension the time of service and the money contributed by him after his re-employment shall be added to the time and money previously credited. *Such person shall acquire three years contributing pension service before he may again retire on a pension other than that in force at the time of his previous retirement.*

These provisions shall apply with equal force to employees of the board of trustees who fulfill the qualifications as to service and contributions.

If any pensioner dies before he has received pension payments equal to all the money he has contributed to the fund, on written application to the board of trustees, his executor or administrator shall be paid the difference between all the money contributed by the pensioner to the fund and the total payments made to the pensioner; but if there shall be filed with the board of trustees prior to the death of the pensioner, a written direction signed and acknowledged by the pensioner before an officer authorized to take acknowledgments, that such refund, if any, be paid to a named beneficiary, such refund shall be paid to such beneficiary on written application therefor to the board of trustees.

Sec. 34-107. The president and the secretary of the board of education shall certify monthly to the city treasurer all amounts deducted from the salaries of teachers, special teachers, principals and superintendents of schools, which amounts, as well as all other moneys contributed to the fund, shall be set apart and held by the treasurer as a special fund for the purposes hereinbefore specified, subject to the order of the board of trustees, and shall be paid out upon warrants signed by the president and the secretary of the board of education, [and countersigned by] the president of the board of trustees^[.], *and countersigned by the executive secretary or by such other person as the board of trustees may designate from time to time by appropriate resolution.*

The Committee recommends that these amendments be approved by the Board of Trustees; that steps be taken to have the bill as drafted introduced in the Legislature; that the Superintendent of Schools be requested to grant leaves of absence to representatives of the Board of Trustees in order that they may attend sessions of the Legislature and its Committees to further the passage of the bill; and that the bill as drafted be printed in the proceedings.

The Committee further recommends that the Recording Secretary be instructed to notify the teachers of the above action and keep them informed as to its progress through the Legislature.

TEACHERS' PAYMENTS FOR OUTSIDE EXPERIENCE

Under the Law as amended and in effect July 7, 1931, payments into the pension fund are required for all outside service approved by the Pension Board if the service is to be allowed for pension purposes. Each teacher assigned to the Chicago service must pay into the fund an amount equal to the amount that would have been deducted from his salary if his outside service (not to exceed ten years) had been in Chicago, plus interest at 4% per annum from one year after date of assignment to date of payment.

The law also provides that military service within the pension period shall be counted as Chicago service by paying into the Fund the amount that would have been deducted if the teacher had been in active service.

The following teachers have made payment in part or in full, for their outside service on the dates and in the amounts indicated after their respective names:

A teacher who has been granted Sabbatical Leave by the Chicago Board of Education may count that time for pension purposes if payment therefor is made. Such teachers may pay these amounts in full within one year after returning to service without any interest charge, but if payment is deferred, interest at the rate of four per cent per annum will be added to such required payment.

The following teachers have made payments for time spent on Sabbatical and Sick Leaves on the dates and in the amounts shown after each name:

Audit for 1948

The Committee on Finance and Judiciary reports that in accordance with authority granted by the Board of Trustees an audit of the Pension Fund has been completed by Arndt, Mann & Sweeney, Certified Public Accountants, and the report is submitted herewith.

The Committee recommends that this report be accepted and printed in the proceedings.

LETTER TRANSMITTING REPORT

ARNDT, MANN & SWEENEY
CERTIFIED PUBLIC ACCOUNTANTS

134 North La Salle Street

Chicago 2, Illinois

June 14, 1949

To the Board of Trustees Public School
Teachers' Pension and Retirement Fund,
City of Chicago, Chicago, Illinois.

We have completed an audit of the accounts and records of the Public School Teachers' Pension and Retirement Fund, City of Chicago, for the year ended December 31, 1948. In connection therewith, we reviewed the system of internal control and the accounting procedures of the Fund, and examined accounting records and supporting data by methods and to the extent that we deemed appropriate in accordance with generally accepted auditing standards applicable in the circumstances.

Cash balances, as shown by the books, were satisfactorily reconciled with the balances reported by the depositaries. City Treasurer's cash receipts were traced into the records of the Pension Fund. Office cash receipts from teachers and credits to individual teachers' accounts were traced into the cash account of the Pension Fund. We made adequate tests of footings and postings of cash books, and traced all pre-numbered duplicate receipts for cash into the cash account. Disbursements for administration expenses were supported by properly approved vouchers.

Receipts from salary deductions and tax collections were verified by examination of the books of the Chicago Board of Education.

Investments of the Pension Fund were inspected and counted, and all interest income from investments was accounted for.

We verified the propriety of payment and the correctness of amount of all pensions granted during the year. We also checked the computations of annuitants' indebtedness to the Pension Fund on account of deficiencies in contributions, and verified all credits against such indebtedness.

The pension roll of December 1947 was reconciled with that of December 1948 by calculating the changes on account of new pensions approved, reported deaths and other changes during the year. Aggregate pension payments during the year were verified in a similar manner. Adequate tests were made of signatures on pension receipts and endorsements of pension checks by comparison with signatures on pension applications and signature cards.

All refunds of teachers' contributions on account of resignations and deaths were verified as to amount and propriety of payment by reference to individual service and contribution records.

In our opinion, the accompanying balance sheet, statement of income and expenditures and statement of cash receipts and disbursements fairly present, in conformity with generally accepted accounting principles, the financial position of the fund at December 31, 1948 and the results of its operations for the year then ended, except that the actuarial reserve liabilities are stated at amounts required as at June 30, 1946, the date of the most recent valuation.

Respectfully submitted,

ARNDT, MANN & SWEENEY,

WM. J. SWEENEY

Certified Public Accountant.

BALANCE SHEET EXPLANATORY NOTES

Exhibit "A"

December 31, 1948

Note 1:

In order to pay pensions as they become due, assets should be accumulated during the service periods of the employes. The amount of such requirements and the estimated amount of teachers' contributions that will ultimately be refunded to them, each reduced by the expected future interest earning, are stated herein at the figures determined by A. A. Weinberg, Actuary, as at June 30, 1946, the date of the latest actuarial valuation.

Note 2:

Under the Illinois School Act, the Chicago Board of Education is required to pay to the Fund, deficiencies in tax collections determined by reference to the amount of deductions from teachers' salaries.

Prior to amendment of the statute in 1931, the minimum revenue from taxes was prescribed as twice the amount of deductions from teachers' salaries. Under this provision the Chicago Board of Education is indebted to the Fund in the amount of \$1,030,584.21 for the years 1928, 1929 and 1930.

Under the 1931 amendment, the minimum revenue from taxes is prescribed as an amount equal to deductions from teachers' salaries. Under this provision the Fund claims the sum of \$158,786.20 for the year 1940.

The statute also provides that the Chicago Board of Education shall reimburse the Fund for the excess of current disbursements over current income in any year. Under this provision, the Board of Education is indebted to the Fund in the amount of \$595,298.07 for the years 1942, 1944, 1945, 1946 and 1947.

All of the above claims have been entered on the books of the Board of Education and a payment of \$1,000,000.00 on account was made subsequent to December 31, 1948.

Sec. 34-102. The board of trustees shall pass a resolution declaring the maturity of active service and right to the immediate benefits of the fund in favor of persons entitled to the benefits thereof, in the following cases:

1. When any contributor to the fund has taught in the public schools of the United States, or rendered service therein, or rendered service as an employee of the board of trustees, for a period of twenty-five years to forty years, within the meaning of Sections 34-86 to 34-113, inclusive, *has attained an age of at least 55 years and has contributed to the pension fund the aggregate sum, to be ascertained and determined as provided in Section 34-103, provided that until July 1, 1951, any teacher may elect to retire under the provisions of this Act in force prior to the effective date of this 1949 amendatory Act and continue to make contributions during the remainder of her service as a teacher at the rates set forth in Sec. 34-96 applying to such period.*

[2. When any contributor to the fund has taught in the public schools of the United States, or rendered service therein, or rendered service as an employee of the board of trustees, for a period of from twenty-six to forty years, within the meaning of these sections and has contributed to the pension fund the aggregate sum, to be ascertained and determined as provided in Section 34-103.]

[3.] 2. When any contributor to the fund has taught twelve years or more [but less than twenty-five (25) years] in the public schools of the United States, within the meaning of those sections, or rendered service as an employee of the board of trustees, and has been declared by three competent phys-

icians, who have made a physical examination of the teacher or employee at the request of a majority of the board of trustees, to be suffering from a disability which wholly and presumably permanently incapacitates him for teaching or service as an employee of the board of trustees as the case may be; [and when] *provided* the teacher or employee has contributed to the pension fund the aggregate sum to be ascertained and determined as provided in Section 34-103. *Application for such pension shall be submitted within three (3) years from the date of separation from service, or within the time a teacher has a valid certificate, which ever is longer. Such applicant shall submit to examination by physicians appointed by the board of trustees, within one year from date of such appointment.*

[4.] 3. When any contributor to the fund is retired from active service [by the board of education] because of having attained an age requiring such retirement [pursuant to any law of this State,] and has at the date of such compulsory retirement less than twenty-five years of active service within the meaning of those sections; and has contributed to the pension fund the aggregate sum to be ascertained and determined as provided in Section 34-103.

Sec. 34-106. Persons entitled to and becoming beneficiaries of the pension fund under Section 34-102 to 34-105, inclusive, shall receive a pension as follows:

1. Each teacher retired or retiring *upon completion of* [after] twenty-five years of service within the meaning of Sections 34-86 to 34-113, inclusive, shall receive the full service annuity for 25 years of service of \$1200 [\$800]. For *service in excess of 25 years, an additional annuity or pension at the rate of \$70 per year, shall be paid, provided that no annuity or pension shall exceed \$2250 per year. Pensions shall be paid for fractional parts of a year, but not for any period of less than ten (10) days during such fractional year. No pension shall be granted for service exceeding fifteen (15) years in excess of twenty-five (25) years.*

[2. Each teacher retired or retiring after 26 or more years or service, within the meaning of these sections, shall receive the full service annuity paid for 25 years of service as herein provided, and in addition thereto for each full year of service in excess of 25 years an additional annuity or pension of sixty dollars (\$60), provided, that no annuity or pension shall exceed one thousand seven hundred dollars (\$1,700.00). In computing the time of service in excess of 25 years no additional annuity or pension shall be paid for any fractional part of a year nor for a longer period than 15 years in excess of 25 years.]

[3.] 2. Each teacher retired or retiring because of permanent disability after twelve years of service shall receive as an annuity or pension \$500 [three hundred dollars (\$300.00)], and for each year of service in excess of twelve years an additional annuity of \$50 [thirty-eight dollars (\$38.00)], *provided that no annuity or pension because of disability shall exceed \$1,150.00 per year, which maximum shall continue in force until the age of 55 years in the case of*

a teacher having 25 years of service or more who retires on disability prior to her attainment of such age, at which time she shall be entitled to receive the amount of pension or annuity hereinabove provided for service retirement.

[4.] 3. Each teacher with less than twenty-five years of service, within the meaning of those sections, so retired or retiring because of having attained an age requiring such retirement shall receive as a pension such proportion of the full pension paid for twenty-five years of active service as the time of such service [of such contributor] bears to twenty-five years.

Pensions and annuities shall [be paid monthly during the school year] *date from the day of resignation or compulsory retirement, or from the date of attainment of age 55 in the case of a teacher who has resigned from service prior to such age, but shall be paid only after written application to and approval by the board of trustees. Pension payments shall be prorated on a monthly basis from September to June, inclusive.*

If any person receiving a pension or annuity from the fund is re-employed, as a teacher by the board of education, pension payments to him shall cease when the re-employment begins. If he again retires on pension the time of service and the money contributed by him after his re-employment shall be added to the time and money previously credited. *Such person shall acquire three years contributing pension service before he may again retire on a pension other than that in force at the time of his previous retirement.*

These provisions shall apply with equal force to employees of the board of trustees who fulfill the qualifications as to service and contributions.

If any pensioner dies before he has received pension payments equal to all the money he has contributed to the fund, on written application to the board of trustees, his executor or administrator shall be paid the difference between all the money contributed by the pensioner to the fund and the total payments made to the pensioner; but if there shall be filed with the board of trustees prior to the death of the pensioner, a written direction signed and acknowledged by the pensioner before an officer authorized to take acknowledgments, that such refund, if any, be paid to a named beneficiary, such refund shall be paid to such beneficiary on written application therefor to the board of trustees.

The Committee on Pension Law and Rules reports that in response to communications from the Chicago Teachers Union prior to the introduction of Senate Bill 640, the following letter was sent:

May 23, 1949

Mr. John Fewkes, President,
Chicago Teachers Union,
130 N. Wells Street,
Chicago 6, Illinois.

Dear Mr. Fewkes:

The Board of Trustees regrets that, at this time, it cannot approve the proposal of the Chicago Teachers Union to introduce legislation for an increased benefit schedule.

The proposed bill would require considerable additional financing, which cannot be obtained during this session. Without such a provision, it would be unwise to proceed with legislation of this character.

Sincerely yours,

Evelyn Sholund,

Executive Secretary.

On motion of Mrs. Kadlec, seconded by Miss Scully, this communication was ordered printed.

ADJOURNMENT

On motion of Miss Scully, seconded by Miss Komarek, the meeting adjourned to meet at the call of the Recording Secretary.

REPORT OF COMMITTEE ON PENSION LAW AND RULES

Mrs. Kadlec, Chairman of the Committee on Pension Law and Rules, presented the following report of the Committee:

LEGISLATION AFFECTING THE CHICAGO TEACHERS' PENSION FUND introduced in the SIXTY-SIXTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS

The Committee on Pension Law and Rules reports that four bills, affecting the Chicago Teachers' Pension Fund, were introduced in the 66th General Assembly of the State of Illinois. The outcome of that legislation is as follows:

SENATE BILL 501, providing for administrative, corrective and clarifying amendments to the Chicago teachers' pension law, was sponsored by Senators Knox, Saltiel, Adesko, and Barry, and introduced May 3, 1949. This bill was passed by the Senate on May 25, 1949. Sec. 34-105 (providing for the suspension of pensions during employment by the City of Chicago or any municipal corporation therein) was amended in the House of Representatives by inserting the following: "except that service as a judge or clerk of election shall not be deemed employment". The bill was passed by the House on June 30, 1949. Upon the signature of Governor Adlai Stevenson on August 1, 1949, Senate Bill 501 was enacted into law.

HOUSE BILL 876, identical with Senate Bill 501, was sponsored by Representatives Noble W. Lee, Berman, Skyles, Best, Swanson, Simpson, Monroe, Dillavou, Schneider, Schuler, Arrington, Kohout, Davis, Armstrong, Randolph and Halick, and introduced on May 5, 1949. Because Senate Bill 501 was closer to passage during the last week of the legislative session, House Bill 876 was tabled June 24, 1949, and the sponsors transferred their efforts to the passage of Senate Bill 501.

SENATE BILL 369, providing annuities to widows of contributors, was sponsored by Senators Miller, Larson and Walsh, and introduced April 12, 1949. This bill passed the Senate on May 25, 1949. On June 24, 1949, the bill was tabled after the House Personnel and Pensions Committee recommended that it "do not pass."

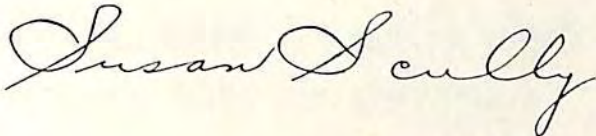

SENATE BILL 640, providing for increased benefit schedules and contributions, was sponsored by Senators Saltiel and Adesko, and introduced

June 1, 1949. This bill was stricken, along with Senate Bills in Committee, on June 24th, 1949.

On motion of Mrs. Kadlec seconded by Miss Burns, this report of the Committee on Pension Law and Rules was approved and ordered printed.

ADJOURNMENT

On motion of Miss Scully, seconded by Miss Burns, the meeting adjourned to meet at the call of the Secretary.
